

Griffith College

2025 / 26

PROSPECTUS

GRIFFITH COLLEGE

Dublin | Cork | Limerick

Introduction from the President

Professor Diarmuid Hegarty

I am delighted to introduce you to Griffith College. In choosing Griffith College, you are joining a community of over 7,000 students at our four campuses, two in Dublin and one in both Cork and Limerick, and an alumni network of more than 40,000 graduates who over the past five decades have gone on to achieve notable careers both nationally and internationally.

I wish to commend the commitment and dedication of our learners. In the coming decades our graduates can expect to have up to 15 different jobs over the course of their working lives. To succeed in the modern economy, they will need a detailed knowledge of their discipline and a set of transferable skills that will allow them respond to changes in the employment market.

At Griffith College, our lecturers are noted for their industry experience, and through our industry links and apprenticeships we are committed to ensuring our learners are employment-ready and possess lifelong transferrable skills.

Ó bunaíodh an Coláiste, bhí an tacaíocht bhfoireann teagaisc do na mic léinn le sonrú i gcónaí. Pé athraithe a chuirfear i bhfeidhm sna blianta romhainn, beidh an cultúr fáilteach céanna i réim chun na mic léinn a spreagadh chun barr feabhas a bhaint amach.

”

We take pride in providing Irish and International students with opportunities to develop broader life-skills and a network that will stand to them throughout their lives. With small class sizes and mentoring provided by the college's academic and pastoral care teams, our lecturers will give you the skills you need to succeed in life and in your chosen field of study.

It is the commitment to a well-rounded education that has stood our students and graduates in such good stead. We remain committed to providing an inclusive, comprehensive learning experience. I look forward to welcoming you on campus.

A handwritten signature in black ink that reads "Diarmuid Hegarty". The signature is fluid and cursive, with a large, stylized "D" at the beginning.

**Prof Diarmuid Hegarty
President**

Griffith College

Griffith College Dublin

**Established in 1974,
Griffith College is
Ireland's largest
independent third-level
institution.**

Griffith's Dublin campus offers full, part-time and blended learning courses at undergraduate and postgraduate level, as well as professional and short courses.

The campus, based on South Circular Road in thriving Dublin 8, is very handily located for all students. It's a 20-minute walk into St Stephen's Green and ten minutes away from Camden Street and Wexford Street.

Web: www.griffith.ie

The buildings have a rich history dating back over 200 years. This historical backdrop sits alongside cutting-edge technology for the College's learners. That blend of old and new, Irish students and international, undergraduate and postgraduate learners gives our Dublin campus an energy that is unmatched.

At Griffith College, we pride ourselves on providing a supportive and mentoring environment that allows our students to achieve their best potential. Our lecturers consistently go the extra mile for our students. That's the Griffith way.

In 2008, in order to provide a full and flexible service to students of the greater Dublin area, Griffith College started running classes in Dublin City Centre.

In 2018 Griffith College opened a modern teaching facility, Griffith College City Centre on Wolfe Tone Street.

Griffith College City Centre is located beside the busiest shopping area of Dublin with Arnotts and the Ilac Centre nearby.

It is easily accessible by public transport with the nearby red and green Luas lines, and all the buses that serve O'Connell Street and the Quays along the River Liffey. Dublinbikes is also on our doorstep.

Griffith College was first established in Cork in 1998 with the School of Professional Accountancy.

In June 2005, Griffith College Cork merged with Skerry's College. Skerry's College had been at the forefront of education in Cork since 1884.

Griffith College Cork runs a variety of both full-time and part-time, undergraduate, postgraduate and Masters programmes in Law, Business, Accounting, Computing Science and Pharmaceutical Business

Management as well as professional programmes in Law and Accountancy.

Griffith College Cork is strongly committed to the creation of a positive learning environment. This relaxed and productive atmosphere is achieved by developing a strong pastoral care ethos, evidenced by the open-door policy of lecturers, the operation of all lectures on a first-name basis, the provision of both written and oral feedback on formal and informal assignments, and the close, friendly working relationship between students and staff, all of which are based on a spirit of trust and collaboration.

**In September 2006
Griffith College
acquired the Mid-West
Business Institute
(MWBI) and became
Griffith College
Limerick. The new
entity carried forward
the proud traditions
and reputations of
both institutions, which
were founded in 1974
and 1988 respectively.**

The Limerick Campus provides a wide range of full-time, part-time, blended learning and apprenticeship programmes from its campus facility in the heart of Limerick city. Internationally recognised qualifications ranging from Level 6 to Level 9 on the Irish Framework of Qualifications (NFQ) in Accountancy, Business, Computing, Engineering and Hospitality, are on offer through its validating partners; Quality Qualifications Ireland (QQI), the Association of Chartered Certified Accountants (ACCA), Heriot-Watt University (HWU), and the Business Technology Council (BTEC).

At the Limerick Campus, students can expect smaller class sizes and individual attention in a student-focused, reassuring learning environment. Students receive support and encouragement in their academic studies, pastoral care and preparation for work from both lecturers and staff. The over-arching goal of the College is that all students would reach their full potential and be ready to take up employment in their chosen field. Each year the College welcomes students from a variety of backgrounds and nationalities to its Limerick campus. The vast majority of them have gone on to rewarding careers in a variety of sectors with the qualification they gained with us.

Our Validating Partners

When you complete a QQI-validated programme, you earn an award that is widely recognised throughout Ireland and internationally. As the state qualifications agency, QQI aligns its awards to the National Framework of Qualifications (NFQ) and the European Qualifications Framework (EQF). These frameworks are entities through which all learning achievements measure and relate, regardless of where learners achieve them.

QQI-validated programmes are subject to extensive periodic review, and as such you can be sure that your programme has recently been approved as up-to-date and fit-for-purpose.

Edinburgh Business School, Heriot Watt University

Edinburgh Business School is the Graduate School of Business of Heriot-Watt University, a leading British University accredited by Royal Charter. Edinburgh Business School have been helping working professionals become business leaders for over 25 years, offering high-quality and accessible postgraduate programmes in business. Griffith College Limerick runs the Master of Business Administration (MBA) programme in association with Heriot-Watt.

Professional awarding bodies

- Accounting Technicians Ireland (ATI)
- Association of Chartered Certified Accountants (ACCA)
- Business and Technology Education Council (BTEC)
- CPA Ireland
- The Honourable Society of King's Inns

Griffith College works in partnership with a number of awarding bodies in Ireland and the UK. Awarding bodies are external authorities who recognise and approve a programme(s) of study to be delivered, if the programme meets its standards.

By working closely with awarding bodies, Griffith College ensures that our degree programmes are of a high standard and that your learning achievements can be recognised across Ireland and internationally.

Academic awarding bodies

QQI

Quality and Qualifications Ireland (QQI) was established under the Qualifications and Quality Assurance (Education and Training) Act 2012. A significant proportion of the College's programmes are validated by QQI, and the college's procedures for quality-assuring programmes were re-approved by QQI in 2019. The authority was created by an amalgamation of existing bodies including the Higher Education and Training Awards Council (HETAC), the Further Education and Training Awards Council (FETAC), the Irish Universities Quality Board (IUQB) and the National Qualifications Authority of Ireland (NQAI). As such QQI is the singular state authority for the recognition of qualifications.

“

I loved my experience at Griffith for many reasons; making friends from a variety of cultures and backgrounds, knowing that I could always count on the lecturers and staff for every doubt or concern, but also the feeling of being in a building full of so much history. It was an amazing year and I'm glad I made it to the end!

Raqueline Curvelo
MSc Applied Digital Media Graduate

Our Students

2021 SMEDIA Video Journalist of the Year

Brendan Morris, who is currently studying in our BA (Hons) in Communications & Media Production course, received the Video Journalist of the Year award at the 2021 Student National Media Awards. "I didn't know how that nuanced approach to video journalism would be perceived, but it's good to know it went over well!"

A **Win at Annual IDI Awards Ceremony 2020 & 2021 Commendation**

At the 2021 IDI Graduate Awards, Lena Jordan received a commendation for her innovative input into the Fashion Design category. Lena's Skateboard lifestyle collection is called TWENTY EIGHT M2, inspired by the minimal house movement, reducing your daily living footprint on the planet to a minimum through multifunctional design details. Her transformational garments provide warmth and shelter merged into products designed for alternative functional use. At the 2020 awards, Griffith boasted two winners: Bethaney Woolley's 'Blind Spot' (Fashion Design) and Lijie Yan's 'All Girls Equal' (Visual Communications).

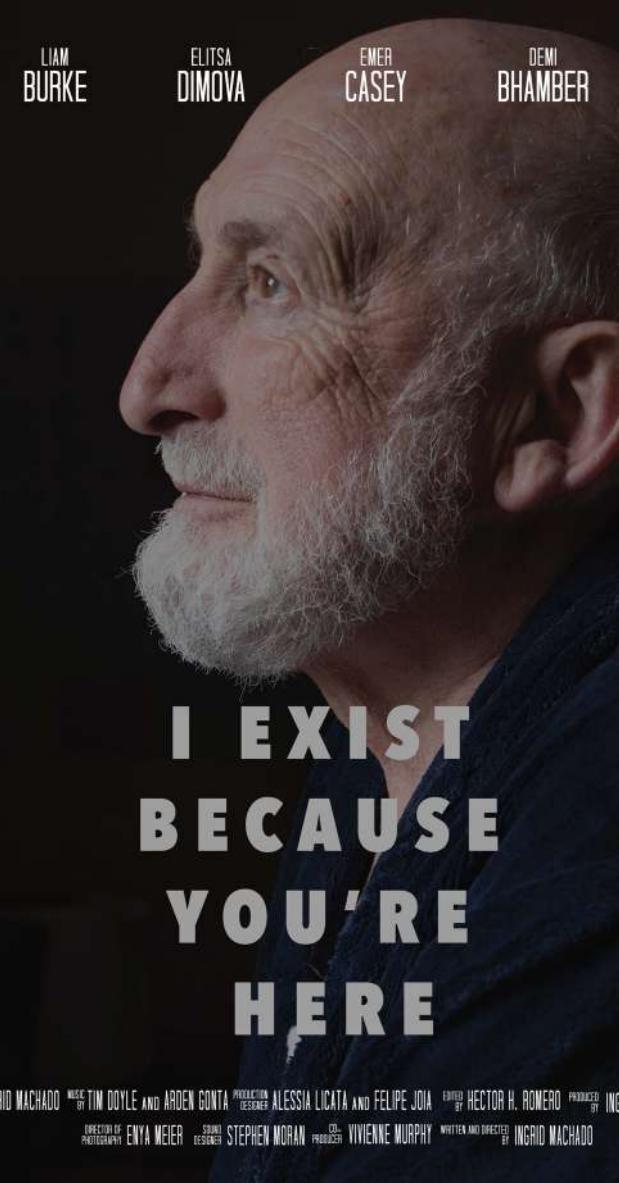

Outdoor Photography Exhibition April 2021

Griffith College Photography partnered with Irish Poster Advertising LTD (IPA) to launch the 2020 Photography Graduate Exhibition across the streets of Dublin in April 2021. Discussing the initiative, the head of Photography at Griffith Sinead Murphy said: "This group of image-makers did a fantastic job this time last year when life was turned upside down."

Film and Documentary Shorts Awards 2021

Libre: A Celebration of The Queer Body, produced by BA in Film & TV Production students and directed by Arthur Lopes won the following awards in 2021: Best Documentary Short at Prague International Indie Film Festival, Best Film at LGBTQ+ Toronto Film Festival, and Best LGBTQ Documentary at Venice Shorts. The film was also selected for the following international film festivals: Official Selection Indie Shorts Awards Canne and the Official Selection Montreal Independent Film Festival.

I Exist Because You Are Here, produced by Griffith students and directed by Ingrid Machado was selected for the following international festivals: The Rome Independent Prisma Awards, The Independent Shorts Awards in LA, and The New York International Film Awards.

Entry Requirements

Entry Requirements	Leaving Certificate Common Points Scale	A Level /GCSE	QQI/FETAC
Level 8 Honours Degree	Min. 2 H5s and 4 O6/H7s (some programmes will require O6 in Maths.)	6 distinct recognised subjects which must include: 2 subjects at GCSE A Level grade C and 4 other subjects at GCSE Level Grade C	Level 5 Full Award with 3 distinctions
Level 7 Degree	Min. 5O6/H7s (some programmes will require O6 in Maths.)	Min. of 1 Grade E A Level & 4 subjects from either A levels (Grades A-E) or GCSE (Grades A, B or C).	Level 5 Full Award
Level 6 Higher Certificate	Min. 5O6/H7s (some programmes will require O6 in Maths.)		Level 5 Full Award

These pages highlight key information points about academic requirements set by our validating partners for both undergraduate and postgraduate programmes.

Postgraduate Programmes

Please review the entry requirements for each postgraduate programme on their relevant course web pages. Please visit www.griffith.ie/find-a-course.

Language Requirements

All undergraduate degree programmes require a pass in either English, Irish or a modern language.

Maths Requirements

The following are the only courses that do not require a grade in Maths:

- LL.B. (Hons) in Law
- Certificate and BA in Photography
- LL.B.(Hons) in Commercial Law
- LL.B. (Hons) in Criminal Justice
- BA (Hons) in Communications and Media Production
- BA in Communications

*Please note that all other courses require a grade in Maths.

The following pages detail how to apply for courses offered at Griffith College Dublin. They provide guidelines for CAO and Direct Entry applicants.

New 2017 Common Points Scale

In 2017, the Irish universities, Institutes of Technology and all other colleges which accept applications through the CAO introduced a revised Common Points Scale.

Direct Entry Courses

Griffith College Dublin also offers a large number of courses in each faculty that may not appear on the CAO system. Applications to these courses can be made directly to the GCD Admissions Office or via our website: www.griffith.ie/apply.

Leaving Certificate Points	Higher	Ordinary
H1/01	100	56
H2/02	88	46
H3/03	77	37
H4/04	66	28
H5/05	56	20
H6/06	46	12
H7/07	37	0
H8/08	0	0

LCVP Link Modules

Distinction = 66 , Merit = 46, Pass = 28

- 25 bonus points will be added to the points score for Leaving Certificate Higher Level mathematics, at grades H6 or above.

CAO Applications

Students under the age of 23, on January 1st of the year of entry, who wish to apply to the first year of any QQI validated undergraduate full-time programme, must make that application through the CAO system. The closing date for applications for EU citizens is February 1st, with late applications being accepted until May 1st. Up to July 1st, students may also fill out a CAO 'Change of Mind' form. Application forms and copies of the current handbook are available from the GCD Admissions Office or from the CAO directly.

More detailed information regarding CAO deadlines and the CAO application process can be obtained by visiting www.cao.ie.

Selection of CAO Applicants

Selection is made on the basis of the total points awarded in a student's top six subjects, in a single sitting of the Leaving Certificate. The results of two sittings of the Leaving Certificate may be combined for the purposes of meeting the programme requirements for minimum entry. Please note that not all students presenting the minimum entry requirements will be guaranteed a place at the College. Please consult individual course descriptions in this prospectus for the most recent CAO points.

Leaving Certificate Vocational Programme (LCVP)

Holders of the Leaving Certificate Vocational Programme apply in the usual way through the CAO system. Points are awarded on the same basis as the Leaving Certificate. The Link Modules are considered as a single unit and are awarded points based on the result per unit. The Link Modules can be used as a sixth subject for points calculations only.

Leaving Certificate Applied Programme (LCAP)

The College does not recognise LCA subjects as meeting its minimum entry requirements. If combined with a Grade 5 QQI FET/FETAC Award, applicants may apply for a higher certificate or degree course in the College.

QQI/FETAC links to academic programmes at Griffith College

Griffith College welcomes applications from students who hold a full QQI/FETAC Level 5 Award which typically contains eight modules. A full award may be accumulated over more than one academic year. In such cases, it is the responsibility of the student to apply to QQI/FETAC for a full award where the modules are taken over more than one year. Please note that a record of achievement does not meet the minimum entry requirements.

- To be eligible for consideration for an Honours Degree programme, the applicant must hold a QQI/FETAC Level 5 certificate with a distinction grade in at least three modules.
- To be eligible for consideration for an Ordinary Degree or Higher Certificate programme, students are required to hold a QQI/FETAC Level 5 Award.

QQI/FETAC Application Process

Applications must be made through the CAO for those courses offered through the CAO. For direct entry programmes, applicants must send a completed direct entry application form to the College. For more information on this access route, please contact the Admissions Office on

+353 1 415 0400 or email admissions@griffith.ie.

Direct Entry Courses (including full-time, part-time and postgraduate)

Applicants for all Griffith College direct entry courses are required to meet the minimum entry requirements as indicated in the individual course descriptions in this prospectus. Mature applicants for any full or part-time undergraduate programme are required to supply photographic identification and evidence of date of birth. Applications for all direct entry programmes (undergraduate, postgraduate, part-time/evening time) must be made on the website www.griffith.ie/apply and relevant* supporting documentation can be emailed to admissions@griffith.ie or posted to **The Admissions Office, Griffith College Dublin, South Circular Road, Dublin 8.**

*All applications for direct entry to undergraduate programmes should include a copy of official Leaving Certificate results with the exception of mature applicants (who must supply evidence of date of birth). All applicants for postgraduate programmes should include an official copy of third level qualifications.

Accreditation of Prior Learning and Prior Experience (APL/APEL)

Griffith College welcomes applications from those with prior academic and/or professional learning experience relevant to the programme of their choice. Please contact the Admissions Office for more information on the policies regarding the accreditation of prior learning and experience (APL/APEL).

Transfer Applications

The College welcomes applications from students holding qualifications from other accredited institutions and universities. Depending on the nature and duration of their studies, such students may be eligible to join the second or third year of the College's QQI Ordinary and Honours Degree programmes.

Mature Applications for Undergraduate Courses

Griffith College Dublin welcomes applications from

mature applicants.

Applicants interested in applying for a programme as a mature student should contact the Admissions Office for more details and applicants should apply directly online at www.griffith.ie/apply.

Transfer to Year 2 of an Honours degree programme

- Students holding a relevant QQI Higher Certificate (NFQ Level 6) may qualify for exemption from all or part of the first year of a relevant Honours Degree programme.
- Students holding a relevant Higher National Diploma (HND) may qualify for exemption from all or part of the first year of a relevant Honours Degree programme.

Transfer to Year 3 of an Ordinary degree programme

- Students holding a relevant QQI Higher Certificate (NFQ Level 6) may qualify for exemption from all or part of the second year of a relevant Honours Degree programme.
- Students holding a relevant Higher National Diploma (HND) may qualify for exemption from all or part of the second year of a relevant Ordinary Degree programme.

Transfer to Year 3 of an Honours degree programme

- Students holding a relevant QQI Ordinary Degree (NFQ Level 7) may qualify for exemption from all or part of the second year of a relevant Honours Degree programme. Students who wish to transfer to Griffith College should complete an application form online www.griffith.ie/apply, and email a photocopy of their existing subject results and a full programme syllabus to admissions@griffith.ie.

The Admissions Office will have a decision regarding transfer applications within ten working days or by the closing date of August 31st.

Other points to consider when applying

Griffith College Scholarship Scheme

The Griffith College Scholarship Scheme is designed for students who wish to enter a programme of study at the College but are unable to do so due to financial constraints or social circumstances. The scheme is open to students interested in applying for our full-time undergraduate programmes and who are presently attending an approved second level institution. It is envisaged that students who would not otherwise have access to the programme of their choice at Griffith College Dublin could do so under this initiative.

Application forms and details can be obtained from your school or from the Admissions Office at Griffith College Dublin. The closing date for applications is April 30th each year and a decision will be made by May 31st regarding successful applications.

Students with Disabilities and Special Needs

Applicants with disabilities and special needs wishing to pursue an academic programme at the College are recommended to contact the College in writing with details of the nature and extent of your disability. This will allow us to give you the best advice prior to application. Applicants will be given ample opportunity to advise the College of any specific requirements and can be assured that this disclosure will not adversely affect their application or legal rights in any way.

Tax Relief

Most programmes of two or more years' duration have been approved for tax relief. Applicants should note that the qualifying conditions for relief may differ for full and part-time students. Relief is granted at the standard rate of tax, and details can be found at www.revenue.ie.

“

The programme was very practical with a focus on transferable skills and employability throughout the various modules. We had real life case studies and assignments which aided our understanding of various concepts. The classes were really interactive with breakout rooms and discussions which encouraged us to brainstorm and debate interesting topics with our classmates and that really gave the opportunity to experience the social aspect of college.

The level of staff support was incredible. They made it clear that they were there to help at every step of the way and made sure we were aware of the additional supports available such as free online counselling and mental health webinars.

Erica Masterson

Bachelor of Arts (Hons) in Business Studies

”

Griffith College has dedicated Schools Liaison Officers in Dublin, Cork and Limerick. Our Schools Liaison Officers are here to help with enquiries from students, parents, guardians, teachers, guidance counsellors, principals and parents' associations.

Below are some of the initiatives and services that our Schools Liaison team offer:

Opportunity Scholarship

Every year Griffith College awards scholarships to students who show an interest in our courses and can demonstrate an ability or passion for that area. The scholarship is open to any current Leaving Certificate students or those studying on QQI Level 5 courses in Ireland. Northern Ireland school students may also apply. The scholarship is means tested with the aim of providing an equal opportunity for more students to attend an independent college. For further information, common FAQ's are available on our CAO Hub on the website here: www.griffith.ie/cao You can also email our Schools Liaison Officers directly with the email provided below.

CAO HUB

We have a dedicated CAO Hub on our website where you can learn about life at Griffith College and get information on our undergraduate courses. The information in our CAO Hub is intended to inform prospective students, guidance counsellors and parents of secondary school students curious about colleges. On this hub, you can explore our college videos, which will give you an insight into some of the courses we have on offer. To find out more, please visit: www.griffith.ie/cao

Open Days

Open Days are a great opportunity to visit our campus and talk to our faculty staff and admissions team about the courses we offer. To register for upcoming Open Days, please visit: www.griffith.ie/opendays

School Visits

Our Schools Liaison Officers are available to visit schools nationwide to inform students about the courses available at Griffith College. Please contact us to request a virtual or face-to-face visit.

Education and Careers Fairs

Griffith College is represented at all the major student and careers fairs across the country.

Email: schools@griffith.ie
www.griffith.ie/schools

Griffith College provides career focused education, producing graduates who are highly employable worldwide and who excel in their chosen careers.

Living in Ireland

Ireland is an exciting place to live and study. Our blend of tradition and contemporary living is unique. We are proud and protective of our ancient culture, yet we have embraced our role as a centre for the digital revolution and international trade. Over 5 million people enjoy our mild, oceanic climate and a landscape that stretches across lakes and mountains, and more than 2,000 miles of coastline, which attracts over 10 million tourists to our shores yearly. In recent years, Ireland has become a global centre for the banking, telecommunications, pharmaceutical and software industries.

With an impressively high quality of life and a well-educated workforce, many international companies have set up their European headquarters in the country. Ireland has had one of the highest economic growth rates in the EU, and much of this success can be attributed to our education system. Our long and impressive academic tradition has been established over many years and, today, the country offers one of the highest standards of education in the world.

The City of Dublin

Dublin continues to be one of Europe's most vibrant and exciting capitals. It is a university city and home to many renowned centres of learning. A large percentage of the city's population is under 35 and with many cafes, restaurants, cinemas, music venues, pubs and clubs to choose from, there are few better cities in which to enjoy your time as a student. The city's mix of cultural and economic success, along with the strength of its literary and musical tradition, makes Dublin an ideal location for study.

At Griffith College Dublin you'll be right at the heart of it, just a few minutes away from the city centre itself.

Studying in Griffith College: Global Engagement Office

The Global Engagement Office is committed to ensuring excellent support services for the integration of international students into the College. The experienced global staff are available to assist students with any academic or welfare issues they may have.

Applying for a Study Visa

If you need a visa to study in Ireland, you must apply to your local Irish Embassy/Consulate. Please contact the Global Engagement Office if there is no Irish Embassy/Consulate in your country of residence. The Griffith College Visa Officer can provide guidance on your visa application.

For further information please visit the GC website www.griffith.ie/global or contact the Global Engagement Office by email at global@griffith.ie

Application Guidelines

To make an application to the College you can apply online at www.griffith.ie/apply-online.

Please ensure that you include the following with your application:

- Copies of second level/high school certificates (including all grades achieved in examinations and/or transcripts of grades achieved).
- Copies of university/third level award certificates (where applicable). Provisional certificates must be provided if the award has not yet been issued.
- A transcript of results for all subjects taken at third level must be provided.
- TOEFL/IELTS/Duolingo score sheet or other internationally recognised English language test score if applicable.
- Proof that education was conducted in English if applicable (letter from school/college required).
- Copy of relevant pages of passport.
- CV/Résumé detailing your academic/work history year-by-year with no gaps.
- Statement of Purpose/Student Profile indicating the reasons for your choice of course and why you want to study in Ireland and at Griffith College.
- Two reference letters, at least one of which should be academic i.e., from a professor, lecturer or teacher.

English language entry requirements

Students from countries where English is not the native language must demonstrate that their language level is of a suitable standard. GC can appraise a student's English language level as follows:

- **TOEFL/IELTS/Duolingo (or other):** If a student has achieved a satisfactory score in one of these internationally recognised English language tests, they may progress to their chosen programme. (Please see table on the right indicating scores required for GC programmes). Test results older than 2 years will not be accepted.

• English Language Test:

Students who are not in possession of an internationally recognised English language test or who have not achieved the required score will be required to complete an English Language Test before a final offer can be given.

There is an Irish Immigration Service requirement for students from certain non-EU countries to have a particular IELTS (or equivalent) score, depending on the course they are applying for, in order for them to be considered for a Study Visa for Ireland. Please contact us for further details.

All entry requirements are intended for use as guidelines only. Applicant acceptance is at the discretion of the relevant Griffith College Programme Director. Entry requirements may vary from country to country.

Accommodation

Accommodation is available on campus in the Griffith Halls of Residence. This is a safe and secure environment on the grounds of our historic Dublin campus. Further information about the Griffith Halls of Residence and the application procedure is available on page 29 or on the accommodation website: www.ghr.ie.

Griffith College English Language Entry Requirements

Programmes	Minimum CEF Level/ IELTS Level
Undergraduate Programmes in Journalism	CEF B2+ / IELTS 6.5
Undergraduate Programmes in Law	CEF B2+ / IELTS 6.5
All other Undergraduate Programmes	CEF B2 / IELTS 6.0
Postgraduate Programmes in Journalism	CEF C1 / IELTS 7.0
All other Postgraduate Programmes	CEF B2+ / IELTS 6.5

Working in Ireland - Non-EU Students

Griffith College's non-EU learners are entitled to work 20 hours per week during term time and 40 hours per week during specified holiday periods. The Irish Immigration Service (ISD) has compiled a register of approved third-level programmes, and students who are registered on these programmes are permitted access to part-time employment.

You can view the listing of approved courses on the Irish Immigration Services website [www.irishimmigration.ie](http://irishimmigration.ie)

Additional information is available from our Global Engagement Office on request. It is essential that any part-time work undertaken by learners does not interfere with their studies and that their academic performance is not affected by their part-time employment.

I got the chance to live and study in Berlin for six months. It was a perfect experience for me. The German college was great and I've made friends for life. I'm even planning on moving to Berlin when I graduate from Griffith College.

**Bruno Monnerat,
BA (Hons) in Business Studies**

Study Abroad and Erasmus

Our students have access to a global network of partner institutions across Europe, Australia and the USA.

We encourage all students to take advantage of this excellent opportunity to introduce themselves to different cultures, languages and experiences.

Immerse yourself in a new environment to grow both personally and academically with support available every step of the way. Griffith College prides itself on its international student community of over 100 nationalities and 140 third level partnerships worldwide. As our international students will testify, there is nothing better than experiencing different countries and cultures firsthand. In an increasingly global employment market, studying abroad can also enhance your future employment prospects, as you will learn about cultural and professional differences in other economies.

Erasmus+ Funding

Griffith College Dublin is an active participant in the EU Erasmus+ mobility programme. Agreements are in place with European institutions in France, Germany and Austria, and the College is continuing to develop additional linkages.

For further details please contact the Global Engagement Office at global@griffith.ie.

English Language & International Foundation

Griffith Institute of Language offers English language learning programmes and an International Certificate in Foundation Studies within a safe and stimulating college environment.

We offer English language programmes in Dublin, Cork Limerick, these include, General English, Business English, English for Academic Purposes and Exam Preparation. Apply today and prepare to experience language learning in an exciting and immersive environment. Griffith Institute of Language is accredited by ACELS, under the auspices of Quality and Qualifications Ireland, for English language teaching (ELT). Griffith Institute of Language is a member of English Language Education Ireland, a quality-driven, experienced and globally respected group of international English Language Schools. For our full selection of programmes please visit www.griffith.ie/faculties/griffith-institute-language

For learners looking to enrol on Griffith College degree programmes but do not meet the language requirements Griffith Institute of Language offers an English for Academic Purposes (EAP) programme that includes extensive cultural and academic orientation, as well as core language skill development.

Learners with a higher level of English can develop their language skills in specific areas related to their continued study or professional development by choosing Gap / Exchange programme. On this programme Academic modules are carefully selected from Griffith College's undergraduate programmes, they are then supported with 15 hours of Academic English in our language institute. Modules include but are not limited to:

- **Introduction to Photography**
(Journalism Faculty)
- **Understanding Society**
(Journalism Faculty)
- **Event Management**
(Business Faculty)
- **E-Business**
(Business Faculty)

Participation in academic modules is subject to availability and dependent on the language level of the learners.

For more information:

Email: gil@griffith.ie

Website: www.griffith.ie/faculties/griffith-institute-language

Certificate in International Foundation Studies

The Certificate in International Foundation Studies (CIFS) is a QQI level 5 programme tailored to specific subject discipline areas (Business and Science) and combines academic study, intensive English language preparation, study skills and cultural orientation. It is available to students who plan to enrol on a higher education programme but do not meet the academic and/or English language entry requirements. The programme is delivered through the medium of English.

This programme runs over five days, Monday – Friday. On average, the programme involves 22 hours per week of direct contact time. Students may choose three electives in either the Business or Science stream or a mix of Science and Business electives. The Study Skills component of the programme is essential preparation for university life, helping students to work effectively in groups, present ideas, manage their time, conduct research, take lecture notes, learn how to structure essays and present academic writing and understand how to evaluate their own work.

“ I always dreamed of going away for a year to study a language. I remember looking at a flyer which featured a picture of Ha'penny Bridge with Dublin's colourful City Centre in the background. I remember reading it about 100 times that night and the next day I said to my mother, “I want to go to Dublin,” After one year in Dublin, I decided to study with Griffith. Life at Griffith is full of energy! There is always something to do, which is great as it gave me plenty of opportunities to make new friends and try different activities. In 2020 I completed my final year of the honours Undergraduate Business programme.

**Ana Gil-Villanueva
BA (Hons) in Business Graduate 2020**

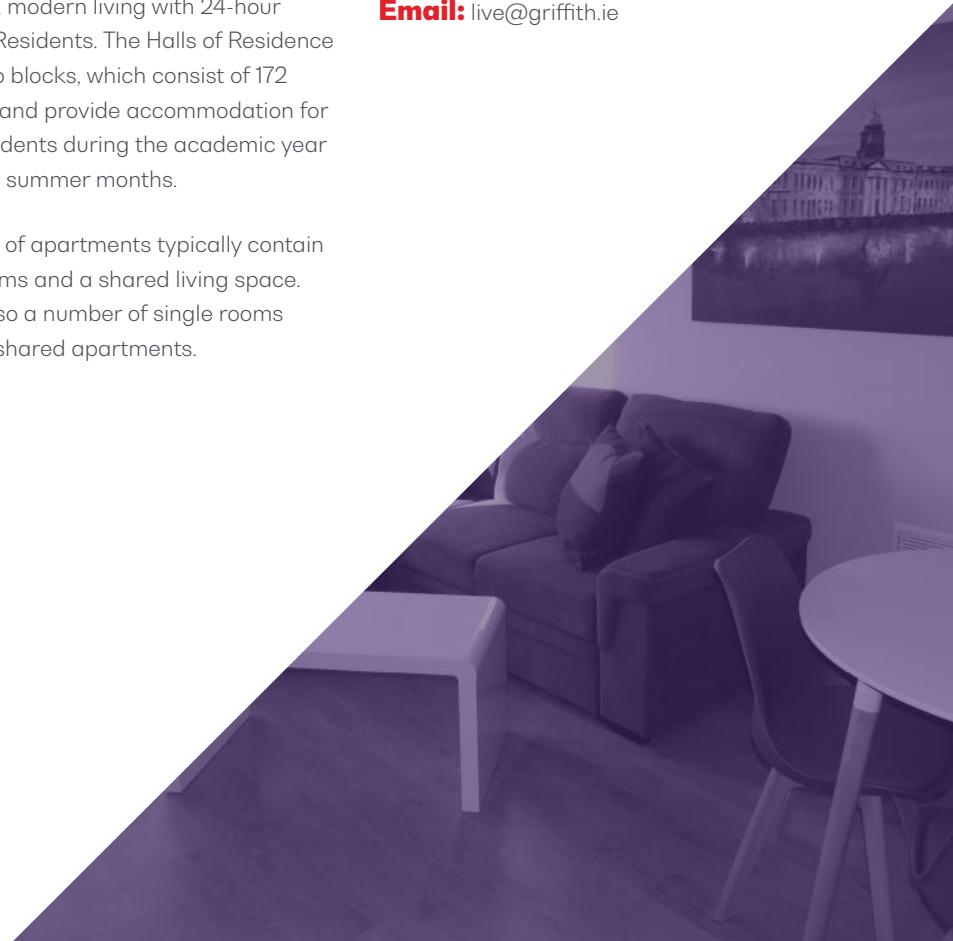

Griffith Halls of Residence

Griffith Halls of Residence (GHR) is Griffith College's on-site student accommodation provider. It is located to the rear of the campus, on landscaped College grounds overlooking the Grand Canal.

Just 20 minutes walk from St. Stephen's Green in Dublin's city centre, GHR's enviable central location is ideal for students studying at Griffith College, South Circular Road.

Griffith Halls of Residence have been sensitively designed to complement and reflect the historical significance of the campus as a whole while offering comfortable, modern living with 24-hour security for Residents. The Halls of Residence is built in two blocks, which consist of 172 apartments and provide accommodation for over 660 students during the academic year and over the summer months.

The majority of apartments typically contain two twin rooms and a shared living space. There are also a number of single rooms available in shared apartments.

Apartments are available throughout the academic year, which runs from September to June. Either the full accommodation fee or 55% of the fee should be paid in advance to secure a booking. Prices and details of our room types can be found at <https://www.griffith.ie/ghr/rooms>.

Students are required to initially pay an Application Fee (by either Bank Transfer or Draft/Cheque/Postal Order/Debit Card). Students also have to sign a Lease Agreement for the period requested. In addition, specific rules and regulations will apply.

For further information

Our Virtual Tour, and details on rates etc., please contact us at:

Website: www.griffith.ie/GHR

Phone: +353 1 416 3320

Email: live@griffith.ie

- Access to the building is controlled by unique security key fobs personalised for each student
- Underground car/bike park

As part of a full student experience at Griffith College, there is a wide choice of clubs and societies to join. Check out the Griffith College Activities Team at Griffith College Dublin for more information.

Sports and Societies

The range of active sports and societies on campus continues to grow on an annual basis. Students are encouraged to approach the Sports and Societies' Officer with any ideas for new sports and societies. Schedules for all sports and societies are available from the Activities Team office.

The Sports and Societies Officer is available to provide information and to offer guidance and advice. A comprehensive range of sports is offered to suit the needs and interests of the student body. Griffith College Dublin's range of sports clubs and societies is continuously expanding.

There are many sports clubs, including basketball, volleyball, soccer and table tennis. All these sports cater for men and women. Sporting facilities are provided in several off-campus locations.

Students may learn about and join the various sports and societies during Freshers' Week, which is held during the first week of term. The College offers basketball scholarships for suitably qualified and experienced students. For more information, please contact basketball@griffith.ie.

Some of the Sports & Societies available from the Activities Team are:

-  Soccer
-  Basketball
-  Pool
-  Beer Pong
-  Film
-  Volleyball
-  Badminton

The Students' Union

The Students' Union is a space for students that is run by students. In Griffith College, the SU is made up of a President and 2 Vice-Presidents, who work on student campaigns, events, class reps and ensuring that the students of Griffith College are represented and their voice is heard.

In the Students' Union building, students may enjoy the use of a games room, including X-box and PlayStation, TV and chill zones, kitchen, pool tables and table tennis. As well as being a location to relax, you can also avail of the Student Leap Card printing service.

The Students' Union staff also regularly attracts promotional sponsorship, and all events are advertised well in advance. Events include Freshers' Week, Charity events, and the seasonal Halloween, Christmas and Refresher events.

The Students' Union, is also responsible for the Societies on offer. In most cases, societies are organised by students, and are an opportunity to develop organisational, fundraising and social skills. Students are encouraged to get involved and to start new societies here in Griffith College.

The Griffith College Activities Team organises a wide range of student events throughout the academic year providing affordable, quality entertainment in a safe and student-friendly atmosphere.

The Griffith Activities Team organise the 'Wellness Series' throughout the year, focusing on areas such as mental and physical health for students. They also organise the event which is the highlight of the year; the annual Griffith Ball, where students get the chance to party in style and celebrate the end of the academic year.

The Griffith College Activities Team hosts three discovery trips each semester, two overnight and one day trip. Semester one usually starts with the day trip to the picturesque Glendalough and Kilkenny Castle. This is then followed by the first overnight trip setting off for an idyllic part of Ireland to visit some of the great attractions Ireland has to offer, seeing the sights of Cork, Killarney, Lahinch and all that's in between, and of course, another Activities Team arranged night out or two.

The third trip of the semester involves a weekend at an adventure centre where students get the opportunity to test themselves at rock-climbing, canoeing, bog walking zip-lining and much more and of course, an obligatory SU night out in the middle of it all.

Semester two usually sees the team heading to the West of Ireland, and going to many of the infamous locations Ireland has to offer, including Galway and Mayo.. For the next trip of the year, they bring students to the west coast of Ireland and the idyllic town of Lahinch, Co. Clare for the annual surf trip. The last trip of the year sees students visit the Giants Causeway for the semester two day trip.

Entertainment and Events at Griffith College Cork

Griffith College Cork Student Union organise various trips throughout the year, providing affordable, quality entertainment in a safe and student-friendly environment. Trips to local attractions such as Killarney National Park and Blarney are regularly undertaken by our international students.

The highlight event of the year is the Annual Griffith College End of Year Ball in Dublin. Social events such as movie and games nights are regularly held throughout the year.

Entertainment and Events at Griffith College Limerick

Griffith College Limerick offers a comprehensive social calendar distributed monthly to students. Events are organised by our social coordinator and available to all students. Events range from sports, cultural activities, day trips, overnight trips and nights out in the local bars. Students can also join GCL's soccer team. Griffith students also participate in Freshers' week, charity events, and the seasonal Halloween and Christmas events. Griffith College Limerick students have the opportunity to attend the annual Griffith Ball in Dublin, where students can celebrate the end of the academic year.

Recent highlights in Griffith College

- Women's Basketball team Division 1 League Champions
- Men's Basketball Division 1 Champions
- Men's Football team reached the league and Cup finals
- Badminton Team reached league Semi-Final
- GCD student selected to represent Ireland with The Irish Colleges & Universities Football Team vs French Universities Team

We support our students by providing a range of services and facilities to ensure a smooth experience for the duration of their time here.

Urban Square Food Co.

Urban Square offers full catering on our South Circular Road Campus. The restaurant and cafe provide a wide variety of breakfast, lunch and beverage options.

IT Support & Computing Facilities

The College provides an Office 365 account for all students. This gives student access to an email account, online cloud storage and access to the Microsoft Office suite.

Our South Circular Road Campus has five Mac Labs and thirteen PC Labs, equipped with the latest iMac and PC desktops, complimented by black & white, colour and 3D printers and Augmented Reality hardware. See www.griffith.ie/it for more information

Lecture Recording Service

Recording facilities are available in lecture rooms throughout the campus. This facility allows lecturers to record their lecture as it is being delivered. The recording can then be uploaded to the College's virtual learning environment, Moodle. Students can then have access to that content at all times. The recording facility also allows student on some courses to view the live stream from any location.

Car Parking

Registered students with parking permits may use the parking facilities when available free of charge.

Disability Services

The College is committed to maintaining a

supportive environment whereby students are encouraged and facilitated, enabling them to maximise their potential, both educationally and socially. Students with ongoing disabilities such as learning difficulties, ongoing illness, physical difficulties, mental health difficulties and sensory disabilities can access additional support from the College. New applicants are asked to disclose this in their application form. Current students are asked to discuss their needs and requirements with their Programme Director.

Fitness Room

The College has a fitness room that is available to all students in the College. The Fitness Room is located in the B Block, just off the main reception. The room contains various cardiovascular equipment most notably elliptical cross trainers, exercise bikes and treadmills. The room also has weight machines. There are male and female changing rooms which are equipped with hot showers and secure lockers for gym gear.

Student Counsellor Support

A professional counsellor is available to any student experiencing personal difficulties. The service is completely confidential and free of charge. Appointments can be arranged to take place in person, over the phone or over zoom calls. Students who wish to meet with a counsellor can make an appointment by:

- Email: counselling@griffith.ie
- Text or call: 087 4360032
- Visit the Student's Union and arrange an appointment

This service operates from 9:00am to 9:00pm Monday to Friday and 9:00am to 1:00pm on Saturday's throughout the semester. Students will receive an automatic reply confirming receipt of their communication, and our aim is to set up an appointment within 24 hours.

Health/Medical Services

The College has an arrangement with a local medical practice which recognises the European Health Insurance card and will also offer a 10% student discount for students who don't have the card. Information about the doctor is supplied by the Students' Union.

Library

The Library service is here to help all our learners get the best from their time in Griffith, no matter where you are studying. We have a full range of relevant textbooks to support the courses in the College as well as extended research materials including journals and databases of academic publications, and document supply and access to the world's scholarship. We have printing, scanning, and copying facilities, PCs and Wi-Fi.

Our team are here to help you in your transition to academia, including assistance in finding relevant information and resources for your courses and assignments. We also provide group and individual tutorials in aspects of academic integrity, including referencing and citation as well as support for computer tools to assist with the research and writing process.

Services include:

- Support with online services and information
- Tutorials and training on academic integrity, referencing, and citation
- Help selecting resources

Resources include:

- Textbooks
- Databases/journals
- PCs, printing, scanning and copying

Online learning supports:

- library.griffith.ie
- books.griffith.ie
- [Griffith Library YouTube](#)
- [Griffith Library Moodle](#)
- go.griffith.ie

Most of our resources are accessible from our website library.griffith.ie and our catalogue (including ebooks) is on books.griffith.ie

Induction

An Induction day takes places for all new full-time students. Induction will introduce students to key staff members such as Faculty Heads, the President, Student Services, the Admissions and International Office representatives. The Students Union present on the day to give students a taste of student life at Griffith. Part-time and Blended students also have individual inductions for their respective courses.

Learning Portal & Student Portal

My Griffith is our student portal and it is the central resource for all your college needs and provides students with access to services such as online registration, payments, exam results etc. Moodle is the virtual learning environment or platform we use for programme documents, online resources and activities.

Student Services Cork

Library & Computer Services

The library at Griffith College Cork gives students access to a wide range of information through various forms such as printed textbooks, online eBooks, online databases and different forms of multimedia. The College's virtual learning environment – Moodle, gives students access to a wide range of legal, accounting, business, computing, marketing and pharmaceutical business journals and online resources. The College provides an Office 365 account for all students. This gives students an email account, online cloud storage and access to the Microsoft office Suite. All computing resources are maintained by the College's IT services department.

Car Parking

Registered students with parking permits may use the parking facilities when available free of charge.

St Luke's Cross

The College is located in the St Luke's area of Cork City. St Luke's is home to a variety of coffee shops, bars and restaurants, all of which are within a minutes' walk of the College campus.

Learning Portal & Student Portal

MyGriffith is our student portal and is the central resource for all your college needs and provides students with access to services such as online registration, payments, exam results etc. Moodle is the virtual learning environment or platform we use for programme documents, online resources and activities.

Student Health & Well-Being Services

Cork City Medical Centre, which is located on Patrick's Street, is the recommended medical centre for our students. The College also has an arrangement with a local counselling service.

This service is available to assist students with any difficulties that they may be having, either related to their studies or otherwise and is discounted for all Griffith College Cork students.

Careers Office

The careers office is here to help you make the transition from college to the world of work. Here you can access career resources, career and industry news and events, career coaching and job vacancies. All students and recent graduates can avail of career coaching.

For further information:

Phone: 021 450 7027

Academic Support Services

As well as state of the art teaching facilities, students can expect cutting-edge on-line resources at Griffith College Limerick. These include: My Griffith (provides online registration, online payments, faculty contact details, as well as links to other systems and services), Moodle (provides, programme notes, videos, assignments, timetables, schedules, assessment feedback and results), the online Library (see details below) and Themis where learners can access their exam results. Our students also enjoy field trips to industry, visits to discipline-related fairs, as well as expert guest speakers on-campus and online. Revision and tutorial sessions are provided for students as required. The campus also provides assistance with employment, both during study and on graduation. Programme Directors are available to offer guidance and support to students during their academic journey.

Our team of lecturers are committed to ensuring that all students maximise their academic potential. English language support classes are available to those who need to improve their writing skills or command of the English language. Student representatives are appointed to liaise with the Programme Directors, to ensure any challenges or issues our student groups are experiencing are resolved in a timely manner.

Library Service

The vibrant and newly refurbished Library at Griffith College Limerick, provides access to an extensive range of materials to support student's learning and make the most of their time at Griffith College. Our library offers a diverse collection of printed texts, available to borrow or reference, online databases, e-books, and multimedia resources to support our wide range of academic disciplines. Wi-Fi is available throughout, access to PCs, private study spaces, PowerPoints for electronic devices, scanners,

printers, and copiers, ensure students have everything they need for their academic journey.

Our trained librarian is available to guide students through the vast resources available, provide assignment support and to assist with any referencing and information sourcing queries. All of these resources are also available remotely via the library's website <https://library.griffith.ie/> where students can learn about booking Drop-In sessions for one-on-one support with library staff online or on campus. Our Librarian welcomes you to a world of knowledge and support at the Library – "your key to success at Griffith College Limerick!"

Health and Wellbeing Services

The mental and emotional wellbeing of our students is of the utmost importance to the College. The College counsellor offers one-one counselling sessions to students who are experiencing difficulties. To encourage interaction between different student groups and support wellbeing, events such as coffee mornings, cultural events and day trips are organised on a regular basis. Details of these events will be posted on the college noticeboards throughout the year.

Other supports are available College-wide. We encourage students to advise us of any individual supports they require as early as possible in their educational journey with us. There are many medical services located in Limerick city, including walk-in doctor services. These include Doctor 365 Limerick Walk-In, Medi Centre etc. A quick Google search will locate all of these services. Reception can also provide this information.

A local pharmacy offers a 10% discount on all prescriptions to Griffith College Limerick students. In the event of an accident or emergency the University College Hospital (UCH) is three kilometres from the College,

Student Services Limerick

Student Services Limerick

while Saint John's Hospital is 1.7 kilometres away. Additional information on health and wellbeing is available in the student handbook that is distributed during induction.

The full list of supports available to students can be found on the Student Support section of the Griffith College Limerick website.

Student Recreation Services

A modern Recreation Room is provided for students where they can relax, study, browse the internet on the PC's provided, or on their laptops via Wi-Fi. They can also watch multi-channel television. A kitchen area with a microwave, fridge, filtered water / tea / coffee station is also provided in the Recreation Room, along with a vending machine providing drinks and snacks. Students can also play pool in the Student Union Office, situated next door to the Recreation Room, or just use it as a chill-out space. As a student city, Limerick features restaurants, shops and many other student amenities within a short walk of the campus. The Student Union organises regular leisure activities, including trips to popular tourist spots, quiz nights, pool competitions, chess competitions, student get-togethers etc. Griffith College Limerick merchandise is also available from the Student Union.

Teaching, Learning and IT Services

Campus Connectivity: The college provides a high-speed broadband connection campus-wide. Students can access the internet anywhere on campus for research, communication, and collaboration purposes.

Computer Labs: There are three computer labs on campus with high-spec computers which allows students to access the internet, use a diverse range of software, work on assignments or collaborate on projects.

Classroom Audio-Visual Equipment: To ensure lectures are delivered to the highest possible standard each lecture room, at a minimum, is equipped with a high-spec PC, a projector, and a whiteboard. In the event that lectures need to be streamed, the Zoom software, a noise reducing microphone and a high definition video camera are used to facilitate this.

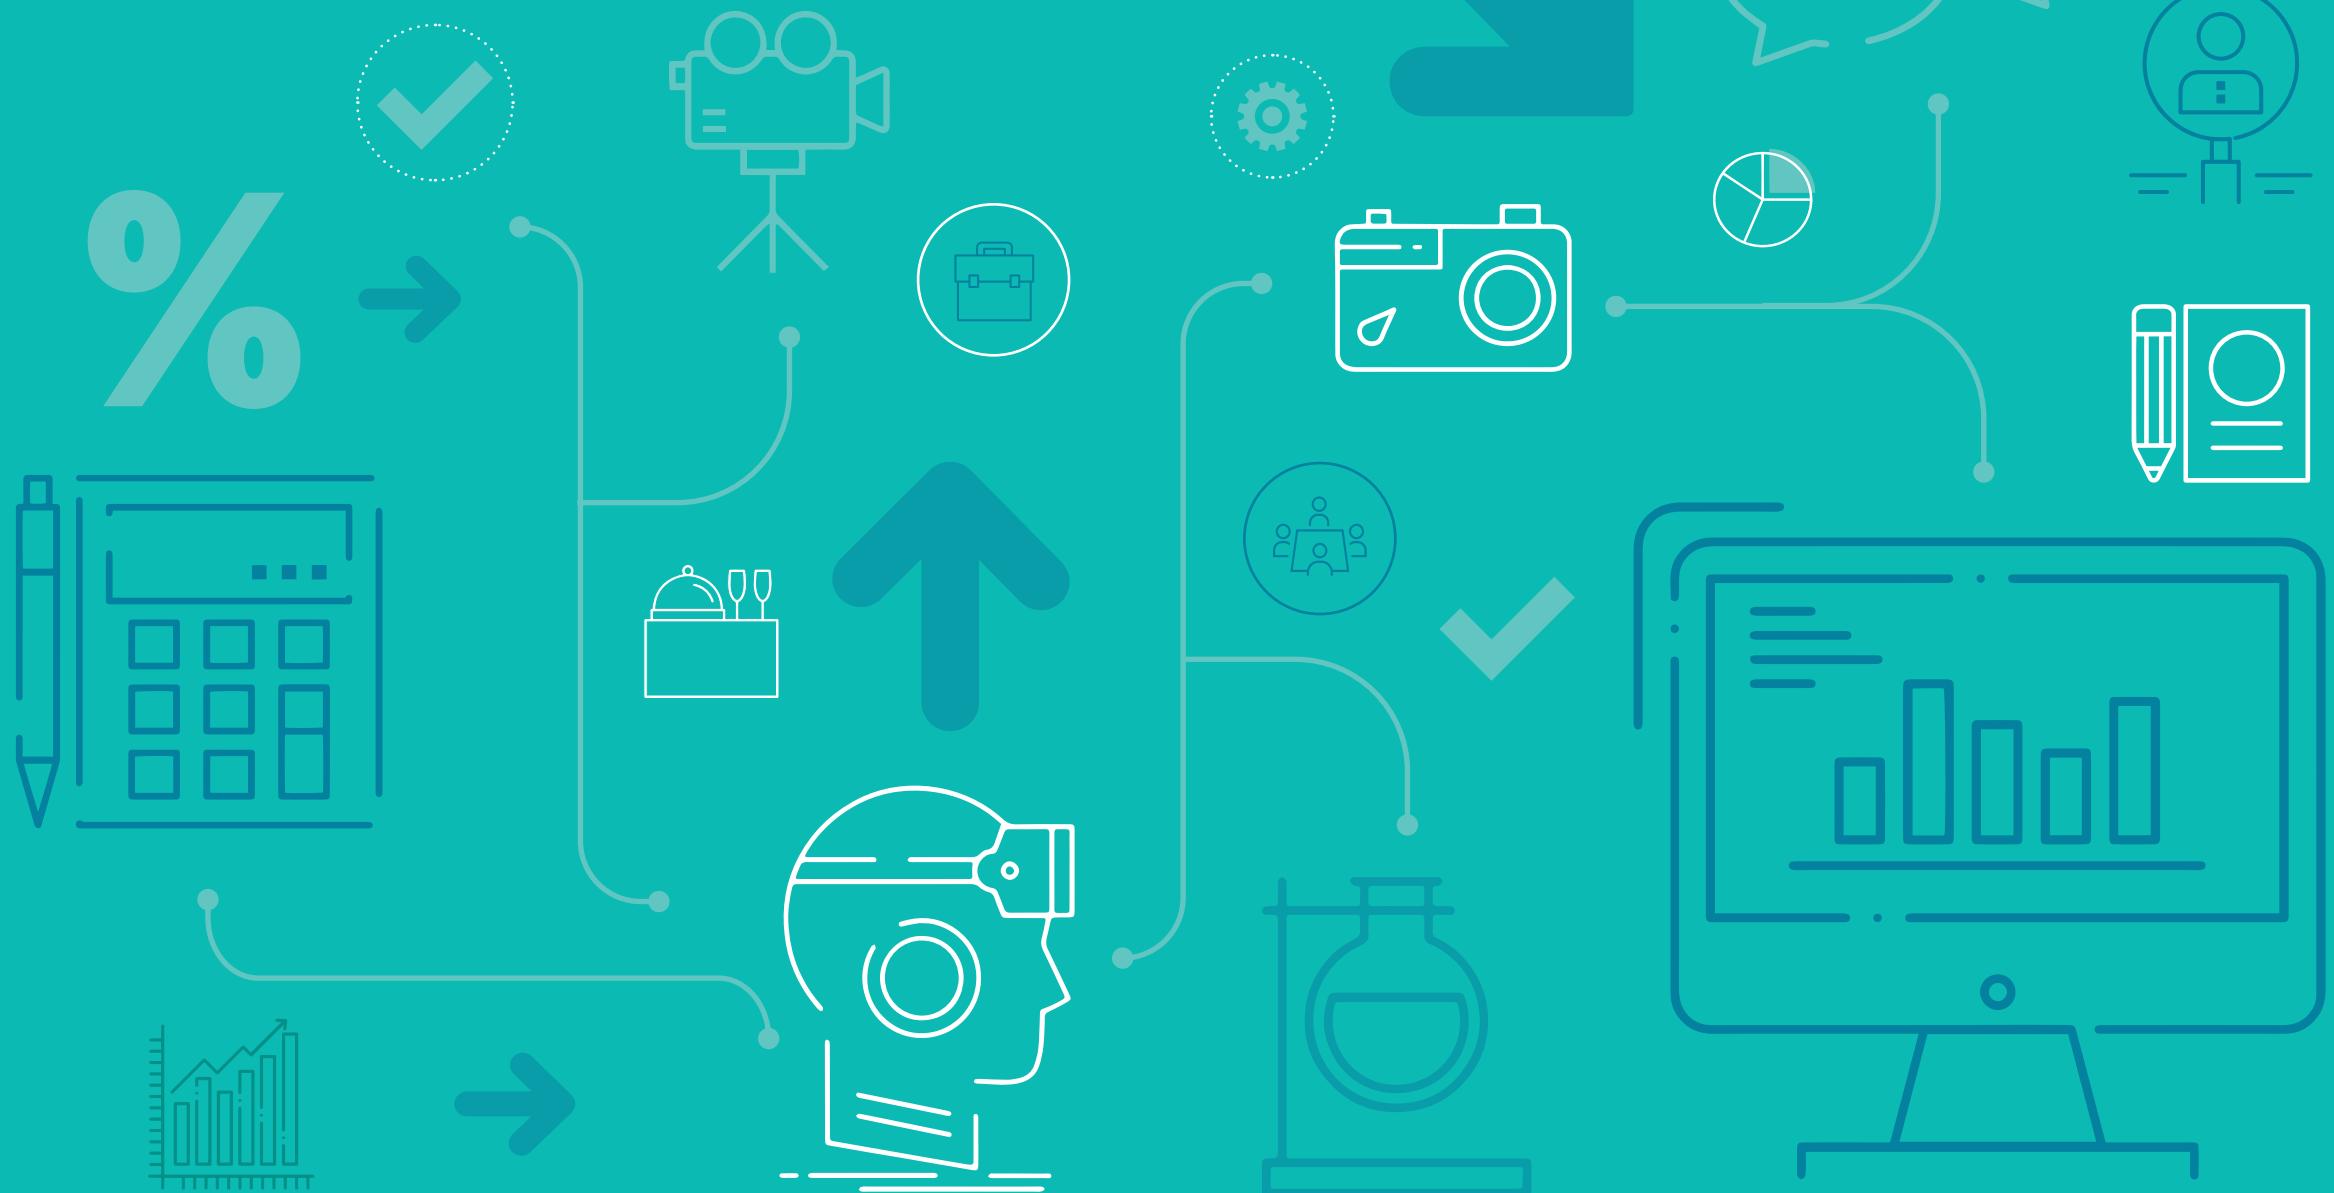

Lecture Rooms: Larger lecture rooms contain multiple screens and speakers to ensure all students can hear and see the information being presented. To enhance lecture delivery and the student's learning experience, most lecture rooms feature interactive Avocor screens.

Undergraduate Courses

Psychology

“ Throughout my time in the psychology degree, I never once felt unable to contact any of the lecturers and whenever I did, I always found the help I needed. Each of the lecturers are very kind and supportive of the work you complete in this degree. Griffith College’s Dublin campus has very comfortable, almost classroom-sized rooms that make it easy to focus on learning within classes.”

Josh Baker Byrne, Full-time, BA (Hons) in Psychology

Courses

BA (Hons) in Psychology

Best Bits of Psychology

Highly Qualified Faculty

Learn from distinguished experts in the field! Our Psychology faculty boasts a team of lecturers with high academic profiles, including PhD holders recognised for their contributions & research in psychology.

1

Small Class Sizes

A good learner/lecturer ratio ensures that learners will get mentoring and one-to-one attention required to maximise their learning.

2

Exciting Career Pathways

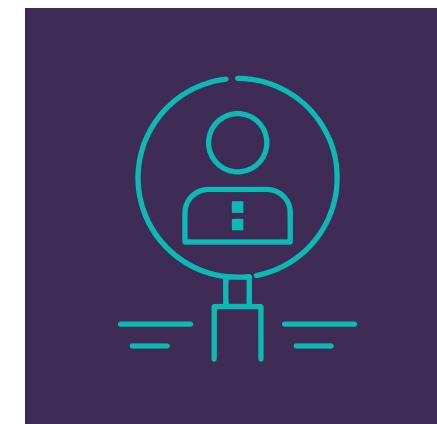

Graduates develop the skills to unlock diverse career opportunities in areas such as research and evaluation, mental health coaching, education and beyond.

4

“ The biggest recommendation I could give to anyone who wants to come to Griffith College is to just enjoy your time here. You're here to achieve your education but you also have to take time to enjoy your time here, don't let yourself get caught under the weight of the degree you are working in. Don't forget to breathe. If you ever get stuck at all, there is always a member of staff who will have no issue helping you. Work on your assignments when you can and don't leave everything till the last minute and you'll be a lot less stressed. ”

DUBLIN

About the Programme

This programme offers a solid foundation in the five pillars of psychology:

- Biological (includes neuroscience, consciousness, and sensation)
- Cognitive (includes the study of perception, cognition, memory, and intelligence)
- Developmental (includes learning and conditioning, lifespan development, and language)
- Social and Personality (includes the study of personality, emotion, motivation, gender, and culture)
- Mental and Physical Health (includes abnormal psychology, therapy, and health psychology)

It also has a focus on real-world applications. It's designed to prepare learners for a variety of careers in psychology, as well as other fields where communication, analytical thinking, critical thinking and problem-solving are key.

Throughout the programme, learners will study core areas of psychology, including Biological Bases of Behaviour, Cognitive Psychology, Developmental Psychology, Neuropsychology, Mental Health, and more. You'll also engage with specialised areas such as Educational Psychology and Counselling and Psychotherapy, providing a broad perspective on the field and its career opportunities. Alongside subject knowledge, the programme will help learners build the professional and personal skills required for academic and career success, including critical thinking, research skills, and problem-solving.

A strong emphasis is placed on research and the scientific methods used in psychology. Learners will gain experience by conducting psychological research and learning to collect and analyse data using various research methods including qualitative, quantitative and scientific experimental approaches.

Apply direct: www.griffith.ie
Course duration: XXXX

This culminates in a final-year independent research project, allowing learners to apply the learning to a topic of interest. In addition, the programme supports ethical awareness and wellbeing.

Program Delivery

The programme is offered in two delivery formats to accommodate different learning needs:

FULL-TIME

The full-time programme, is for a total duration of 3 years. And it is perfect for school leavers looking to pursue a career in Psychology. The classes are over four days per week in person.

PART-TIME

The part-time (blended) programme is 4 years programme. With a mix of online and in-person learning. The classes take place in two evening lectures per week online and one in-person class per month on campus, usually on weekends to accommodate learners who are returning to education and managing other commitments like work and family.

Program Content

STAGE 1

- Biological Bases of Human Behaviour
- Developmental Psychology
- Cognitive Psychology 1
- Personality and Individual Differences 1
- Research Methods
- Historical and Philosophical Foundations
- Academic and Professional Development (APD)
- The Creative Mind

STAGE 2

- Adulthood and Ageing
- Social Psychology
- Cognitive Psychology 2
- Personality and Individual Differences 2
- Research Methods and Laboratory Practicals in Psychology
- Educational Psychology
- Academic and Professional Development (APD) 2
- Lifelong Learning in the 21st century

STAGE 3

- Neuropsychology
- Mental health and Psychopathology
- Independent Research Project
- Counselling and Psychotherapy
- Academic and Professional Development (APD)3
- Special Education: inclusion and Diversity

Careers

Whether learners are aiming for a career as a professional psychologist or want to explore postgraduate opportunities, this programme equips you with the relevant knowledge and skills.

The programme offers graduate status, giving you the foundation to pursue professional recognition and further studies. Graduates can apply their skills directly in psychology or leverage transferable skills like communications, research, and critical thinking in other fields such as education, marketing, wellbeing, coaching and more.

Following are the career options for those with a degree in psychology (further study may be required):

- Forensic psychology
- Clinical psychology
- Sports psychology
- Counsellor
- Employee Relations Officer
- Guidance counsellor
- Human Resources
- Marketing
- Academia & Research

The most valuable skills I gained from the psychology degree definitely have to be critical thinking and empathy skills. Through assignment work, I was able to develop my skills in reading literature and academically analyzing the information. The course content helped me with developing empathy because the psychology program dives deep into the understanding of human behaviours which helped me understand possibilities on why some people act how they do.

Josh Baker Byrne,
Full-time, BA (Hons) in Psychology

Business

“ Enrolling in the Accounting & Finance part time degree was a huge decision and I must say rather daunting. However, the lecturing staff, and indeed everyone at Griffith College, made the transition so easy and enjoyable. Managing a full-time job, along with studies and everything else life has to give, was made easier by the consistent level of support.”

Sam McDougall
BA (Hons) in Accounting
and Finance Graduate

Professional Accountancy Body Exemptions

Graduates of the honours business and accounting and finance programmes at Griffith obtain excellent exemptions from the ACCA, CAI (ACA) and CPA. Those who complete the BA (Hons) in Accounting and Finance programme may qualify for up to 9 exemptions from ACCA while those from the BA (Hons) in Business programme may qualify for up to 4 exemptions from ACCA (pending professional body review).

2

Teaching Council Recognition

The BA (Hons) in Business programmes are recognised by the Teaching Council of Ireland for the teaching of Business at second level by graduates applying on an individual basis

Personal Attention

Personal attention provided along with an excellent student/lecturer ratio.

3

Progression Routes

Transfer and progression opportunities are available across all programmes within the faculty. On successful completion of all level 8 programmes learners will have the opportunity to progress on to postgraduate and/or professional level studies.

Dedicated Careers Advisor

Griffith has its own career advisor who is available to support learners with their applications for full time positions, graduate roles or internships. In addition learners can access the Griffith Online Careers Vacancies Board for advice and positions. All roles posted here have been sent in directly from the employers and it is continuously updated as roles are received.

“ I left school early to pursue a career in football and I had a long successful career winning multiple trophies. After a serious injury, I decided it was time to return back to education . I started with the Certificate in Dual Career Development (Sport) course at Griffith. This gave me a good introduction to business studies, I progressed onto the part-time Level 8 Business course. I learned so much and it has given me so much confidence in the business environment. It was a tough three years but an enjoyable experience. I met so many lovely people and have made some friends for life.

Gavin Peers
BA (Hons) in Business Graduate

“ I found the blended nature of the course gave me the best of both worlds. The flexibility of the online material allowed me to balance my studies with working and raising a family, while the small class size in on-campus tutorials fostered a real sense of familiarity with my fellow learners and lecturers. This ensured I was always fully supported with my studies. I would recommend this course to anybody looking to further their education.

BA (Hons) in Business (HRM) 

About the Course

This honours degree programme will help learners to appreciate fully the vital business roles played by finance, accounting, marketing, human resource management and information technology. In addition, graduates will be shown how the ever-changing business environment is influenced by political, legal, economic, social and technological factors on both a national and international scale. In first year, learners take subjects that are common to the first year of the BA (Hons) in Accounting and Finance. This model gives learners the flexibility to adjust their degree choice, if necessary, after year one. The purpose of the programme is to give learners the business skills that are in demand by companies today.

In a complex and dynamic environment learners will be able to identify changes in business requirements, and have the confidence to develop and implement new procedures to satisfy them. Learners will also be able to recognise the key characteristics governing a particular company and then identify the factors that are critical to its success. The programme syllabus, developed by Griffith College and validated by QQI, reflects the multiple requirements of today's business world. The participation and support of full-time and external lecturing staff, from a wide range of industries, has made a vital contribution to the degree's content.

BA (Hons) in Business (Marketing)

The BA (Hons) in Business (Marketing) offers learners an opportunity to specialise in the area of marketing in the final year of their degree. While the broad scope of the programme means that learners also gain a deep understanding of the many aspects of the world of business. Marketing is central to all business activities - whether in a large multinational or in a small local business.

The purpose of any business is to meet consumers' needs and wants while making a profit. This programme can open doors to a number of exciting and challenging careers. These include, but are not limited to: advertising, public relations, sales management, market research, retailing, product design and development, and branding.

BA (Hons) in Business (HRM)

The BA (Hons) in Business (HRM) allows the learner to specialise in areas of Human Resource Management in the final year of their degree. This follows on from gaining a deep understanding of the world of business in the first two years of the programme. Significant developments in the business environment have led to an increased demand for human resource management practitioners. Learners who successfully complete this programme can apply the knowledge and skills which they have gained on the programme to a wide range of business sectors.

Progression

Upon successful completion of their honours degree programme, graduates may wish to continue their studies with a postgraduate qualification in Griffith College or with one of the many third level institutions in Ireland or abroad.

LIMERICK

About the Course

Throughout the BA (Hons) Degree in Accounting and Finance, you will develop the analytical techniques, economic expertise and strategic insight needed for a successful career within financial and business sectors. You will also learn how to practically apply your accounting knowledge and skills to inform strategic business decisions and create added value for stakeholders. The programme explores the theory and practical application of all accounting and finance systems, while also providing a thorough grounding in business management and modern technology. Fluency in technology is a highly coveted skill in the current accounting and finance environment, which is a key component of this programme.

You will develop a deep understanding of the business, legal and socio-economic environments in which finance and accounting operate. The programme will also help you build fluency in the technical languages and practices of the financial and accounting sectors. Upon completion, you will have acquired all the necessary skills to pursue a dynamic and rewarding career in your desired field. Whether you wish to become an accountant, financial analyst or start your own business, this programme will help you to achieve your ambition. Our BA (Hons) Degree in Accounting and Finance will provide you with the technological, analytical and managerial skills required for a dynamic and successful career in business.

Progression

Graduates of this programme may wish to pursue postgraduate studies in our Graduate Business School. They may also gain substantial examination exemptions from the professional accountancy bodies. Such programmes are available on a part-time and full-time basis, allowing graduates the flexibility to work while continuing their studies.

“ Making a decision to return to education was not easy, but necessary. I am delighted that I made the decision to start my new journey with Griffith! I chose this particular accounting course because of the ACCA Fundamental exemptions graduates receive. I received enormous support from lecturers and peer students. Various assignments helped to apply theory I’ve learned in real life case studies, and friendly feedback gave me an opportunity to improve my business skills. During my time here, I got an opportunity to make great friends from different cultures which was also a very enriching experience. ”

Ona Sablinskiene,
BA (Hons) in Accounting & Finance Graduate

BA (Hons) in Procurement and Supply Chain Management

Course Details

The Bachelor of Arts (Honours) in Procurement and Supply Chain Management is designed to produce graduates who are work-ready, knowledgeable and competent in a range of key procurement and supply chain management disciplines, while also strong in soft skills such as communication, teamwork and working autonomously. This programme aims to provide graduates with an in-depth understanding of procurement, supply chain and business management functions. Successful completion of the programme will equip learners with the knowledge and competencies needed to be a reflective leader and a professional and ethical procurement and supply chain manager, ready to address global challenges. Participants will gain insights into best practices in procurement and supply chain management tools, methods, and techniques. They will acquire and develop operational and strategic capabilities and competencies in contemporary procurement and supply chain management. During the programme, learners will be introduced to the complexities of modern and sustainable supply chains and manage the interconnected relationships among the different supply chain players and supply networks in a global context. In addition, the programme will facilitate learners to develop the skills needed to work independently and collaboratively in diverse global procurement and supply chain environments and culture.

Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and provides an opportunity for those living outside the greater Dublin area to study in Griffith College. "Blended learning" incorporates weekly video lectures which are uploaded to an online virtual learning platform to be reviewed at learners' convenience with weekly virtual activities to be completed on topics covered. There are weekly tutorial-style live "webinars" using the most up-to-date conferencing technology. E-learning is "blended" with "live" Saturday classroom-based workshops, which take

Diploma in Procurement and Supply Chain Management

About the Course

The Diploma in Procurement and Supply Chain Management is designed for those who wish to pursue and advance their career in a procurement and supply chain related role. Graduates of this course will be equipped with advanced knowledge and awareness of sustainable procurement policies and practices within organisations across a wide range of industries. Learners on the programme develop theoretical and practical knowledge of the role of procurement and supply chain management in organisations.

They will acquire and develop operational and strategic competencies in contemporary procurement and supply chain management, along with gaining insights into best practices in procurement and supply chain management tools, methods, and techniques. During the programme, learners will be introduced to the complexities of modern and sustainable supply chains and manage the interconnected relationships among the different supply chain players and supply networks in a global context.

In addition, the programme will facilitate learners to develop the skills needed to work independently and collaboratively in diverse global procurement and supply chain environments and culture.

Entry Requirements

The programme is designed for learners who hold a Leaving Certificate, or have an equivalent qualification and/or experience. This programme is aimed at learners who currently hold the Certificate in Procurement and Supply Chain Management, or an NFQ Level 6 cognate qualification(s), and wish to achieve a Diploma at Level 7 on the NFQ in advanced procurement and supply chain management through RPL with exemptions.

Progression

The programme provides a progression path for holders of the related certificate award and provides advanced entry for learners onto the BA (Hons) degree.

Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and provides an opportunity for those living outside the greater Dublin area to study in Griffith College. "Blended learning" incorporates weekly video lectures which are uploaded to an online virtual learning platform to be reviewed at learners' convenience with weekly virtual activities to be completed on topics covered.

There are weekly tutorial-style live "webinars" using the most up-to-date conferencing technology. E-learning is "blended" with "live" Saturday classroom-based workshops, which take place monthly.

Learners visit the Dublin campus on a monthly basis, however, they have access to all facilities provided to full-time and part-time learners throughout the academic year; as well as the option of participating in the wide range of extra-curricular activities undertaken by full-time and part-time business learners at Griffith College.

Blended delivery offers the learners the flexibility to learn at their own pace in a manner suitable for their circumstances and tuition from industry and academic experts ensures learners gain the academic and practical skills necessary to function successfully in junior procurement and supply chain roles.

Procurement and Supply Chain Management

Certificate in Intelligent Technologies in Procurement & Supply Chain 4.0

The Certificate in Intelligent Technologies in Procurement and Supply Chain 4.0 module is designed to introduce learners to the digital landscape, strategy models and operational methodologies and tools to appraise a modern smart and transformative supply chain.

This programme presents a portfolio of current methods and tools to add value to supply chains through the integration of technology into organisations' strategies, processes and procedures. For businesses to stay relevant in the market today, prioritising customer satisfaction with agility, responsiveness and quality personal service is essential and a trained workforce is required to understand, assess, implement and monitor the digital changes and challenges of a smart supply chain.

Certificate in Sustainability & the Circular Economy

The Certificate in Sustainability and the Circular Economy is designed to develop learners' understanding of the concept and initiatives of sustainability, including how supply chains impact communities and society, environmental aspects of procurement, ethical trading and working standards.

The traditional linear economic model of "Take-Make-Waste" is environmentally and economically unsustainable. The programme will enable learners to align sustainable goals within the supply chain, which has both local and global dimensions and develop the area for organisational commitment, procedures, systems and practices

Law

“

It is without reservation that I recommend studying law at Griffith College Dublin. Every student receives personal and group engagement throughout the course. With expert lecturers in a collegiate setting, each student has the time and space to listen, ask questions and take an active part in the college during their studies. If you wish to immerse yourself in the academia of law in an encouraging and stimulating environment, I urge you to seriously consider enrolling in Griffith College Dublin

Progression to Professional Bodies

On completion of the LL.B. (Hons) graduates can apply to sit the entrance exams for the Law Society of Ireland and The Honorable Society of King's Inns.

3 Library Resources

The Griffith College library is a subscriber to JustisOne, Westlaw, HeinOnline and Bloomsbury, some of the world's premier legal research engines.

Leading Practical Pedagogy and Clinical Skills Development

The Faculty provide a practical, clinical education encompassing debating, court visits and moot courts.

4 Student Societies

We have a vibrant Clinical Legal Centre. Student members enjoy the benefits of thriving, dynamic societies, trips abroad, court visits and much more.

Student Intranet

Griffith College facilitates web-based learning on Moodle, the learner intranet system.

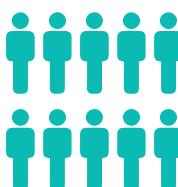

Why Griffith College?

Excellent reputation

Smaller classes guarantee individualised attention

Winner of Law School of the Year 2023

Car parking for learners

Flexible fee payment structures available

Dublin and Cork City location

Law Society

Throughout the academic year the Law Society schedules a variety of activities for learners in addition to a series of talks by prominent members of the legal community.

Advocacy Society

The Advocacy Society provides learners with the opportunity to partake in organised learner debates. Students are encouraged to participate in prestigious international and national debates such as the annual Irish Times debate.

The Advocacy Society encourages legal debate among learners by way of written submission and oral presentation. The society encourages teams to enter renowned national and international intervarsity moots such as the Silken Thomas Intervarsity Moot Court Competition.

Philadelphia Internship Programme

Griffith College works closely with the US Supreme Court.

Free Legal Advice Clinic (FLAC)

Our free legal advice clinic provides learners with an opportunity to work alongside professionals in providing legal advice to staff and learners in the College.

Griffith College Innocence Project

Griffith College offers learners the opportunity to earn credit towards their degree by working with the Innocence Project, which is housed on-site at Griffith College. There, learners work under the close supervision of practising solicitors and barristers to help to analyse case materials and to liaise with clients with a view to exonerating those clients who may have been wrongfully convicted.

Court Visits

Throughout the academic year, the law faculty regularly organises court visits and tours along with talks from leading practicing lawyers and barristers.

EU Club

Griffith College offers learners the opportunity to learn more about the European Law and visit the European Union.

About the Course

LL.B. comes from the Latin – Legum Baccalaureus-Bachelor of Laws. A highly focused discipline, law examines how groups and individuals regulate their relationships. With the LL.B. (Hons), learners can tailor their degrees to suit their interests with a combination of core legal modules in each year of study along with a range of elective practically-orientated modules in the second and third years. There is also a variety of assessment types to reflect how different learners learn including written assignments, end of term examinations and continuous assessment.

Our panel of experienced Law Lecturers, many of whom are practitioners in their field, provide intensive assignment and exam feedback sessions to all learners on an individual basis. In order to support learners in their studies, the Griffith College Library has extensive facilities and is a subscriber, for example, to JustisOne, Bloomsbury Professional and Westlaw.ie, some of the world's premier legal research engines. Griffith College also facilitates web-based LL.B. learning on Moodle, the learner intranet system. The College Moodle system also allows for ongoing contact and engagement between learners and their lecturers outside of formal teaching times by providing facilities such as an online learner discussion forum for each class.

Course Delivery

The programme is available both full-time and part-time. Classes run from September to May and both full-time and part-time programmes can be completed in three years.

The full time degree consists of up to 16 lecture hours per week. Extra time is allocated to assignment work and to the vital independent study that shapes attitude, deepens understanding, and provides learners with practical exposure to problem-solving.

Part time learners will have classes two evenings on campus per week from 6pm to 10pm.

Apply direct: www.griffith.ie

Course duration: 3 years

Progression

The LL.B. (Hons) Programme aims to develop a learner's critical capabilities to the fullest, to enhance their communication skills and capacities and develop their clinical skills.

At the outset, graduating with the Griffith College LL.B. (Hons) degree will prepare you to undertake the Law Society of Ireland's entrance examination and progress towards your qualification as a solicitor. As the first College in the non-University sector to have its degrees recognised by the Honorable Society of the King's Inns for the purpose of admission to its annual entrance exams, graduating with the Griffith College LL.B. (Hons) Degree also allows you to progress to the five entrance exams of the Honorable Society of King's Inns and to complete the Barrister at Law degree in just one year.

For those wishing to pursue postgraduate opportunities, the LL.B. (Hons) provides a foundation for a Masters programme in Law (LL.M.). Many of our graduates go on to complete an LL.M. in an area of their choice. Griffith College also offers a range of LL.M. Programmes. An LL.M. is a great foundation to a PhD and can be completed by classes or research. The LL.B. (Hons) Degree also lends itself to stimulating career opportunities across a range of areas including Journalism, Media, Finance, Public Administration, Human Rights and Commerce.

It has been crafted and refined by the seasoned input of distinguished academics and professionals as well as the College's expert full-time and associate lecturing staff. The degree combines academic depth with legal training to industry standards to provide learners with a solid foundation for their future careers.

Course Content

Learners will study core subjects and pick electives allowing them to tailor their degree. This allows the learner to focus on key areas that they are interested in such as criminal law, family law or corporate law.

STAGE 1	STAGE 2	STAGE 3

LL.B. (Hons) in Criminal Justice

About the Course

The LL.B. (Hons) in Criminal Justice offers a comprehensive legal education with practical skills and theoretical knowledge essential for a career in law. The programme develops within learners critical, analytical, research and communications skills in both an academic and clinical context and fosters learners' ability to work effectively whether as a team member or independently.

As learners progress over three years, they build on their knowledge of core legal subjects to attain increasing specialization in their chosen field, including a number of elective module options.

Please note: Learners on the LL.B. (Hons) in Criminal Justice are required to complete either the Dissertation or Innocence Project modules as mandatory in Stage 3.

Course Delivery

The programme is available via Full-Time, Part-Time and Blended study modes. We have two intakes – September (3 years to complete) and February (3.5years to complete).

FULL-TIME

Students have on-campus classes subject to timetable scheduling and subject choices.

PART-TIME

Students will have live-streamed lectures on designated evenings (usually 6 pm -10 pm* depending on modules).

BLENDED

Students will be sent module recordings weekly via our student platform, live webinars during the week and a maximum of 4 Saturday Classes on campus per semester.

DUBLIN
CORK

Progression

On completion of this Programme, learners can proceed towards professional training for the legal professions, postgraduate education to levels 9 and 10, or employment in the public or private sectors. This is particularly suitable for those where specialisation in criminal law and criminal justice is a distinct advantage.

At the outset, graduating with the Griffith College LL.B. (Hons) in Criminal Justice degree will prepare you to undertake the Law Society of Ireland's entrance examination and progress towards your qualification as a solicitor. As the first College in the non-University sector to have its degrees recognised by the Honorable Society of the King's Inns for the purpose of admission to its annual entrance exams, graduating with any of our Griffith College LL.B. (Hons) Degrees also allows you to progress to the five entrance exams of the Honorable Society of King's Inns and to complete the Barrister at Law degree in just one year. For those wishing to pursue postgraduate opportunities, the LL.B. (Hons) provides a foundation for a Master's programme in Law (LL.M.). Many of our graduates complete an LL.M. in an area of their choice. Griffith College also offers a range of LL.M. Programmes. An LL.M. is a great foundation to a PhD and can be completed by classes or research.

Course Content

Learners will study core subjects and pick electives allowing them to tailor their degree. Students pick three electives in year two and three to four electives in year three, depending on the subjects chosen. Elective choices may require full-time students to attend classes from 6 p.m. to 8 p.m.

STAGE 1	STAGE 2 - MANDATORY	STAGE 3
Introduction to Law and Legal Studies Law of Contract Law of Tort Criminal Law Informational Technology Skills	Land Law Company Law Constitutional Law Professional Research Practice and Advocacy Law of Evidence	Equity and Trust Law of the European Union Jurisprudence Criminology Dissertation Innocence Project

LL.B. (Hons) in Commercial Law

About the Course

The LL.B. (Hons) in Commercial Law covers the foundational subjects for a career in commercial law where students will gain a broad and thorough understanding of legal principles and practices. Our panel of experienced Law Lecturers, many of whom are practitioners in their field, provide intensive assignment and exam feedback sessions to all learners on an individual basis. In order to support learners in their studies, the Griffith College Library has extensive facilities and is a subscriber, for example, to JustisOne, Bloomsbury Professional and Westlaw.ie, some of the world's premier legal research engines.

Course Delivery

The programme is available via Full-Time, Part-Time and Blended study modes. We have two intakes – September (3 years to complete) and February (3.5 years to complete).

FULL-TIME

Students have on-campus classes subject to timetable scheduling and subject choices.

PART-TIME

BLENDED

Students will be sent module recordings weekly via our student platform, live webinars during the week and a maximum of 4 Saturday Classes on campus per semester.

DUBLIN
CORK

Progression

The Bachelor of Laws (LLB) (Honours) in Commercial Law from Griffith College Dublin offers a pathway to various career opportunities. Graduates are equipped for legal roles, particularly within business and commercial sectors, due to the program's focus on commercial law.

The LLB (Hons) in Commercial Law equips students with a strong foundation in both legal theory and commercial practices, opening versatile career opportunities across multiple sectors. For those wishing to pursue postgraduate opportunities, the LL.B. (Hons) provides a foundation for a master's programme in Law (LL.M.). Many of our graduates complete an LL.M. in an area of their choice. Griffith College also offers a range of LL.M. Programmes. An LL.M. is a great foundation for a PhD and can be completed by classes or research.

Course Content

Students will complete core modules and select elective subjects, allowing them to customise their degree to align with their interests and career goals. In the second year, students choose three electives, while in the third year, they select three or four electives, depending on their chosen subjects. Some electives may require evening attendance from 6 p.m. to 8 p.m. for full-time students.

STAGE 1	STAGE 2 - MANDATORY	STAGE 3

Diploma in

Legal Studies and Practice (Special Purpose Award)

About the Course

Griffith College Law Faculty offers this programme on a part-time basis over one or two academic years. The programme runs over three evenings per week for those studying over one academic year, or up to two evenings per week for those studying over two academic years. Lectures are held from 6.00pm - 10.00pm each evening. Learners can attend lectures either on campus, synchronously via Livestream or asynchronously online via recorded lectures. Students must attend workshops and examinations on campus.

Every module runs over five teaching weeks, followed by two reading weeks and a week of examinations. Assessment varies from module to module and comprises of a combination of essays, workshops, case studies, case briefs, reflective journals and examinations.

Once you successfully complete all twelve modules you will be awarded a Diploma in Legal Studies and Practice, validated by QQI and endorsed by the Irish Institute of Legal Executives. Diploma graduates are eligible for enrolment as Associate Members of IILEx, and all participants are eligible to become Student Members of the Institute.

Entry Requirements

Applicants should be over 23 years of age on the 1st January in year of admission. Applicants under 23 years of age must meet the standard entry requirements for a Level 7 programme (min. 506/

DUBLIN
CORK

H7s). They are also assessed on the basis of work experience and may also be interviewed in advance of admission.

Course Delivery

All lectures are recorded and uploaded onto our intranet called Moodle. You can view these lectures when you want and as often as you like. All programme materials are also uploaded onto Moodle for you to access, as well as any practical exercises which take place during class time.

All learners must attend a practical four-hour weekend workshop in the following modules: Professional and Academic Preparedness and Skills, Civil Litigation, Criminal Practice and Procedure, and Conveyancing. These workshops provide learners with the opportunity to demonstrate the skills they have acquired during these four practical modules.

Progression

Learners who complete the DLSP may go on to join the second year of the LL.B. (Hons) Programme. On completion of the DLSP learners may apply to become legal executives, apply their knowledge in a variety of other roles including HR, SME's, law enforcement, public bodies, managerial positions or many other areas of personal interest.

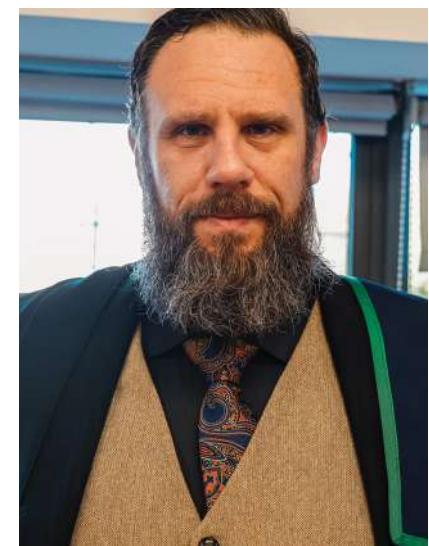

Course Content

Learners may complete the programme over one or two years.

BLOCK1	BLOCK2	BLOCK3	BLOCK4
Introduction to the Irish Legal System	Law of Tort	Land Law	Criminal Practice and Procedure
Law of Contract	Constitutional Law and Judicial Review	Conveyancing	Probate Law*
Professional and Academic Preparedness and Skills	Civil Litigation	Criminal Law	Employment Law*
			Company Law*
			Family Law*

* Students complete two electives in Block 4

“ The smaller class groups on the DLSP made getting to know people quite easy and the mix of personalities always made classroom debates more interesting. There are also great opportunities for extracurricular activities from the FLAC Society and the Law Society to the Brehon Law Society. These groups allow you to meet and interact with other Law students. This course has not only allowed me to make some professional contacts, but I have also made some very good friends ”

Conal Dolan
Diploma in Legal Studies and Practice Graduate

Certificate in Legal Studies (Special Purpose Award)

DUBLIN
CORK

About the Course

The Certificate in Legal Studies provides learners with a legal academic experience which is rooted in legal theory. The programme comprises of eight academic modules and is offered on a part-time basis over one academic year. The modules taught on the course are predominantly academic in nature and provide learners with a theoretical overview of the Irish legal system, including a thorough understanding of private and public law as well as the opportunity to study two electives of the learner's choosing.

The programme is aimed at those learners who wish to gain a qualification in law for personal or professional reasons, but who don't want to complete the four practical modules offered on the Diploma in Legal Studies and Practice. If learners wish to progress, they can move into the Diploma programme or the LLB (Hons) with exemptions.

Course Delivery

All lectures are recorded and uploaded onto our intranet called Moodle. You can view these lectures when you want and as often as you like. All programme materials are also uploaded onto Moodle for you to access, as well as any practical exercises which take place during class time.

Applicants should be over 23 years of age on the 1st January in year of admission. Applicants under 23 years of age must meet the standard entry requirements for a Level 7 programme (min. 506/H7s). They are also assessed on the basis of work experience and may also be interviewed in advance of admission.

Progression

Learners who have successfully completed modules of the embedded awards may apply for direct entry into the Diploma in Legal Studies and Practice (Principal Programme) and will receive exemptions for the modules already completed.

Graduates of the CLS and CLP programmes may apply to transfer with exemptions into Stage I of the College's LLB programme.

Certificate in Legal Practice (Special Purpose Award)

DUBLIN
CORK

About the Course

The Certificate in Legal Practice provides learners with the practical skills required by those working in a legal environment. Upon completion of the programme, graduates will have gained the requisite drafting, negotiation, research, legal writing and problem-solving skills required by the industry of its legal professionals. This programme comprises of four modules and is offered on a part-time basis over one academic year.

The modules taught on the course are predominantly practical in nature and provide learners with skills that can be directly transferable into the legal workplace. Successful completion of these practical modules enables graduates to demonstrate proficiency in using key workplace skills and tools such as verbal communication, proficiency in the use of electronic databases, familiarity with legal documents and procedures, legal research and writing. If learners wish to progress, they can move into the Diploma programme or the LLB (Hons) with exemptions.

Course Content

BLOCK	MODULE TITLE
1	Professional and Academic Preparedness and Skills (5 ECTS)
2	Civil Litigation (5 ECTS)
3	Conveyancing (5 ECTS)
4	Criminal Practice and Procedure (5 ECTS)

Course Delivery

All lectures are recorded and uploaded onto our intranet called Moodle. You can view these lectures when you want and as often as you like. All programme materials are also uploaded onto Moodle for you to access, as well as any practical exercises which take place during class time.

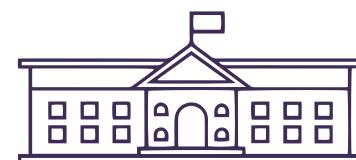

All learners must attend a practical four-hour weekend workshop in the following modules: Professional and Academic Preparedness and Skills, Civil Litigation, Criminal Practice and Procedure, and Conveyancing. These workshops provide learners with the opportunity to demonstrate the skills they have acquired during these more practical modules.

Entry Requirements

Applicants will hold a legal qualification of at least level 6 on the NFQ. It is anticipated that the majority of learners will also have some prior legal experience.

Progression

Learners who have successfully completed modules of the embedded awards may apply for direct entry into the Diploma in Legal Studies and Practice (Principal Programme) and will receive exemptions for the modules already completed. Graduates can also progress to Stage 1 of the LL.B. (Hons).

Certificate in Mediation (Special Purpose Award)

About the Course

This programme runs on a part-time basis over two semesters. The lecturers are experienced mediators, academics and conflict management trainers with many years' experience in both practice and training. The graduates of this programme will be eligible to apply to The Mediators Institute of Ireland (The MII) for membership. The faculty will provide much pastoral care and career support. The overall aim of this Special Purpose Award is to ensure that the learner will be a highly effective and self-reflective mediator with advanced knowledge of the principles of mediation and the mediation process. By enabling participants to gain an in-depth understanding of the concepts and methods underlying the development and use of mediation, the programme seeks to actualise their ability to implement the skills to practice.

Furthermore, the programme seeks to equip the graduate with an awareness of the impact of conflict behaviour on mediation, both from the mediator and third party perspective. Teaching and assessment will emphasise the necessity of inherent emotional intelligence in this regard on the part of the mediator. It is sought to inculcate this by introducing the learner to both academic reading and structured self-reflection on the area. By including the Conflict Dynamics Profile-Individual (CDP-I) within the programme as a personal profiling and self-reflection tool, learners get valuable insights into their own current traits as mediators and the potential impact of conflict triggers on themselves and others. Finally, the programme has the further objective of demystifying the law surrounding mediation in order that the learner may embark upon a career involving the use of mediation within their work place.

Course Delivery

The Certificate in Mediation is delivered over the course of seven months, on Saturdays with a three week interval between workshops.

Apply direct: www.griffith.ie

Course duration: Part time

Award Level: Level 8

Special Purpose Award

Validated by: QQI

DUBLIN
CORK

Course Content

The Certificate in Mediation comprises three core modules:

BLOCK	MODULE TITLE
1	Mediation and Conflict Resolution
2	Mediation Ethics and Regulatory Framework
3	Mediation in Practice

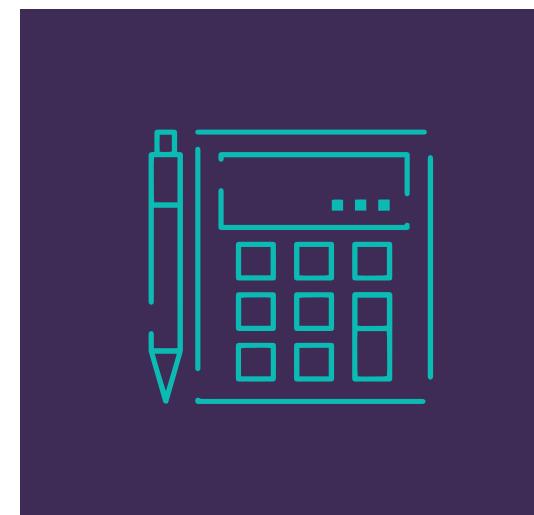

Progression

The knowledge, skills and competencies developed in the area of mediation will be transferable to both mediation practice and further postgraduate studies. This is not confined to the area of law and dispute resolution but can transfer into business, social studies, community affairs, and across any area of life where conflict may arise. Learners who complete this programme will have a range of skills that will be attractive across sectors as a result of acquired skills such as critical thinking and evaluation, ability to self-manage and self-evaluate, independent learning, conflict management, communication, active listening and mediation.

The skills acquired on this programme help the graduate become a more effective communicator and resource in any workplace. The mediation industry is becoming established in Ireland and the robust nature of this qualification will give a graduate a unique selling point as compared with other non-academic programmes designed to accredit mediators.

“ I was an older student being over 30 years since I attended college, so naturally I was a bit apprehensive. The lecturers we had were excellent, the help we got on every module was very hands on. In my view mediation is the only way to resolve disputes and conflicts between two parties. ”

Tom Ruddle, Certificate in Mediation Graduate

“ The BSc (Hons) in Computer Science changed my entire view on learning, and my understanding of technology. My course is heavily Java based, with this in mind the course itself is challenging at times but always has exciting elements to it. I think this is due to all the technologies (new and old) we learn about and how they were and are going to be used. The skills that I am learning will be extremely beneficial in the future when I seek employment. ”

Work Placement

The full-time BSc (Hons) in Computing Science have the opportunity to complete a 6-month work placement in its third year enabling learners to gain invaluable experience in an I.T. related work environment.

1

High Academic Profile

The Computing Faculty lecturing staff have a high academic profile with PhD holders distinguished in their fields.

2

Small Class Sizes

A good learner/ lecturer ratio ensures that learners will get the mentoring and one-to-one attention required to maximise their learning.

3

Industry Guest Speakers

Renowned industry speakers share their insights into the fundamentals of Computing Science, the I.T. industry and offer learners invaluable career advice.

4

Subject Specialisation

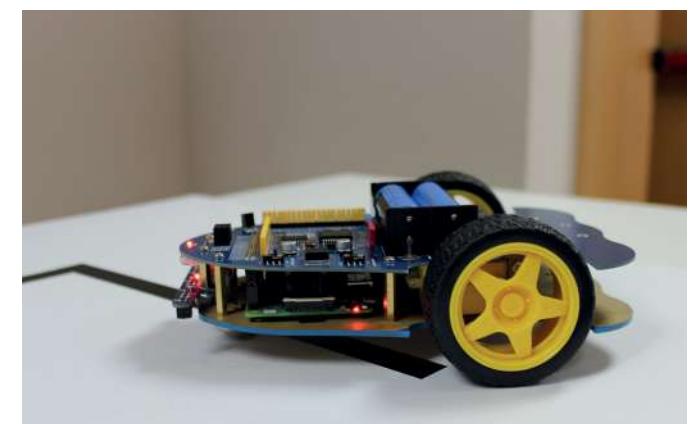

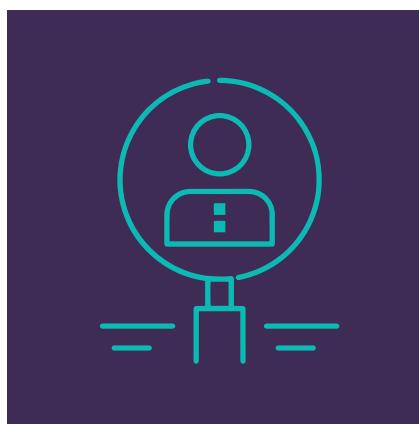

Individual subject certification is available throughout the faculty, thus allowing learners to specify in areas of interest.

5

“ Having earned my degree from Griffith College Dublin, I feel the strongest skill gained from the course was the versatility to approach a multiplicity of computing disciplines with confidence and enthusiasm.

Kevin Jordan
BSc (Hons) in Computing Science

BSc (Hons) in Computing Science

DUBLIN
CORK
LIMERICK

About the Course

This honours degree programme is designed to turn learners into experts in the application of Computing Science. The programme has the capacity to reflect and adapt to both technical and market developments. The content and skills taught are relevant to the current and emerging job opportunities in the industry. In Year 3, learners must complete four taught modules and a 6-month work placement in the computing industry. The work placement experience serves two purposes.

Firstly, it provides you with invaluable work-related computing experience, allowing you to draw on this experience during Year 4. Secondly, it significantly increases your attractiveness to potential employers.

Students working in the industry and pursuing the evening programme may be granted an exemption from the work placement stage, depending on the nature of their employment experience.

Students are required to complete a number of significant software development projects throughout the programme. These projects have a strong industry focus and help consolidate and reinforce knowledge acquired from taught modules.

In final year, learners are given the opportunity to specialise their degree by selecting a set of elective modules to focus on. The elective modules reflect the areas that are currently in demand in industry in Ireland at the moment; Cloud Computing, Machine Learning, Cyber Security, Software Development, Artificial Intelligence and Robotics, among others.

This allows learners to gain the broad experience of Computing Science while fast-tracking their skills for industry.

Apply direct: www.griffith.ie

Progression

Once completed, learners can consider further study options here at Griffith College, in the form of any MSc Programmes of interest (offered on a full/ part-time basis), or at other institutions worldwide.

Selected module content covers professional programme material which provides our learners with sufficient knowledge to undertake professional qualifications, should they wish to do so.

Careers

Career opportunities are many and varied. Our graduates are working as Software Engineers, Software Developers, IT Specialists, Operation Analysts, System Analysts, Product Engineers, Web Designers, and IT Managers to list a few. Recent graduates have been employed by Amazon, Indeed, Intercom, Vodafone and DAA.

LIMERICK

About the Course

This degree programme aims to develop the skills and competencies required for the effective design and implementation of software systems. The programme introduces learners to a broad range of problem-solving techniques, all of which are directly applicable to the range of IT problems that arise in commercial settings. Students have the opportunity to work in teams as well as on solo projects. In the final year, learners will complete a group project that usually focuses on the emerging area of the Internet of Things (IoT). Students also complete a professional certification in their final year (Linux Systems Administration).

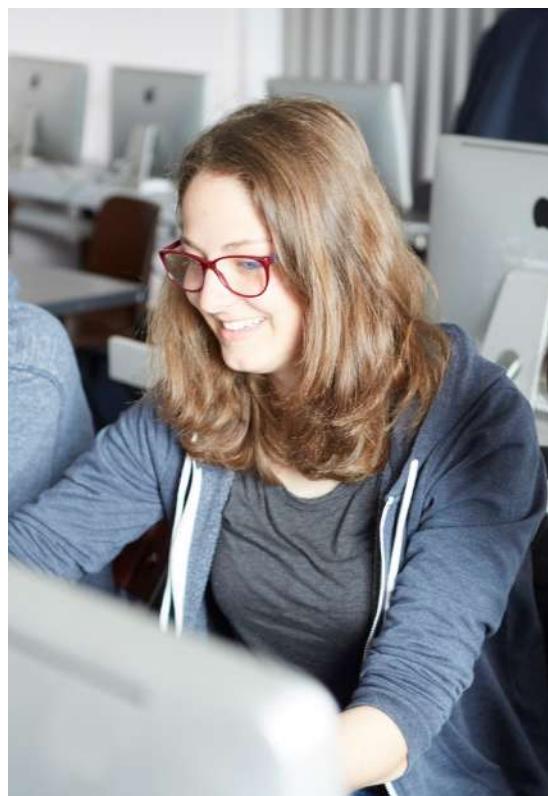

Students who wish to exit after successfully completing Years 1 and 2 may do so and be awarded a Higher Certificate in Computing (QQI).

Progression

On successful completion of the Level 7 degree with a 60% average or higher, learners may apply for the final year of the BSc (Hons) in Computing Science in Griffith College or external institutions.

Careers

Career opportunities are many and varied. Our graduates are working as Software Engineers, Software Developers, IT Specialists, Operation Analysts, System Analysts, Product Engineers, Web Designers, and IT Managers to list a few.

Griffith College Photography

1

Industry Links

Lecturers in Griffith's Journalism & Media Faculty are drawn from across the media and communications industries. Many are successful freelance professionals in film, photography, journalism in radio, TV, print and online.

2

Choose your field of study

With degree programmes in Communications, Journalism, Media Production, Photography and Film & TV Production, the media career you've dreamt of is in your grasp. We offer a range of innovative courses that equip our learners to thrive in the work place thanks to their industry focused skillsets.

Our programmes offer experience across the full range of media disciplines from news and content production, live broadcast, documentary and photographic practice, vlogging and mobile journalism. Our learners have won prestigious national awards in broadcasting, publishing and visual communications

3

Practical courses

Learners will also create their own online presences through blogs, website design and other online social media. You can conduct your own investigations, publish magazines and newspapers and in doing so, follow the path of many other successful journalists, communications and media professionals. Media moves our world, whether it is social, digital, old or new, visual, print, online or radio.

4

Facilities

On-campus radio station, broadcasting studios (1 on-air and 1 off-air), 4 photographic studios, 2 dark rooms, 1 TV and video studio, 1 sound engineering studio, 2 multimedia production rooms, multiple student publications.

6

Successful Alumni

Graduates have worked in RTE Radio, Today FM, Spin, Newstalk, FM104, Ocean FM, Shannonside, RTE TV, Virgin News Media, Shinawil, NBC, Facebook, Google, Journal.ie, Joe.ie, Boards.ie, Hubspot, the Irish Star, Sun, Mail, Mirror, Independent, Times, Telegraph, Image Magazine, Fleishman Hilliard, Modern Green, Teneo PSG, Publicis, Vizeum as well as communication roles in NGOs like Samaritans, Women's Aid, Headline, Goal and Plan International.

Many Griffith alumni are found across the magazine sector, other regional commercial radio stations and weekly newspapers. A number of graduates are professional contract photographers, or work independently in the film & TV sector.

5

Employability

A media programme at Griffith College will give you the edge to succeed and take on the challenge of entering the growing communication and creative sector in Ireland and internationally. Employers recognise the can-do attitude and professionalism of Griffith graduates. Learners are assured of excellent teaching practices, using industry standard techniques and technologies. Learners on our QQI validated Journalism, Media and Photographic courses are also entitled to student membership cards of National Union of Journalists, which recognises our courses for professional training purposes.

7

Student Media Competitions

Griffith College consistently excels at the Smedias - Ireland's National Student Media Awards. In 2023, one Media students' magazine and 5 individual students were nominated. One of our BA (Hons) in Communications and Media Production graduates won Student of the Year for Journalism Relating to Science and Technology.

BA (Hons) in Communications and Media Production

DUBLIN

About the Course

Social media, TV, Mobile Journalism, radio, photography, print: what media or communication path are you considering? This honours degree allows learners to develop their own media skillsets.

We produce communications graduates who are versatile, confident and able to work across the media spectrum. From a multimedia and academic grounding in year one, learners can develop their own study pathways, whether it is mobile, social and digital media, photography, radio, investigative journalism, TV or video. Learners can become broadcasters, reporters, documentary makers, professional photographers, online and social media specialists and also progress to postgraduate study.

Progression

Graduates of this programme have gone on to study on one of the specialist media MA's offered by Griffith College, as well as pursuing other postgraduate programmes at prestigious academic institutions across Britain and Europe.

Careers

Graduates have many career options. Successful learners have worked as journalists, researchers, presenters and producers in print and broadcast media. Others are working as social media content creators, digital marketing executives, content managers and creators.

The programme also prepares you for employment in areas where visual media or multimedia skills are in demand, including video production, photography, web design, graphics production and design, social media, and the vast demands for media content creation skills online.

Course Content

STAGE 1

Digital online & Social Media Production, Photography 1, Understanding Society, Thinking, Writing, Presenting, Video Production 1, Communications History, Media Law & Ethics, Media Studies, Radio Production 1, Writing for Media.

STAGE 2

Core Subjects: Stage two builds on the learning from Stage 1 and expands on the core elements. It allows learners to specialise in visual or content production by choosing an elective stream. The core modules at stage 2 are: Digital Media Fundamentals, Contemporary Politics, History of Art & Photography, Research Methods, Video Production 2.

Stream A (Journalistic Media): Media Reporting & Editing, Radio & Podcast Production 2, Investigative Journalism.

Stream B (Visual Media): Photography 2, Visual Communication and Web Design.

STAGE 3

Core Subjects: Contemporary Politics 2, Dissertation, Sociology of the Media, Media Research & Cultural Studies.

Stream A or B: Creative Writing, Film Studies, Public Relations, Video Production 3: Studio Practice, Writing for Games.

Stream A only: Conflict Reporting, Sports Journalism, Investigative Journalism 2, Online Content Creation.

Stream B only: Commercial Photography, Media Exhibition.

“ The guest lecturers were amazing as they gave great insight into the realities of working in the industry. The faculty were also so supportive with their career advice and general support. **”**

Oliver Beecham - Bachelor of Arts (Hons) in Communications and Media Production Graduate 2021

BA in Communications

DUBLIN

About the Course

In our three-year programmes you will acquire the skills that are essential for working in contemporary journalism and media communications industries - print, broadcasting and digital.

Learners will focus on practical production skills in audio, video, digital and content as well as developing the critical thinking and creative skills which inform the production of well crafted and effective media products..

STAGE 1

Learners acquire foundational communication and journalism production skills by learning about the history of media and how society has adapted to systems of media communication. Students will also gain an introductory understanding of social research.

Programme participants learn how to present a message and how to present themselves professionally. They will also develop their capacity to write professionally and acquire introductory skills in video, radio, print and photography.

STAGE 2

Learners develop their practical production skills by engaging in course work that is closely modeled on current industry standards within a framework of ethical media practice..

Learns broaden their understanding of the contemporary political, social and economic issues that inform meaningful and relevant media products.

STAGE 3

Learners enhance and develop their production skills to key areas of media practice such as reportage, feature writing, investigative journalism and documentary practice. By applying the critical thinking and creative skill sets to a range of final year projects they demonstrate their competencies as media professionals..

Progression

Further study is an option for learners who successfully complete this programme; the logical step is to take the final year of the BA (Hons) in Communications and Media Production.

Careers

In a rapidly growing media sector there are excellent employment and career opportunities for media graduates. This includes established media careers such as print and broadcast journalism and corporate communications but increasingly in online and digital media contexts.

Course Content

STAGE 1

Communications History, Digital Online Media Production, Media Law and Ethics, Media Studies, Photography 1, Radio and Podcast Production 1, Thinking Writing and Presenting, Understanding Society, Video Storytelling 1, Writing for Media.

STAGE 2

Contemporary Politics, Digital Marketing Fundamentals, History of Art and Photography, Research Methods, Video Storytelling 2, Investigative Journalism, Media Reporting and Editing, Photography 2, Radio and Podcast Production 2, Visual Communication, Web Design..

STAGE 3

Contemporary Politics 2, Dissertation, Media Research and Cultural Studies, Media Sociology, Commercial Photography, Conflict Reporting, Creative Writing, Data Journalism, Digital Marketing Strategies, Environment Communication, Film Studies, Investigative Journalism 2, Online Content Creation, Public Relations, Radio Production 3, Sports Journalism, Video Production 3: Studio Practice, Writing for Games.

BA (Hons) in Music Production

DUBLIN

**Delivered in association with
Pulse College with classes taking
place in the iconic Windmill Lane
Recording Studios**

About the Course

Griffith College is delighted to announce its partnership with Pulse College, to jointly deliver an honours BA in Music Production. The programme has been designed by music industry professionals and provides a uniquely relevant career development path for music producers.

For over 30 years, Windmill Lane Recording Studios has been host to international clients such as U2, Lady GaGa, The Script and The Kings of Leon. Its iconic Studio 1 has recorded soundtracks for The Mask, Mission Impossible, Riverdance, Lord of the Dance and World of Warcraft.

This powerful collaboration between Griffith College and Pulse College gives those who undertake the BA (Hons) in Music Production an unrivalled opportunity to combine their academic development with direct professional recording experience in a leading commercial environment.

The programme provides learners with an advanced understanding of music and sound and its manipulation. Lab, studio and recording training provides learners with detailed competencies in relation to the professional application and management of music production, studio recording and music technology. Students also gain an in-depth understanding of how the music industry is operated and controlled.

This programme embraces learners from a variety of musical backgrounds who are looking to broaden their knowledge and skills base. Our hands-on approach gives learners the opportunity to direct their studies into areas of personal interest and professional relevance.

This personalised development of the learners creative strategies and theoretical knowledge is achieved through creative individual assignments and exciting professional client based projects. This distinctive feature of this programme is where learners earn an additional 30 ECTS credits of their honours degree programme while working with these clients in the studio environment. This accreditation of industry standard practical applications provides a more holistic and systematic approach to learning and ensures that our graduates have the expertise required for the cutting-edge, creative media workforce of the future.

Progression

Successful graduates of this programme are eligible to be considered for entry into a masters degree. Your specialist skills and knowledge will enable you to find employment within music production and recording, post-production, radio, tv studios, film, gaming and animation production companies, sound design for the web and multimedia. In addition to this, graduates will have the required business skills necessary to start their own freelance practices.

Careers

Graduates have found employment in a variety of sectors within music industry. Some of the many great artists or facilities past pupils have worked with are: Prince, Kings of Leon, 50 Cent, Snoop Dog, U2, REM, Kylie Minogue, Windmill Pictures, Brown Bag, Ardmore Studios, RTÉ, FM104, TV3, RTÉ Radio, The Apprentice, Masterchef, Little Britain, Rivercottage, Harry Potter, Casino Royale, MTV, X-Factor, The Voice, Slane, Oxygen, O2, Electric Picnic, Riverdance and Lord of the Dance.

Course Content

STAGE 1

Music Technology, Applications Technology, Recording Studio Principles, Music Theory/Aural Training, The Music Industry, Sound Reinforcement, Critical Listening And Audio Analysis.

STAGE 2

Advanced Music Technology, Music Production & Recording, Music & Image, Sound Design, Music and Image, Live Music and Performance Technologies, History of Music Production and Recording.

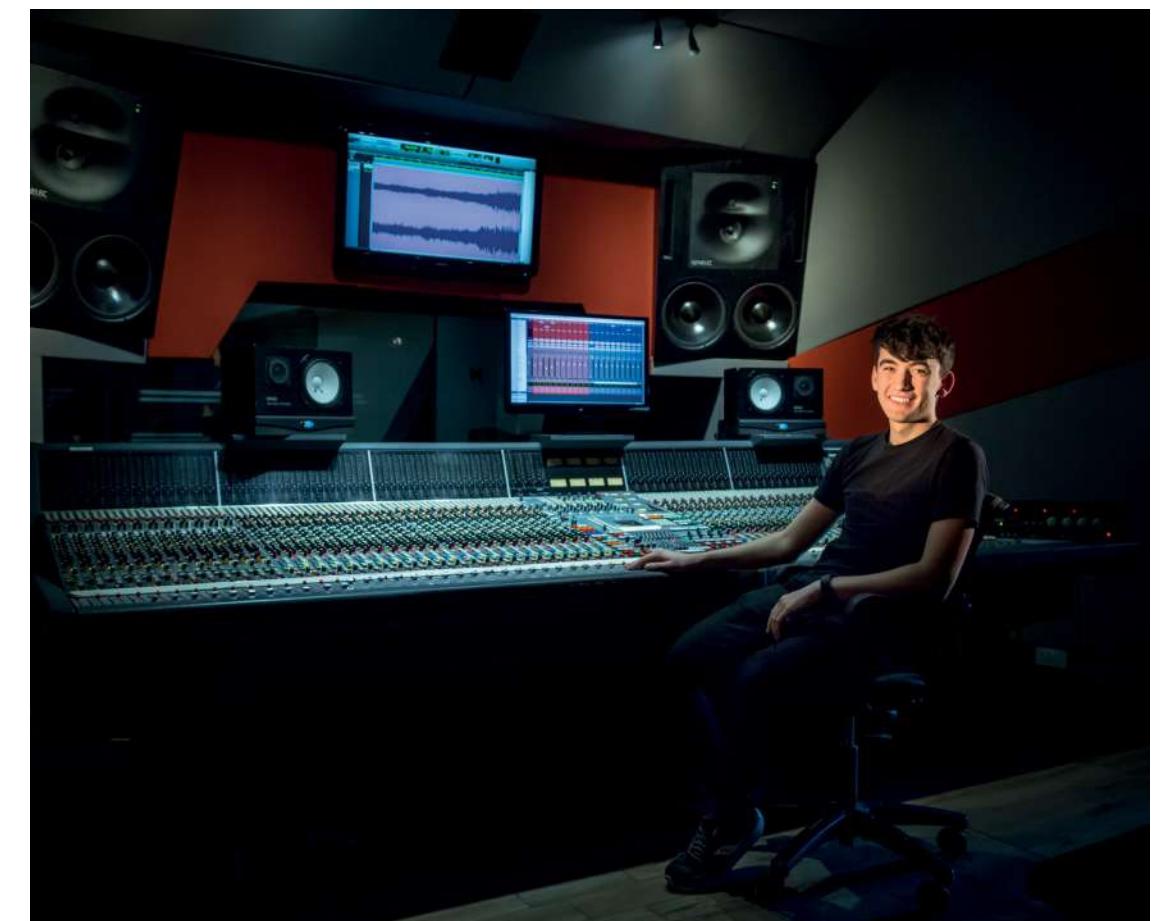

STAGE 3

Dissertation, Advanced Music Production And Recording, Studio Design And Installation, Professional Practice, Songwriting/Arranging for music producers, Professional Client Project, Mixing, Remixing and Mastering.

Programme modules and content are subject to ongoing quality assurance reviews and evolve to reflect emerging educational and industry developments.

“ Great course, fantastic people and hugely valuable experiences in music and much more. I would highly recommend this course for anyone wanting to get into music production industry ”

BA (Hons) in Audio & Music Technology

DUBLIN

Delivered in association with Pulse College with classes taking place in the iconic Windmill Lane Recording Studios

About the Course

The BA (Hons) in Audio and Music Technology programme is run in partnership with Pulse College and aims to train learners in key industry disciplines including recording studios, live venue's, TV, post-production, and live performance. Aimed at musicians, DJ's, computer music hobbyists, and general lovers of music, this programme will train you with skills required for to succeed as a modern day Audio Professional. This programme will introduce learners how to record and produce music both in the home studio and in large recording studios where you will learn about live sound from both a performance and technical perspective. The modern "studio engineer" can record, mix and master audio but they also help produce. Whether it is programming drum parts or string sections or even being on stage, performing with a band.

Please note you do not need to be a musician to be accepted onto this programme but someone who is passionate and enthusiastic for all things' music. Our learners will be trained in Windmill Lane Recording studios and will also be required to put on live shows and performances throughout out the duration of the programme.

Progression

Graduates of the BA (Hons) in Audio and Music Technology programme may be eligible to advance to progress to postgraduate programmes.

Apply direct: www.griffith.ie
Course duration: **Full-Time 3 years**
Award Level: **Level 8**
Validated by: **QQI**

Careers

Graduates of the BA (Hons) in Audio and Music Technology will have a good basis for a future career in an industry-based profession such as a sound engineer, audio editor or music producer.

Course Content

STAGE 1

Music Technology, Applications Technology, Recording Studio Principles, Music Theory/Aural Training, The Music Industry, Sound Reinforcement, Critical Listening And Audio Analysis.

STAGE 2

Advanced Music Technology, Music Production & Recording, Sound Design, Music Theory/Aural Training, Advanced Sound Reinforcement, Live Music and Performance Technologies, History of Music Production and Recording.

STAGE 3

Dissertation, Advanced Music Production And Recording, Studio Design Installation, Professional Practice, Sound Design for Games, Live Events and Audio Streaming Technologies, Audio Post Production Techniques.

DUBLIN

“ The modules really complement each other and prepare you to be a capable audio professional. The college provides top-class facilities and everyday I spend in college, the more passionate I feel about Audio and Music.

Christian Parra

1

Work Placement

The full-time BA in Film, TV & Screen Media Production includes an industry-focused work placement in its third year, enabling learners to gain invaluable experience in the Irish screen industry.

2

Industry Links & Guest Speakers

Our teaching team are practitioners drawn from disciplines throughout the film, TV, photography and other creative industries. In addition, acclaimed industry speakers give guest lectures and share insights into their practice.

3

Practical Education

Our learners work across many platforms, with each programme providing solid theoretical context, practical application, business context and professional development. Learners gain insight into professional workflows and how to connect art and industry while also exploring, experimenting and honing industry-ready skills.

4

Facilities

On campus CASM students have access to professional grade equipment for industry standard education. Not only do these include our Film & TV studio capable of live broadcast and integrated 3D virtual sets, but also dozens of top of the range cameras and location sound recording equipment, the latest editing software in dedicated suites, multimedia production labs, our sound and dubbing suite, photographic studios, dark rooms, professional scanners and printers, and more.

5

Annual Exhibitions and Graduation Showcase

Annually we create opportunities to celebrate and showcase our learners' work at each stage of their programme, which includes film screenings and photography exhibitions. The culmination of which is our Graduation Showcase. This showcase is the final assessment for our learners and a launch pad into the creative industries. The showcase takes the form of a film premiere in a cinema alongside a week-long photography exhibition.

6

Employability & Alumni

The Irish Screen Industry is worth over €692 million and growing. A screen media

programme at Griffith College will help you to stand out in this specialised and highly competitive industry. Our graduates are renowned for both their technical and aesthetic skills. Through the excellent industry reputation of our programmes, learners are assured of sector-leading teaching practices, using industry-standard techniques and technologies. Employers recognise the initiative and professionalism of Griffith graduates.

Graduates from our Film, Television & Screen Media programmes are highly sought after with vibrant and growing alumni working for employers such as BBC, RTÉ, Virgin Media Television, TG4, Fox Searchlight Pictures, Element Pictures, Universal Pictures and the myriad of creative, independent production companies and studios which make up the thriving Irish screen sector. The names of our graduates can be seen in the credits of film, television and screen productions in a wide variety of roles ranging from production and direction through to camera, editing, VFX and marketing & distribution.

Our Photography graduates are also recognise for their talent, initiative, and work ethic and work across a range of commercial, editorial and artistic genres. Some graduates work freelance shooting for brands like Dunne's Stores, Brown Thomas, Deliveroo, Guinness, Jameson and Apple to name just a few, while others can be found in commercial roles in companies like Canon, Google, Sports File, OPW, Rolling News and The Library Project, Barry McCall Studios and Adams Auctioneers.

Whether still or moving image, a programme in the Faculty of Creative Arts & Screen Media will give you the skills and opportunity to thrive in one of Ireland's most creative and fastest-growing industries.

Award Winners

Film Awards

Our thriving and growing Faculty is an excellent film and TV education provider, with graduates proving themselves by winning awards nationally - namely Best Documentary Film, Galway Film Fleadh or Best Documentary at the prestigious Irish Film & TV Awards.

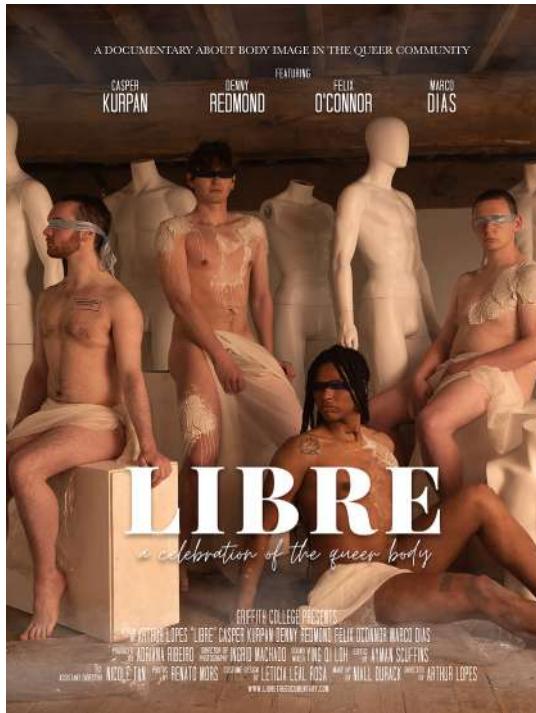

We also have a record of success at the National Student Media Awards (SMEDIAS)

TV Production of the Year (2014) (2015) (2016)	Short Film of the Year (2017)	Film Script of the Year (2018)	Film Documentary of the Year (2022)
---	-------------------------------	--------------------------------	-------------------------------------

Our graduates have also achieved international success; examples of this are as follows.

- Winner Single Take Challenge competition FL, USA (2019)
- Winner Best Documentary Short at Prague International Indie Film Festival (2021)
- Winner Best Film at LGBTQ+ Toronto Film Festival (2021)
- Winner Best LGBTQ Documentary at Venice Shorts (2021)

Graduates have also had feature documentaries selected for the Toronto International Film Festival, BFI London International Film Festival and IDFA International Documentary Film Festival Amsterdam. Short documentaries have achieved Official Selection at Indie Shorts Awards Cannes and Official Selection at Montreal Independent Film Festival.

“ To be able to achieve such a quality film at the end of my course, was because I was able to start doing it, and make mistakes and get experience since the first year ”

Arthur Lopez,
BA in Film, TV,
and Screen
Media Production.

“ Griffith has helped me so much in my own personal development - I have been pushed to creative limits and explored skills I never even knew that I had. Griffith has given me the confidence and the tools to bring my dream career to life. ”

Hayley Houlihan,
BA in Photographic Media

”

Photography Awards

Griffith College photography students consistently excel at the National Student Media Awards (SMEDIAS)

News Photographer of the Year (2020) (2015) (2011) (2006) (2005)
--

Photographer of the Year: (2020), (2019), (2018) (2016) (2015)* (2013)
--

*all 5 finalists were from Griffith College, (2012)

TV Production of the Year (2012)

Sports Photographer of the Year (2016) (2015) (2013)
--

Our graduates have also achieved success in national awards and had work selected for exhibitions and festivals; some examples of these are as follows.

- Inspirational Arts Graduate Award: (2019) (2016) (2013) (2011)
- Gallery of Photography Graduate Award (2020)
- Alliance Française de Dublin Emerging Photographers (2016)
- RADAR Graduate Award formerly Inspirational Arts Award (2023) (2022)
- Photo Museum of Ireland Graduate Award nominee (2023) (2022)

Exhibitions and Publications

Our graduates have also been selected for many exhibitions and publications both nationally and internationally including:

Publications

Harper's Bazaar (front cover), The Guardian, Cara magazine, Irish Independent, Irish Times, New York Times, Social and Personal and more.

Exhibitions

- Halftone Print Fair
- Photoland Festival
- FUTURES Photography 2022

BA (Hons) in Film, TV & Screen Media Production

DUBLIN

About the Course

The central purpose of this programme is to equip learners with the practical and technical skills necessary to express and hone their creativity and to develop their abilities in a variety of aspects in the film, television and screen media Industries. The programme's core intended learning outcomes focus on producing graduates equipped with advanced competences in practical and technical production alongside concept development and storytelling.

Industry awareness is developed alongside creativity, concept development, an awareness of history and theory, industry-standard software and the ability to work individually and as part of a group. In this way, graduates are equipped with skills that meet the needs of emerging and pre-existing industry demands for numerous roles.

STAGE 1

Stage one modules establish core capabilities in both practical film, TV and screen media production alongside critical and contextual thinking and analysis. Central skills in cinematography, sound, postproduction, principles of TV studio production and related screen media and interactive storytelling modules are delivered at this stage of the programme.

STAGE 2

During this stage of the programme, modules serve to enable the learner build on, deepen and develop subjects and skills established at phase one of the programme. Advanced modules in cinematography, sound, VFX and TV studio principles provide learners with the opportunity to deepen their understanding and application of foundational skills acquired at stage one. Learners are steered into considering specialisation through electives. Learners electing the Visual Effects for Screen module are steered towards the technical stream, whereas learners taking the Screenwriting elective are directed towards the storytelling stream.

Apply direct: www.griffith.ie
Course duration: **Full-Time 3 years**
Part-Time 4 years
Award Level: **Level 8**
Validated by: **QQI**
CAO Code: **See page 21**

STAGE 3

At the award stage of this programme, learners are required to pursue three electives from one of two streams; Technical Screen Media Production and Storytelling and International Production.

Learners proposing to pursue electives in either stream must have completed/reached a base level of academic achievement in related / prerequisite modules undertaken at stage two of this programme.

The Dissertation by Practice is an opportunity for learners to showcase their skills in the production of a series of industry-ready examples of screen content and short films.

Progression

Successful graduates of this programme are eligible to be considered for entry onto MA in TV & Radio Journalism.

Careers

Graduates will be in a position to enter the film, television and screen media industries working in any of the principle disciplines, i.e. research, development, writing, screenwriting, directing, editing, cinematography, sound recording & design, location sound, VFX and all roles on a production team.

Facilities

Learners are encouraged to avail of; a fully equipped multi-camera live broadcast TV Studio for vision mixing and broadcasting live studio programmes; a green-screen studio for CGI and VFX work; graphics labs for compositing and motion graphics; offline editing labs for content postproduction; colour correction suits; VR headsets, depth-sensing cameras, video production cameras and lighting equipment and broadcast standard camera, lighting and grip equipment for single camera and multi-camera on-location documentary and drama production.

Course Content

STAGE 1

Production & Direction for Screen, TV Studio Principles, Writing for Screen, Film & Television History, Screen Culture & Theory, Introduction to Production Design, Introduction to Cinematography, Sound Recording & Production 1 Introduction to Post-Production Editing, Interactive Storytelling

STAGE 2

Visual Storytelling & Direction for Screen, Screen Production Management, TV Studio Practice, Contemporary Audiovisual Culture, Applied Industry Skill & Professional Practice, Advanced Cinematography, Sound Recording & Production 2, Editing & Post-Production 2, Screenwriting (E), Visual Effects for Screen (E)

STAGE 3

Mandatory Modules:

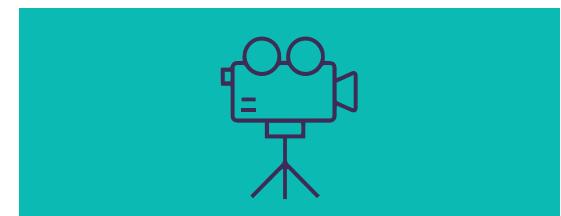

Dissertation by Practice, Advanced TV Studio, Marketing, Distribution & Exhibition, Research, Ethics & Audience, Critical Analysis: Screen Culture & Theory

Electives [Storytelling and International Production stream]

Advanced Screenwriting, Advanced Producing for Industry, Multi-Platform Content Direction, Advanced Production Design

Electives [Technical Screen Media Production stream]

Sound Recording & Production 3, Advanced Visual Effects & Virtual Reality, Cinematography for Industry, Advanced Digital Editing & Mastering

About the Course

The central purpose of the Bachelor of Arts in Film, TV and Screen Media Production is to develop in learners the essential knowledge of practical and technical skills necessary to express their creativity and to develop their abilities to work in the dynamic film, TV and screen media industries. The primary approach of the programme is practical with an emphasis on active learning and the implementation of industry-standard processes – all underpinned by a theoretical and contextual framework. Learners are equipped to work in live TV broadcast environments as well as to produce location-based, single or multi-camera films, TV and online content.

The programme equips learners to adapt to evolving industry needs. Throughout the programme, industry awareness is developed alongside creativity, concept development, an awareness of history and theory, storytelling, industry-standard software and the ability to work individually and as part of a group. Graduates of this NFQ Level 7 programme are equipped with skills that meet the needs of emerging and pre-existing industry demands for numerous roles. Upon completion of the programme, learners are able to apply, and further refine, their acquired knowledge to a variety of professional working environments.

Progression

Successful graduates of this programme are eligible to be considered for entry onto the final year of the BA (Hons) in Film, TV and Screen Media Production.

Careers

Graduates will be in a position to enter the film, television and screen media industries working in any of the principle disciplines, i.e. research, development, writing, screenwriting, directing, editing, cinematography, sound recording & design, location sound, VFX and all roles on a production team.

Facilities

Learners are encouraged to avail of; a fully equipped multi-camera live broadcast TV Studio for vision mixing and broadcasting live studio programmes; a greenscreen studio for CGI and VFX work; graphics labs for compositing and motion graphics; offline editing labs for content postproduction; colour correction suits; VR headsets, depth-sensing cameras, video production cameras and lighting equipment and broadcast standard camera, lighting and grip equipment for single camera and multi-camera on-location documentary and drama production.

Course Content

STAGE 1

Creative Studio Projects 1, Writing for Screen, Screen Productions 1, Presentation and TV Studio Basics, Creative Studio Projects 2, Storytelling for Screen, Screen Production 2, Visual Culture and Theory.

STAGE 2

Production and Direction for Screen, Writing for Screen, Film and TV History, Screen Culture and Theory, Introduction to Production Design, Introduction to Cinematography, Sound Recording and Production 1, Introduction to Post-Production Editing, Interactive Storytelling.

STAGE 3

Mandatory Modules:

Visual Storytelling and Direction for Screen, Screen Production Management, TV Studio Practice, Contemporary Audiovisual Culture, Applied Industry Skill and Professional Practice, Advanced Cinematography, Sound Recording and Production 2, Editing and Post-Production 2, Editing and Post-Production 2.

Elective Modules:

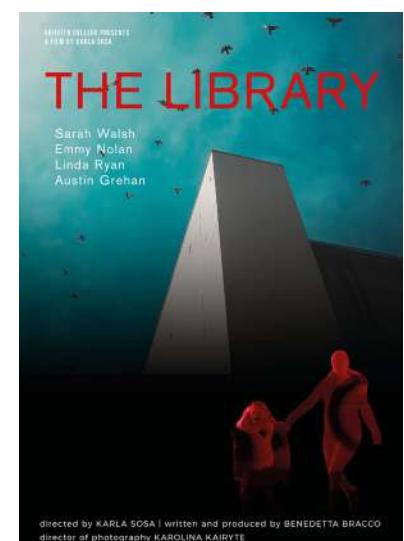

Screenwriting, Visual Effects for Screen.

Apply direct: www.griffith.ie
 Course duration: Full-Time, 3 years
 Award Level: Level 7

Course Details

The Certificate in TV Production and Design Practices provides an opportunity for learners to enhance their skills in TV production and design along with being able to identify the creative specialism they might wish to pursue as a career. This programme is designed to meet the demands from both the screen media and design industries for graduates who possess a unique blend of conceptual, creative, and technological skills. These multi-disciplinary creatives will have the ability to develop a portfolio that demonstrates industry-standard design and screen production skills. Not only that, but students will also engage with all stages of the completion of a production – from concept inception to post-production.

Facilities

Broadcast standard audio, camera, lighting and grip equipment for single camera and multi-camera on location documentary production. Online and offline editing labs for content post-production and colour correction suites.

Progression

Graduates from the certificate are eligible to apply for advanced entry at stage 2 on the BA in Film, TV, and Screen Media Production.

Visual Effects for Screen and Virtual Reality

MODULES

Interactive Storytelling	ECTS 5
Visual Effects for Screen	ECTS 5
Advanced Visual Effects and Virtual Reality	ECTS 5

Course Details

The Certificate in Visual Effects for Screen and Virtual Reality is designed for those who have an interest in visual effects and virtual reality but have not yet completed a related programme and do not have a portfolio to showcase their work.

This programme aims to foster creative talent and generate industry practitioners emphasising the VFX and VR sectors. Through an integrated learning experience in interactive storytelling, VFX, and VR, the resulting graduate will be capable of producing highly specialised assets and publishing them on various platforms. This programme aims to produce graduates who possess a blend of technical and creative skills.

Facilities

Industry-standard software including a contemporary game engine, 3D modelling and texturing tools. Computer labs suitable for post-production, VFX, VR and AR, image grading and mastering. VR headsets, depth sensing cameras, video production cameras and lighting equipment. Chroma greenscreen facilities.

Progression

Learners can progress onto the BA (Hons) in Film, TV & Screen Media Production with exemptions in any modules covered as part of this certificate.

Screen Media Production for Small to Medium Enterprises

MODULES

Screen Production I	ECTS 10
Writing for Screen	ECTS 5
Presentation & TV Studio Basics	ECTS 5
Storytelling for Screen	ECTS 5

Course Details

With the rise of digital and social marketing, never has screen media content production been as important for small to medium sized businesses. The Certificate in Screen Media Production for Small to Medium Enterprises (SMEs) endeavours to give individuals the skills, knowledge, competencies, and experience to fulfil this increased need for in-house video production capabilities.

Never has screen media content production been as accessible or as important for small to medium sized businesses. This certificate aims to equip learners with skills to meet the video production needs of SMEs to either allow in-house team members to become in-house content producers along with developing their skills to work alongside commercial production companies for large-scale production.

The programme is made up of four modules, Writing for Screen, Storytelling for Screen, Presentation and TV Studio Basics and Screen Production.

Facilities

Industry standard camera, lighting and grip equipment. Computer lab with editing software and screening facilities.

Progression

Learners who have completed modules on the proposed embedded awards may apply to transfer to this Level 8 degree programme (with exemptions).

Apply direct: www.griffith.ie
Course duration: **1 year, Part time, blended**
Award Level: **QQI level 6 (25 ECTS)**
Validated by: **QQI**

The greatest strength of this course is that it is entirely project led. The emphasis is that students learn to create films. It is hands on from day one.

Certificate in Live TV and Studio Broadcast

DUBLIN

MODULES

TV Studio Principles	ECTS 5
TV Studio Practice	ECTS 5
Advanced TV Studio	ECTS 10

Course Details

The Certificate in Live TV and Studio Broadcast aims to prepare candidates for employment in the screen media industries and aims to equip learners with the core knowledge and skills needed to produce and broadcast live TV studio content. This is achieved by teaching a comprehensive range of industry-standard TV studio technologies, storytelling, presentation, research approaches, and production techniques.

The Certificate in Live TV and Studio Broadcast equips learners with industry-ready skills across a wide range of advanced multi-camera TV and virtual studio-based technologies. This future-focused programme ensures that graduates are prepared for the demanding and multi-disciplinary world of modern live television production and broadcast.

Facilities

Lighting rig and talk-back communications system. TriCaster vision mixing desk, computer interface and SSD file storage. A dedicated video grading suite. Video production kits including professional camera and audio recording equipment. A full list of equipment is available upon request.

Certificate in Screen Production

DUBLIN

MODULES

Screen Production I	ECTS 10
---------------------	---------

Course Details

The Certificate in Screen Production equips learners with the abilities to conceive ideas and develop original material suitable to approach the production of a short factual item for multiplatform distribution. This practical single-module certificate award is based on current industry best-practice in short-form screen media content production and emulates industry processes to equip learners with the basic practical skills to produce short-form audio-visual branded content/commercial content for multiplatform distribution. Learners are introduced to the practical skills needed in each phase of screen media production – pre-production, production, and post-production – and make informed, logical, and creative decisions at every stage. This programme is ideal for those who are unable or uncertain to make a long-term educational commitment but offers a pathway to consider their options in further study or a career in film or TV production. This practical award brings learners who have no experience in film or TV production through the screen content production cycle, providing an opportunity for development and experimentation in technical, production, conceptual and creative fields.

Facilities

Industry standard camera, lighting and grip equipment. Computer lab with editing software and screening facilities.

Progression

Learners who have completed modules on the proposed embedded awards may apply to transfer to this Level 8 degree programme (with exemptions).

Digital Cinematography and Image Grading

DUBLIN

MODULES

Intro to Cinematography	ECTS 5
Advanced Cinematography	ECTS 5
Advanced Digital Editing and Mastering	ECTS 5
Cinematography for Industry	ECTS 5

Course Details

The Certificate in Digital Cinematography and Image Grading is intended for those interested in cinematography and who wish to gain core skills in camera operation, data management, and equipment handling. This programme aims to provide learners with the knowledge and concepts to cultivate practical and conceptual skills to work as a camera assistant, as an entry-level camera operator, or as a self-shooting content producer/director. The programme provides learners with both a broad and deep introduction to cinematography and image grading, where graduates will have developed skills in camera operations, lighting, camera movement, visual effect cinematography, along with working with clients, and completing industry-standard cinematography deliverables.

Facilities

Industry standard cameras, lighting and grip equipment. Studio space to conduct lighting workshops. Computer lab with editing software and screening facilities.

Progression

Learners can progress onto the BA (Hons) in Film, TV & Screen Media Production with exemptions in any modules covered as part of this certificate.

Having a great supervisor and great teachers for our projects was amazing. They didn't hesitate to help out and give guidance on scripts or storylines.

Diego Rodriguez

Design

“ I always wanted to study design but I didn't know where to start. After a lot of research, I choose the Interior Architecture course at Griffith. This course really helped in advancing my career. With the assistance of the faculty, I secured an internship every summer in Dublin, including an internship at IKEA. And then when I completed 3 years, I secured a full-time job as an interior architect. I'm so glad I did this course and would highly recommend it.

Griffith College offers a selection of courses for those seeking a career in Design. Our reputation is highly regarded within Industry and our graduates are actively sought after by employers upon completing the Programmes.

1

Industry Recognition

We maintain an outstanding reputation and create graduate designers who have strong creative, technology and business skills that are industry ready.

Our alumni have careers with brands and employers such as Anna Sui, Avoca, Dunnes Stores, Fee G, Gareth Pugh, Mariana Junkman, Esquire Footwear NYC, IDOL Magazine, Primark, Reiss, Rick Owens, Simone Rocha, Styltex, Tally Weijl, Vivienne Westwood, Henry J Lyons Architects, Design Squared, RKD Architects, O'Donnell O'Neill Design.

Our learners work on live projects set by companies and organisations such as Avoca, Arnotts, Heatons, Lectra, Primark, Dublin City Council, St Luke's Hospital Rathgar. Our programmes are recognized by the European Council of Architects (ECA) and the IDI (the Institute of Designers in Ireland). The Design Faculty is a member of the International Design Education Assembly, Cumulus, IE (Interior Educators) the UK based association of Educators for the Interiors industry and Lectra's Educational Partnership programme.

2

Field Trips

Experiential learning is an important part of our courses, with most modules having class trips as a part of their curriculum.

Every year the faculty travels internationally and nationally to places with both current and historical design importance. Previous trips have included London, Rome, Milan, Berlin, Paris, Bilbao, Barcelona and Venice.

3

Awards

The calibre of work produced by the Design Faculty has been recognized numerous times through industry awards and exhibitions.

- Universal Design Award
- DCU Young Designer of the Year Award
- Dublin Fashion Festival Young Designer of The Year

Industry Links

The Design Faculty ensures programmes and teaching methodology remain relevant as both staff and the lecturing teams are accomplished practicing designers, architects, buyers, business professionals, marketers and art historians.

To ensure we are meeting the current needs of the industry and following best practice, our courses are regularly reviewed by industry professionals and we respond to the changing requirements of Industry in a fast and fluid manner.

Industry Professionals are regularly invited to give guest lectures and participate in award year critiques. Interior Design and Architecture Internships Interior Design learners have also secured internships and full-time positions with IKEA, Douglas Wallace Architects, HJ Lyons Architects, O'Donnell O'Neill Design, HKR in Ireland as well as Norman Foster in London and Jonathan Adler N.Y.C.

Fashion Design learners have been awarded internships at Alison Conneely, Avoca, Caroline Kilkenny, Dunnes, Fee G, Heatons, Helen Cody, Helen McAlinden, Jennifer Rothwell, Joanne Hynes, Liz Quin, Louis Copeland, Primark, Percival and Styltex.

5

Press and Industry Exhibition

The annual Creative showcase in May, is a platform for the promotion of our talented young designers and their work. This exciting exhibition is launched with a Press and Industry Event, which affords our graduates the opportunity to meet employers and buyers.

Guests are given a unique insight into the inspiration of the creative work of the Fashion Design graduates, allowing employers, photographers, stylists, and media to take a glimpse at the look books and meet the new talented emerging designer.

The event bridges the gap between graduation and employment and offers employment, internships and media opportunities and has featured on TV3's Exposé and in local and national media.

6

What Sets Us Apart

At Griffith College Faculty of Design, the curriculum includes Creative Design, Technology and Business.

We consider these to be inextricably intertwined. Our graduates are extremely well equipped to think commercially and creatively in their future careers.

The programme has been developed to meet current and emerging career opportunities within the Design industry. It also provides a platform for the learner to consider an entrepreneurial venture as a young startup business.

All our Design programmes embrace:

- 1 Creativity
- 2 Innovation
- 3 Experimentation
- 4 Realisation
- 5 Digital Technology Skills
- 6 Business and Marketing Skills
- 7 Applied Project Work

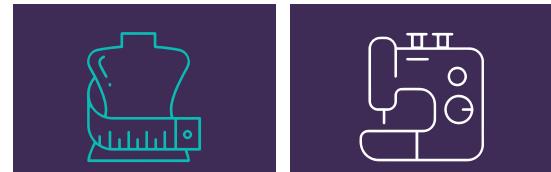

BA (Hons) in Fashion Design

About the Course

The BA (Hons) in Fashion Design (Level 8) degree is a full-time, 3-year programme of study. Though the main focus is on design and creativity, the programme covers all aspects of the fashion industry, which is supported with professional practice skills, including brand and marketing, business and entrepreneurship. Learners gain experience with the latest fashion illustration and computer-aided design (CAD) and skills such as traditional tailoring, drape, digital textiles, knit and embellishment techniques are developed. This ensures our graduates have the most current skills required to be successful in the Fashion industry.

Learners explore a personal design direction – from idea generation, design development and pattern creation through to garment construction using contemporary production techniques. The programme reflects the changes taking place in the fashion industry, recognising that traditional manufacturing bases have been relocated to low cost economics.

Our programme has responded to this need with a comprehensive syllabus offering training in the most up-to-date 3D virtual design software programme creating true-to-life garment visualisation with cutting-edge simulation technology. Our graduates are prepared for employment as fashion designers liaising with offshore production facilities, buyers, stylists, trend forecasters, or any other role that requires the application of creative design supported by technical and business knowledge.

Validated by: **QQI**
CAO Code: **See page 21**
***Contact Admissions for further info**

Progression

Holders of this qualification may wish to pursue postgraduate study. Learners who successfully graduate from Griffith College can choose postgraduate study options which include specialist areas of study leading to a Master of Arts award.

Careers

Graduates typically find employment in the following career areas: Fashion Design, Fashion Illustration, Pattern Cutting, Fashion Forecasting, Costume Design, 3D Virtual Design, Fashion Buying, Fashion Journalism, Brand and Marketing, Fashion Styling, Image Consulting, Production Supervision, Garment Quality Control, Fabric & Trim Purchasing, Fashion Business.

Course Content

STAGE 1

Fashion Design 1, Garment Construction 1, Design Graphics 1, The Business of Fashion, Contextual Studies for Fashion, Fashion Design 2, Garment Construction 2, Design Graphics 2, Textile Theory and Application, Design Culture & Theory.

STAGE 2

Fashion Design 3, Garment Construction 3, Fashion Illustration, Design Futures, Entrepreneurship & Business, Fashion Design 4, Garment Construction 4, Digital Fashion Portfolio, Photography and Video, Brand and Marketing.

STAGE 3

Major Fashion Projects, Garment Construction Projects, Dissertation, 3D Digital Design, Professional Practice and Portfolio.

BA in Fashion Design

About the Course

This level 7 degree is a full-time, 3-year programme of study. Though the main focus is on design and creativity, the programme covers all aspects of the fashion industry, which is supported with professional practice skills, including brand and marketing, business and entrepreneurship.

Learners gain experience with the latest fashion Illustration and computer aided design (CAD), and skills such as traditional tailoring, drape, digital textiles, knit and embellishment techniques are developed. This ensures our graduates have the most current skills required to be successful in the Fashion industry.

Learners explore a personal design direction – from idea generation, design development and pattern creation through to garment construction using contemporary production techniques. The programme reflects the changes taking place in the fashion industry, recognising that traditional manufacturing bases have been relocated to low cost economics.

Our graduates are prepared for employment as fashion designers, stylists, trend forecasters, or any other role that requires the application of creative design supported by technical and business knowledge. Like the honours degree, this programme has been created with consultation from industry professionals and is staffed by practicing Fashion Designers subject specialists to current best practice within industry and approved by QQI.

Progression

Graduates may progress to the final year of the QQI BA (Hons) in Fashion Design.

Apply direct: www.griffith.ie
Course duration: **Full-Time 3 years**
Award Level: **Level 7**
Validated by: **QQI**
CAO Code: **See page 21**

Career Progression

There is a wide range of career options for our graduates including: Fashion Designer, Own Label, Fashion Illustrator, Costume Designer, Fashion Forecaster, Fashion Stylist, Fashion Buying, Fashion Journalist, Image Consultant, Fashion Show Producer, Offshore Manager, Pattern Drafter, Production Supervisor, Quality Controller, Fabric & Trims Purchaser, Textile Designer, Garment Technologist.

Course Content

STAGE 1

Creative Studio Projects 1, 2D Drawing and Image Making Techniques, Digital Design Tools 1, Design Principles, Creative Studio Projects 2, 3D Free Hand Drawing Techniques, Digital Design Tools 2, Visual Culture and Theory.

STAGE 2

Fashion Design 1, Garment Construction 1, Design Graphics 1, The Business of Fashion, Contextual Studies for Fashion, Fashion Design 2, Garment Construction 2, Design Graphics 2, Textile Theory and Application, Design Culture and Theory.

STAGE 3

Fashion Design 3, Garment Construction 3, Fashion Illustration, Design Futures, Entrepreneurship & Business, Fashion Design 4, Garment Construction 4, Digital Fashion Portfolio, Photography and Video, Brand and Marketing.

BA(Hons) in Graphic Communication Design

About the Course

The BA (Hons) in Graphic Communication Design is a three-year level 8 degree course available on a full-time basis. This challenging degree will teach you how to continuously respond with creativity, and create innovative visuals while developing a keen understanding of consumer culture and market trends.

- Achieve an honours degree in Graphic Communication Design in three years.
- Investigate up-to-the-minute tools and trends of the trade, including introductory and advanced web design.
- A broad range of modules, including business and marketing aim to prepare the students for the Design industry.
- Receive a solid foundation in traditional design practices alongside modern concepts of graphic design and develop your skills and style across multiple media.
- Learn to think creatively when faced with design challenges, adapt to industry changes, and recognise key trends and the integral role of target markets and consumer culture in their design.
- The practical nature of the course encourages students to learn by doing while small class sizes ensure you can work closely with your tutors.
- The calibre of work produced by the Design Faculty has been recognised numerous times through industry awards and exhibitions.
- Our Design Faculty graduates work showcases during our annual Creative Week
- 100% continuous assessment means learners do not need to sit written exams.

Apply direct: www.griffith.ie

DUBLIN

BA in Graphic Communication Design

Course Highlights

Class Field Trips - Every year classes travel to current and historical places of design importance, both nationally and internationally. Previous trips have included London, Rome, Milan, Berlin, Paris, Bilbao, Barcelona, and Venice.

Industry Links - You will be taught by practising architects, designers, buyers, and art historians. Professionals from the industry regularly give guest lectures.

Progression

You'll have gained a unique knowledge of traditional design, graphic design, business and marketing, as well as created an extensive practical portfolio upon completion of this course. Following on from your undergraduate studies you may wish to pursue postgraduate study in other academic institutions in Ireland or abroad. Graduate may consider progressing within Griffith College onto the following programme: MSc in Applied Digital Media

Careers

Through the BA (Hons) in Graphic Communication Design, you will have gained valuable design experience, built a strong foundation of creative skills, and covered a diverse range of topics. As a result, you will have the experience to work within a wide variety of areas. Graduates are employed in many fields including design agencies, graphic design, advertising, web design, game design, broadcasting, post-production for television and film, illustration, and promotion.

Course Content

STAGE 1 - Communication Design 1, Typography 1, Design Graphics 1, Illustration 1, Contextual Studies for Visual Communication, Communication Design 2, Advertising and Editorial Photography, Design Graphics 2, Illustration 2, Design Culture and Theory.

STAGE 2 - Communication Design 3, Typography 2, Web Design, Design Futures, Entrepreneurship and Business, Communication Design 4, Interaction Design, Photography and Video, Brand and Marketing.

STAGE 3 - Communication Design 5, Advanced Web Design, Motion Graphics, Dissertation, Major Project, Professional Practice & Portfolio.

About the Course

The BA in Graphic Communication Design is a three-year level 7 degree course available on a full-time basis. This challenging degree will teach you how to continuously respond with creativity, and create innovative visuals while developing a keen understanding of consumer culture and market trends.

- Investigate up-to-the-minute tools and trends of the trade, including introductory and advanced web design
- A broad range of modules, including business and marketing aim to prepare the students for the Design industry.
- Receive a solid foundation in traditional design practices alongside modern concepts of graphic design and develop your skills and style across multiple media.

DUBLIN

BA (Hons) in Interior Architecture

About the Course

The honor's degree programme has been designed in response to an increased demand from industry for honor's degree level employees with specific skills relating to Interior Architecture including spatial planning; design detailing, technologies, problem solving and visualisation techniques, and presentation skills.

Learners are required to take part in in-depth research, apply knowledge of building technology and regulations, organise and manage project solutions, and communicate their designs using digital design programmes. Graduates of this programme leave with extensive experience in creating, analysing and interpreting project briefs. They will be able to problem solve complex design issues and work independently and in groups to find solutions.

Learners will leave with advanced skills in space planning; design detailing, materials selection and specification. They will gain insight into the social implications of design and understand at a deeper level how design and community interact in the real world. This programme is recognised by the European Council of Interior Architects (ECIA), The Irish Interior Association (IA) and the Institute of Designers in Ireland (IDI).

Progression

Holders of this qualification may wish to pursue a postgraduate diploma or master's programme in Interior Architecture or related disciplines. While the course provides valuable knowledge and skills related to interior architecture and design, it is essential to note that the Royal Institute of the Architects of Ireland (RIAI), the Regulatory and Professional Support body in Ireland, does not recognise this specific qualification as meeting their professional standards and requirements for the profession of architect.

DUBLIN

Careers

Interior Architect, Own Design practice, Residential Interior Designer, Retail Store Designer, Film and Set Designer, Hospitality Designer, Exhibition Designer, Office Designer, Facilities Space Planner, CAD Technician, 3D Visualizer, Material Consultant, Interior Project Director, Interior Design Project Manager.

Course Content

STAGE 1

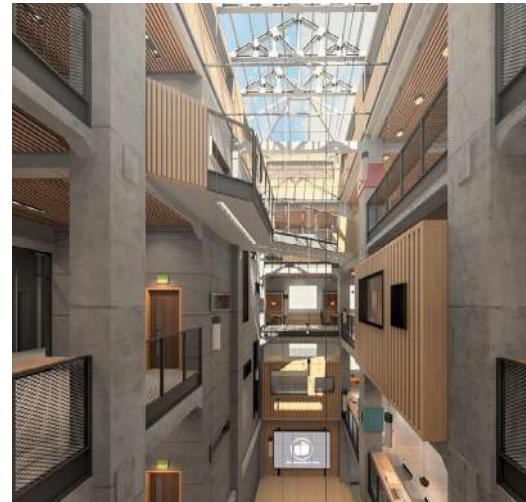

Interior Projects 1, Ergonomics & Anthropometrics, Architectural Drafting & 2D CAD, Design Graphics 1, History of Interior Design & Architecture, Materials & Finishes, Interior Projects 2, Advanced 2D CAD & 3D CAD, Building Regulations in Interior Design, Lighting Design, Design Culture & Theory.

STAGE 2

Interior Projects 3, Introduction to BIM, Furniture & Fittings, Design Features, Entrepreneurship & Business, Interior Projects 4, Advanced BIM, Building Construction, Brand & Marketing, Sustainability in Interior Design.

STAGE 3

Interior Projects 5, BIM Collaboration, Dissertation, Conservation of Interior Environments, Interior Projects 6, Advanced Rendering, Project Management, Materials Science & Structural Mechanics, Practice Management.

BA in Interior Architecture and Design

About the Course

This three year level 7 degree can be taken as a fulltime or evening access programme (all candidates for the evening access programme should be 23 years or older).

This programme takes the learner from initiation through to successful completion of project work, to produce a graduate who can create, design, problem solve and act professionally in all related working environments.

Successful graduates are industry ready, proficient creatively and technically to propose innovative solutions and problem solving expertise within the built environment.

Similar with the honours degree, this programme has been created with consultation from industry professionals and is staffed by practicing Designers, Architects and subject specialists to current best practice within industry and approved by QQI.

The programme now includes the Adobe Suite, SketchUp, AutoCAD, Revit, as well as traditional communication tools such as model making and freehand drawing.

Progression

Graduates may progress to the final year of the QQI BA (Hons) in Interior Architecture programme upon achieving the necessary results.

Careers

Interior Designer, Interior Stylist, House Showroom Designer, Residential Interior Designer, Retail Store Designer, Film and Set Designer, Hospitality Designer, Exhibition Designer, Display Designer, Office Designer, CAD Technician, Design Account Manager.

While the course provides valuable knowledge and skills related to interior architecture and design, it is essential to note that the Royal Institute of the Architects of Ireland (RIAI), the Regulatory and Professional Support body in Ireland, does not recognise this specific qualification as meeting their professional standards and requirements for the profession of architect.

BA (Hons) in Creative Technologies and Digital Art

DUBLIN

PULSE COLLEGE
LEADERS IN CREATIVE MEDIA EDUCATION

Course Details

The BA (Hons) in Creative Technologies and Digital Art is designed to equip learners with the creative, technical, and critical skills needed to pursue a career in the field of digital design and the creative technologies. In recent years, this field has widened from the traditional industries of gaming and animation to include medicine, flight simulation, architecture and sales and marketing.

This BA (Hons) programme is designed to meet the current and projected needs of Ireland's growing entertainment and media industry by equipping graduates with the requisite skills and knowledge demanded by employers in the fields of animation and video game design. However, the programme does not exclusively focus on games development, with modules looking to enhance skills in the fields of sound engineering, photography, and filmography. Overall, this programme offers a well-rounded, focused educational experience which will open a wide array of employment opportunities to successful graduates.

All learners are introduced to key foundational technical skills in stage one (Introduction to Programming, 2D Art, Design and Animation, etc.), to basic skills required for critical evaluation (Research Methods) and are encouraged, at a very simplistic level, to find their creative voice (Visual Media). These elementary skills are subsequently expanded and developed at stage two of the BA (Hons).

By the end of stage three, learners on the BA (Hons) have the technical skills necessary to articulate their artistic vision, but also the analytical acumen both to anticipate and surmount problems that may arise in developing an artefact; to understand how their project ties in with the state of the art and the possible implications that it may have for both individuals and the wider society as a whole.

The course aims to not just equip the learner with the technical skills needed to flourish in a range of

Validated by:

QQI Pulse College

industries, but also to help them find their creative voice, which is developed over the duration of the three-year course.

As digital and multimedia technologies become increasingly central to an ever-expanding number of diverse industries, graduates schooled in these technologies are of increased demand in the areas such as the video game industry; animation; architecture; the film industry; in developing applications within the aircraft design and flight simulation sector; and in the field of medical training. For example, game engine technology is of relevance in a burgeoning array of sectors, such as tourism, sales and marketing, aviation, and architecture.

Entry Requirements

The minimum entry requirement is Grade H5 or better in two Leaving Certificate subjects, and grade O6 / H7 in 4 additional subjects. The subjects must include mathematics and English or Irish. It is beneficial, but not necessary, for learners to have previously studied art and/or design, or computer programming; however, all learners will be subject to a suitability interview. Mature applicants over the age of 23, may also apply on the basis of work experience.

Modules

STAGE 1

Introduction to Programming; 2D Art, Design and Animation; 3D Modelling for Games; Game Theory; Programming for Games; Games Design and Architecture; Visual Media: Art, Image and Culture; Research Methods; Mathematics for Digital Application

STAGE 2

Procedural Programming and Generation; UI Design and Implementation; Shaders and Technical Art; Introduction to Audio; Algorithms and Data Structure; 3D Animation and Environment for Games; Level Design and Interactions; Narrative for Games; Art and Technology: Critical Analysis

STAGE 3

XR Technologies; Interactive Design Portfolio; Business and Entrepreneurship; Proposal for Final Project; Final Project (30 ECTS)

Griffith college is very excited to partner with Pulse College to deliver this unique and industry focused BA in Animation. The programme is developed and taught by practising industry professionals to ensure that you receive the very highest levels of training. A key part of the programme involves producing a portfolio of work that will help you get into the exciting and growing animation industry, both in Ireland and internationally.

Studying at Griffith College will introduce you to valuable, professional work-flows, and teach you all aspects of the animation pipeline, from concept through to post-production. Practical experience is an essential element of our unique programme. There are 20 hours per week in class, Monday to Friday, with study spaces and extra tutoring available to practise and refine your skills.

About the Course

This course covers the full range of topics from drawing skills to 3D modelling, 3D lighting, character texturing, character animating, environmental modelling, animation rendering, and 2D animation, Comic Books and Sequential Art, Animation for Video Games. It will also teach you valuable professional workflows.

A key aspect of this course is to produce a portfolio over the duration of the course that will help you to break into the dynamic and creative animation industry.

During the programme, you will learn about:

- Animating in 2D
- Designing a character for 3D Modelling
- How to create a 3D character model
- How to add colour to your character
- Making your character move
- Developing storyboards for animation
- Creating an environment to house your character

Apply direct: www.griffith.ie
 Course duration: Full-Time 3 years
 Award Level: Level 7
 Validated by: QQI

- Camera and lighting effects to make your animation pop
- Life Drawing
- Comic Books and Sequential Art
- Animation for Video Games

Whether you want to be an animator, character designer for games, concept artist, or VFX animator, this course can set you on the right track to achieving your goal.

Course Content

STAGE 1

2D Digital Imaging 1, Animation Principals & History, Life Drawing, Storyboarding and Layout, 3D Modelling 1 (Characters and environments), 3D Rigging and Animation, Texturing and Unwrapping, Visual Culture and Theory 1.

STAGE 2

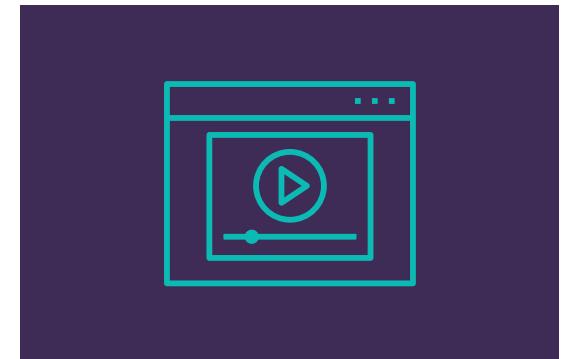

2D Digital Imaging 2, Narrative and Storytelling, Life Drawing for Animation, 3D Modelling 1 (Characters and Video Games), 3D Advanced Rigging and Animation, Special Effects, Compositing & Motion Graphics, Sequential Art Design and Production (Comic Art and Production), Visual Culture and Theory 2

STAGE 3

Final Project, 3D Sculpting & Modelling, Videogames Tools and Environments, Audio Production, Entrepreneurship (Marketing for business).

“ For the most part, I've loved every part of the course. It starts from the beginning and we go through the basics before progressing our skills from there. We gain a really good understanding of what will be demanded of us as an animator in the industry.

Emem Tom, BA in Animation **”**

Certificate in Art & Design

About the Course

The purpose of this award is to equip the learner with the knowledge, skill and competence to develop an analytical and methodical approach to designing and developing designs. It is also to introduce the learner to a broad range of design disciplines before choosing their pathway in Interior Design/ Architecture, Fashion & Textiles, Graphic design & Illustration and Animation.

It also allows learners a pathway onto a level 8 award within the Design faculty. The key abilities which contribute to successful individual participation on the programme have been identified as: creativity in design; competence in communication in a variety of media; an ability to draw; technical understanding; and organisation.

Candidates are expected to have a keen interest in: the cultural and social factors in design; creative expression and innovation; and to have a capacity for both independent work and teamwork.

Progression

Learners who complete this programme can progress onto Stage 1 of the BA (Hons) in Fashion Design, the BA (Hons) in Interior Architecture, BA (Hons) in Animation or the BA (Hons) in Graphic Communication Design.

Course Content

STAGE 1

Semester I: Creative Studio Projects 1, 2D Drawing and Image Making Techniques, Digital Design Tools 1, Design Principles.

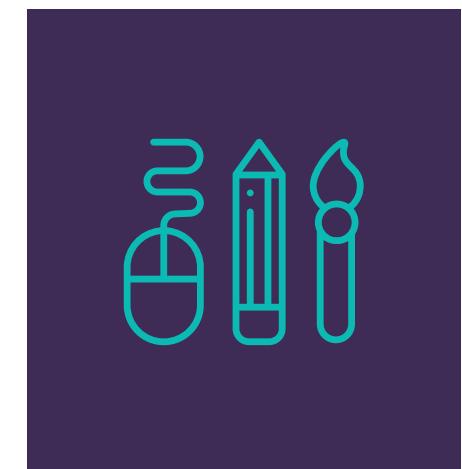

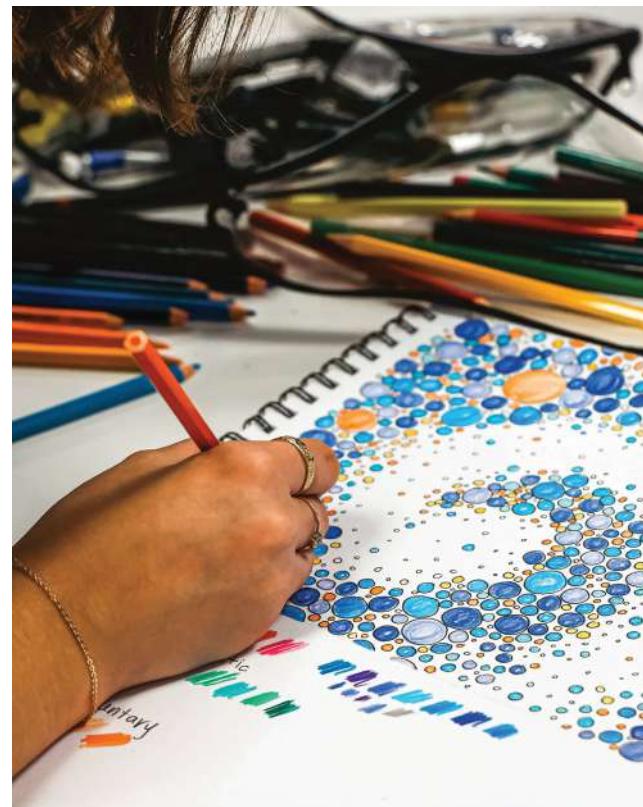

Semester II: Creative Studio Projects 2, 3D Drawing Techniques, Digital Design Tools 2, Visual Culture & Theory.

DUBLIN

“ The Art and Design Certificate is the best option in my opinion for students coming straight from the Leaving Certificate. Whether you like fashion, interiors, fine art, or even photography. I got the opportunity to find out what I love and what I dislike. The certificate is a perfect stepping stone as you have the option to finish with a level 6 or advance on to a level 7 or 8 in whichever field you desire. ”

Diploma in

Building Information Modelling (BIM) and Graphic Illustration

DUBLIN

About the Course

The Diploma in Building Information Modelling (BIM) and Graphic Illustration is designed to introduce Building Information Modelling (BIM) and explore and develop skills in BIM using Revit software, rendering skills using visualising computer-aided software and graphic illustration skills using Adobe Suite programmes. It consists of 6 modules taught over two semesters. This programme is designed to introduce Building Information Modelling (BIM) and to explore and develop skills in BIM using Revit software, rendering skills using visualising computer-aided software and graphic illustration skills using Adobe Suite programmes.

Learners are introduced to the software Revit, and will develop an understanding of BIM's technical issues through individual effort. Learners will produce complex 3D models in the built environment to include interior and building services. They will extract 2D documentation plans, sections, and elevations from the model and render 3D views to a high degree of expertise. Learners are also introduced to Bitmap & Vector Graphics applications such as Adobe Creative Cloud.

Learners develop an understanding of BIM's technical issues through individual effort and produce complex 3D models in the built environment to include interior and building services. Learners extract 2D documentation plans, sections, and elevations from the model and render 3D views to a high degree of expertise. Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and provides an opportunity for those living outside the greater Dublin area to study in Griffith College. This programme supports a split between online (20%) and classroom (80%) lectures and includes engagement with the local community and industry and attendances at seminars and CPDs arranged by specialist and professional practitioners as well as undertaking fieldtrips relating to new research and development.

Classes are delivered using a Hybrid delivery method with classes being recorded and available for learners to catch up and review outside of timetables classes.

Entry Requirements

Learners who already have a full qualification in background of building design and construction related programmes or a cognate discipline (Level 7), or a relevant level of experience of working in industry. Candidates will already have a solid foundation and in-depth understanding of built environment, and require prior knowledge and proficiency in 2D CAD or other architectural technical tools.

Certificate in

Advanced BIM and BIM
Collaboration (using Revit)

About the Course

The Certificate in Advanced BIM and BIM Collaboration (using Revit) consists of one module taught over one semester. This programme is designed to explore and develop advanced skills in Building Information Modelling (BIM) and BIM Collaboration using Revit. Learners are introduced to advanced building modelling relating to protected structures/historic buildings and will develop an understanding of model in place components and mass modelling. Learners are also introduced to BIM Collaboration (using Revit) and will develop an understanding of BIM 360 (collaboration) and Management.. In addition, learners develop an awareness of the BIM relating to costing for Quantity Surveyors.

Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and this programme supports a split between online (20%) and classroom (80%) lectures. It also includes engagement with the local community and industry, attendances at seminars and CPDs arranged by specialist and professional practitioners, as well as undertaking fieldtrips relating to new research and development. Advanced Rendering

About the Course

The part-time Certificate in Advanced Rendering consists of one module taught over one semester. This programme is designed to explore and advanced rendering skills using advised rendering software. These skills will facilitate the learner in researching and specifying materials, textures, natural and artificial lighting to support an accurate and photorealistic visualization of a proposed design. Similarly, learners will focus on the generation of interior and exterior renders from 3D model views, and produce a walkthrough, using advanced rendering techniques. This is a hands-on programme that encourages work-flow skills that will be developed through learning by doing.

Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and this programme supports a split between online (20%) and classroom (80%) lectures. It also includes engagement with the local community and industry, attendances at seminars and CPDs arranged by specialist and professional practitioners, as well as undertaking fieldtrips relating to new research and development. Classes are delivered using a Hybrid delivery method with classes being recorded and available for learners to catch up and review outside of timetables classes.

Entry Requirements

Applicants will have a level 7 qualification in building design, or construction, or a cognate discipline, or a relevant level of experience of working in industry. Candidates will also have a solid foundation and understanding of built environment, and require prior knowledge in 2D CAD or other architectural technical tools.

Diploma in

DUBLIN

Entrepreneurship and Project Management (Built Environment)

About the Course

The Diploma in Entrepreneurship and Project Management (Built Environment) is designed to introduce and explore the concepts and practices of entrepreneurship, project management, planning and building control, and practice management in relation to the built environment. This programme provides an awareness and understanding of the legal issues frequently encountered by the entrepreneur including the ownership, structuring, organisation, financing, and operations of a company as well as other important issues such as intellectual property, board formation, human resources, and exit strategies.

This Diploma addresses a specific need for professionals within the construction industry, and related areas, to upskill their current knowledge. It also emphasises the importance of project management competency as a skill set combining business, behavioural and technical skills. The programme offers learners the chance to experience the initial stages of the entrepreneurial or intrapreneurial process by examining theory and how to apply general, strategic, and operational management principles to evaluate, plan, establish, and grow a small business or a new business unit within a larger enterprise.

Graduates possess directly applicable skills in project execution and project control to successfully and professionally manage projects to their conclusion.

Entry Requirements

This programme is a level 8 programme for graduates from cognate level 7 degree programmes, or equivalent. Similarly, learners with experience may apply for exemptions/entry through the RPL process. Applicants must have a background in building design and construction-related programmes.

It also includes engagement with the local community and industry, attendances at seminars and CPDs arranged by specialist and professional practitioners, as well as undertaking fieldtrips relating to new research and development. Classes are delivered using a Hybrid delivery method with classes being recorded and available for learners to catch up and review outside of timetables classes.

Certificate in

Entrepreneurship and Project Management (Built Environment)

About the Course

The Certificate in Entrepreneurship and Project Management (Built Environment) is a three-module programme taught over one semester. The course is designed to introduce and explore the concepts of entrepreneurship, project management in relation to the built environment along with planning and building control.

Begin the journey of understanding the role and various tasks of a project manager within the context of the building industry; explore your entrepreneurial aspirations by researching into the theories; equip yourself with the knowledge of the legal requirements relevant to the built environment.

Upon completion of the Certificate, students can progress directly into the final three modules of the Diploma in Entrepreneurship and Project Management (Built Environment).

The construction sector is a major part of the recovering Irish economy and project management is considering one of the most important skills in today's global economy. Within the industry there is an awareness of the requirement to develop new approaches and technologies, raise consciousness of the issues and up/re-skill the profession in these areas. Similarly, the course content is enriched by active engagement and collaboration with the construction sector. This helps to reveal current opportunities and future trends in relevant employment sectors.

Certificate in

Entrepreneurship (Built Environment)

About the Course

The Certificate in Entrepreneurship (Built Environment) consists of two modules taught over two semesters. This award will enable students to develop an entrepreneurial mindset that will increase their value to potential employers or help them plan ventures of their own. Graduates possess the necessary skills to successfully execute and professionally manage projects from start to finish. This course provides awareness and a basic understanding of the legal issues frequently encountered by entrepreneurs, such as issues around financing, operations of a company, ownership structuring, the raising of capital, federal securities requirements and exemptions, determining valuation, intellectual property, board formation, human resources, and exit strategies. The course is managed by Griffith's long-standing Design Faculty and is delivered by experts from the industry. The combination of online and on-campus lectures allows for minimal disruption to the normal working day.

Certificate in

Project Management (Built Environment)

About the Course

The Certificate in Project Management (Built Environment) consists of two project management modules taught over two semesters. This award will enable students to understand the role and various tasks of a project manager, and to apply a range of project management techniques in a project within the context of the building industry. Develop skills in leadership while learning to fully appreciate the challenges that organisations face in the dynamic, changing construction industry. Effective project management skills ensure that teams are motivated, valued to optimise their performances. Skills are also developed in project management processes which ensures realistic expectations are set in relation to time, cost, quality and client requirement, along with ensuring all deliverables are correct. The course content is enriched by active engagement and collaboration with the construction sector. This helps to reveal current opportunities and future trends in relevant employment sectors.

Diploma in

Conservation, Sustainability and Adaptive Reuse

DUBLIN

About the Course

The Diploma in Conservation, Sustainability and Adaptive Reuse programme is designed to introduce and explore the concepts and practices of conservation, sustainability, adaptive reuse, planning and building control, and professional practice management. The programme aims to enable the learner to engage in innovative and creative technical design case studies within these disciplines.

Increase your awareness in the need for environmental sustainability across all areas of design and architecture. This programme will equip learners with simple, immediate measures that can be adopted to reduce the environmental impact of their practice along with encouraging the generation of innovative and creative solutions while redesigning the existing built environment.

The construction sector is a major part of the recovering Irish economy and project management is considering one of the most important skills in today's global economy. Within the industry there is an awareness of the requirement to develop new approaches and technologies, raise consciousness of the issues and up/re-skill the profession in these areas. Certificate in

Conservation, Sustainability and Adaptive Reuse

DUBLIN

About the Course

The Certificate in Conservation, Sustainability and Adaptive Reuse is a Special Purpose award that aims to give student an introduction into the practices of conservation, sustainability along with planning and building control in the built environment.

These three modules taken over one semester will equip students with the understanding that they can make informed decisions concerning the most current conservation strategies for projects; that sustainability is now considered to be a necessary element within the built environment; and understanding the role and responsibilities within legal frameworks in regulating the built environment.

The construction sector is a major part of the recovering Irish economy and project management is considering one of the most important skills in today's global economy. Within the industry there is an awareness of the requirement to develop new approaches and technologies, raise consciousness of the issues and up/re-skill the profession in these areas. Similarly, the course content is enriched by active engagement and collaboration with the construction sector. This helps to reveal current opportunities and future trends in relevant employment sectors.

Upon completion of this programme, the learner can gain entry into the Diploma in Conservation, Sustainability and Adaptive Reuse with exemptions.

Best Bits of Griffith Pharmaceutical Science

The Griffith Innopharma faculty of Pharmaceutical Science is Ireland's leading, industry-linked education programme, suited to any learner seeking to start or grow a career in the pharmaceutical industry.

1

All Griffith Innopharma programmes lead to accredited awards with each programme providing strong scientific content, practical application, business context and professional development.

4 Ireland is recognised globally as a leading centre for clinical research and pharmaceutical development. Many leading contract research organisations (CROs) have significant operations here in Ireland, and thousands are employed in the provision of clinical trial expertise.

3

“ I completed the BA Honour Degree in Pharmaceutical Business Operations. I already work for the pharmaceutical industry. I am a Master Data Analyst at Allergan. For me, it was incredible, in terms of the technology available to do the class online ”

Valter da Silva, BA in Pharmaceutical Business Operations Graduate.

Innopharma Education works at the forefront of high-tech manufacturing, advancing skills and capabilities across the pharmaceutical, food science and medtech industries. Our approach to education is designed to fit with those who are working full-time, with part time lectures and a comprehensive online offering, helping people to study as they work and achieve their long term career goals.

Innopharma Education has grown to become one of the top institutions in Ireland delivering world recognised qualifications up to Masters' degree level. All our education programmes are developed with your career advancement in mind, consisting of a unique blend of industry focused modules and practical workshops.

Many of our lecturers have extensive experience in industry and engage in a high level of coaching and mentoring with learners. Innopharma Education programmes, are the number one choice for graduates and experienced professionals seeking to upskill and advance their careers in the pharmaceutical, medtech and food science sectors.

Griffith Innopharma Faculty of Pharmaceutical Science

BA(Hons) in Pharmaceutical Business Operations

About the Course

With extensive input and participation from professionals working in the pharmaceutical and clinical trial sectors, this programme will give you the skills advantage you need for a rewarding high-tech manufacturing role in the industry.

All classes are broadcast live using an online training platform, offering the learners the opportunity to either physically attend or join the class online. All classes are recorded also allowing learners the opportunity to view later and support revision.

A substantial focus of the programme will also develop the professional skills of the graduate to enhance their career opportunities through development of their CV's, interview skills, and their networking, presentation and communication skills.

Progression

The options for further study upon successful completion of this programme could include progression to the following Master's programmes,

- MSc in Pharmaceutical Business & Technology
- PGDip in Medical Device Technology & Business

Why Griffith College?

Smaller classes guarantee individualised attention

 Only college offering an Industrial Engineering Degree in Ireland

Excellent reputation

Delivered in Dublin and Limerick campus

Industry Recognition

This programme was developed by IISE (Institute of Industrial and Systems Engineering) with Griffith College. There was extensive research into the requirements for Industrial Engineering within the industry. It was also developed with some of our partners in the Industry (Intel, ESB, Syker, Amazon and others).

“ This degree is designed to prepare learners for a functional industrial engineering role. To facilitate making the best use of resources, they will be equipped to systematically record and critically examine existing and proposed methods of performing work and to make decisions concerning the best use of people, material, equipment and energy in achieving organizational goals. These are critical skills, especially where resources are scarce. In summary this degree is designed to equip engineers with key skills that will allow them to improve the efficiency, productivity and profitability of their organisations.

Jim O'Sullivan
President of IISE

Bachelor of Engineering in Industrial Engineering (B.Eng.IE)

Module Content

- Industrial Engineering Principles and Work System Design
- Data Analytics
- Lean Systems
- Industrial Engineering Project Management
- Professional Practice
- Industrial Engineering Finances
- Emerging Technologies and Quality Systems
- Logistics and Supply Chain Management
- Environment and Sustainability
- Industrial Engineering Project

Entry Requirements

Applicants must fulfil one of the following:

- 120 ECTS in Engineering discipline and related STEM studies
- Full completion of craft apprenticeship
- Extensive Industry experience and relevant achievements.

Progression

Graduates of the may be considered eligible to join related Level 8 programmes, such as Engineering and Business, depending on their particular combination of qualifications, experience and suitability.

Careers

Graduates of the B.Eng. in Industrial Engineering will have a good basis for professional progression in all areas of management including engineering. There is currently a need for skilled industrial engineers across all industries, such as manufacturing (traditional and modern), banking, transportation, consultancy, distribution services, the health sector, military and other areas of government.

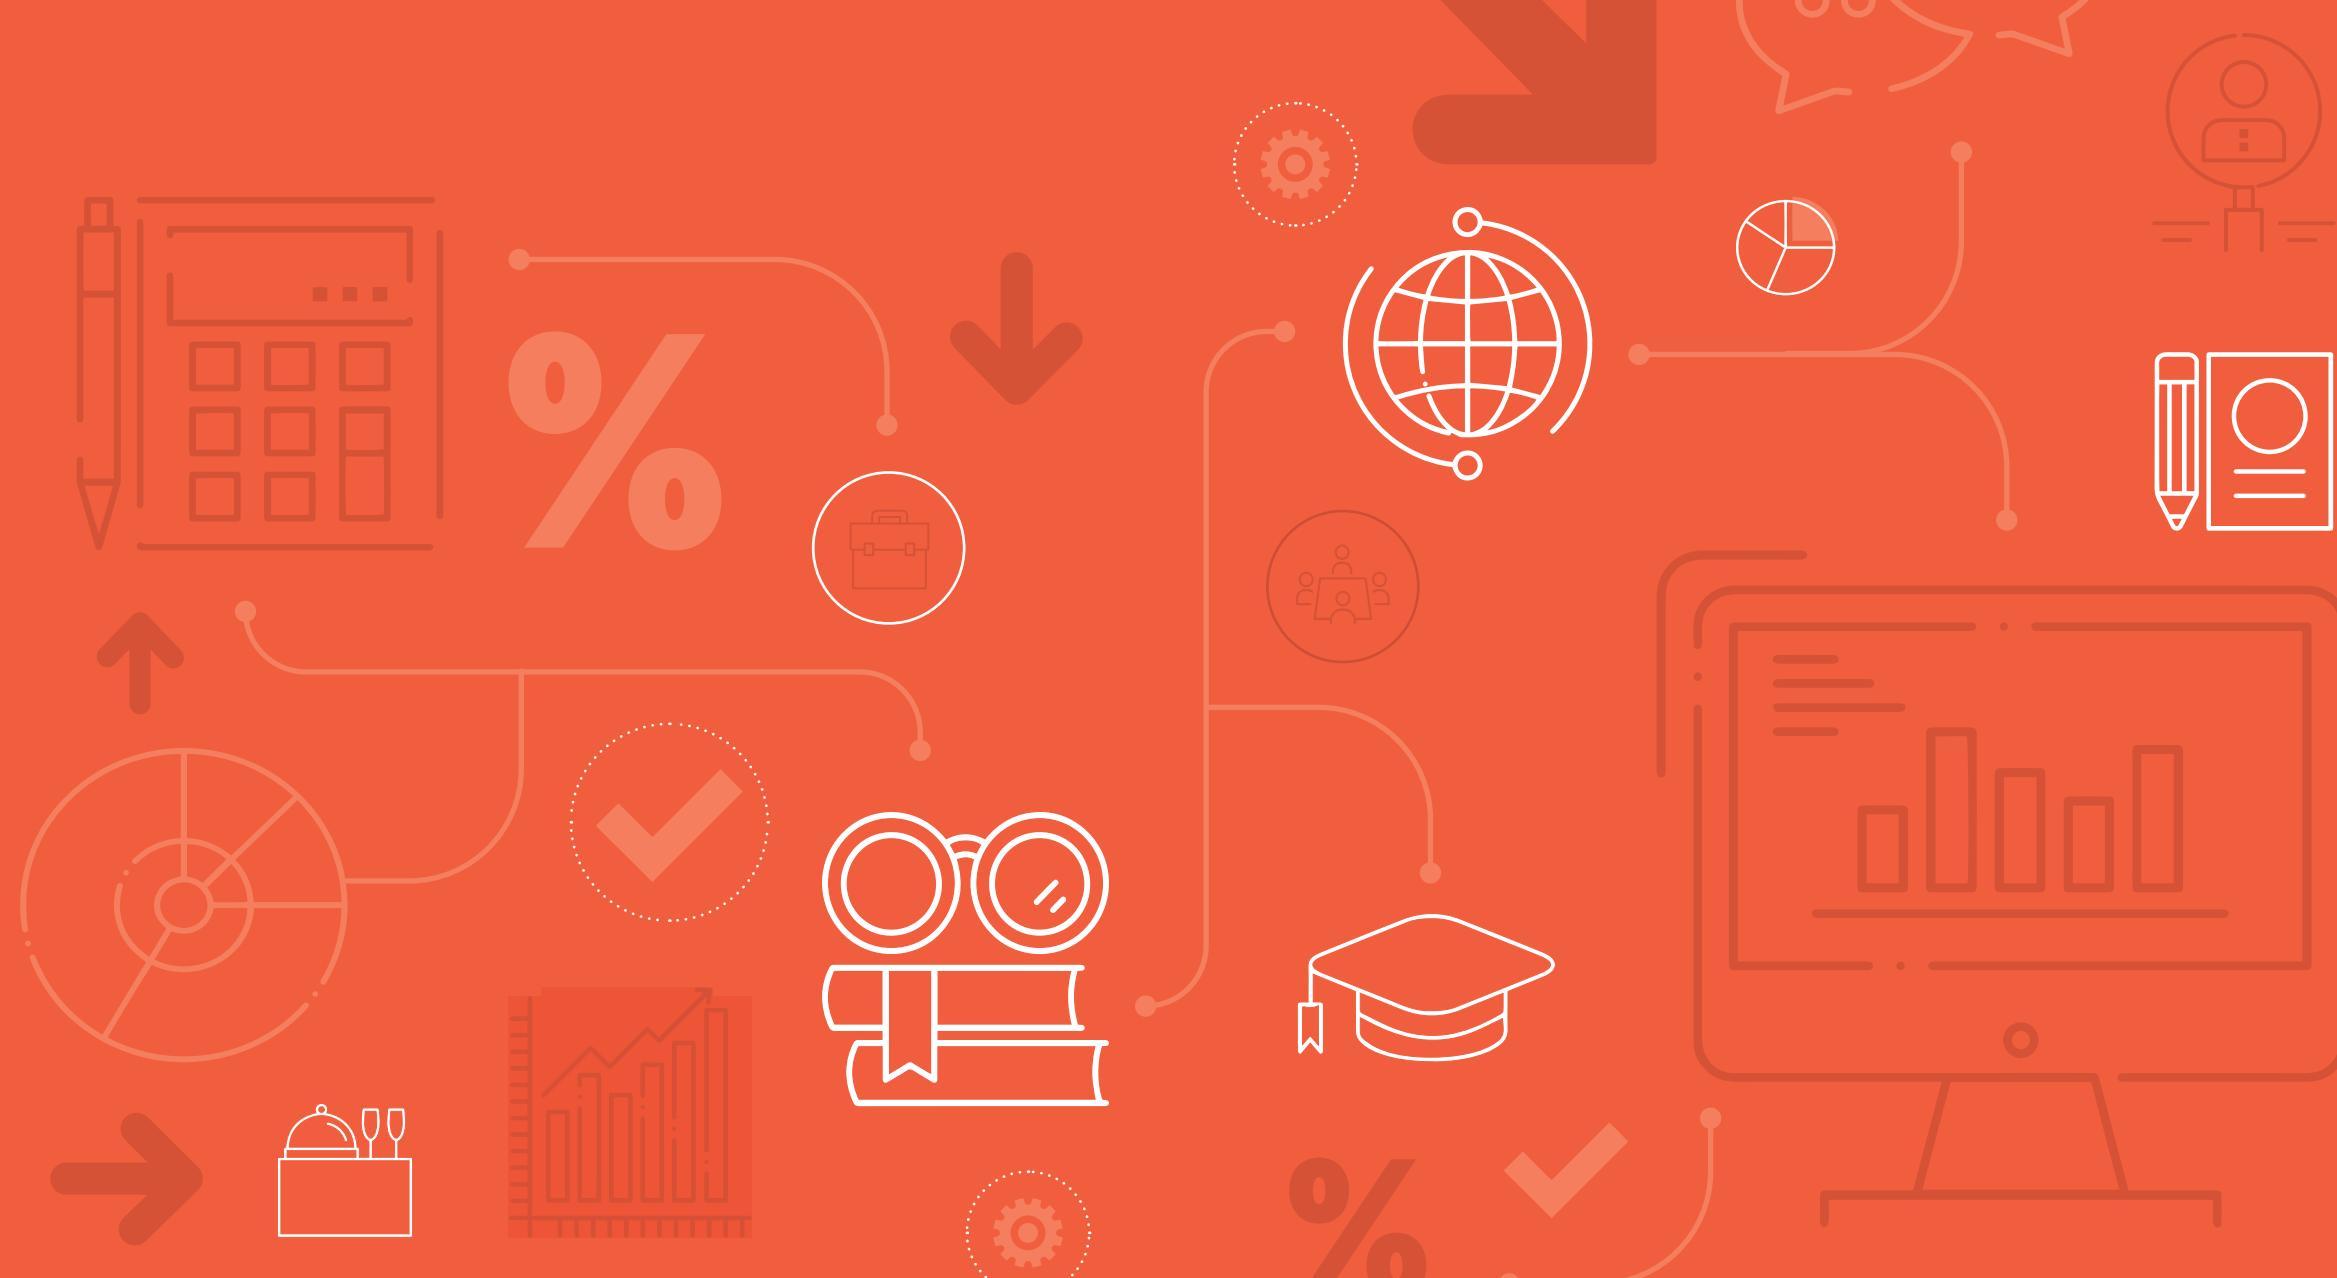

“ This course transformed my career and my learning potential immediately upon completion. I started with the Level 6 in Limerick and progressed onto the Level 7. It was offered in a work friendly schedule that facilitated a work life balance. Griffith College was a great place to study and the lecturers had substantial practical expertise.

Flexible Study and Extensive Support

A flexible study model gives learners the option of either full-time or part-time study with class size, structure and assessment tailored to each individual module. All our MSc's include an option for learners to exit with a Postgraduate Diploma. The Graduate Business School operates an open door policy and students feel comfortable approaching the team directly. Thanks to our investment in online learning, Griffith College adapted an interactive hybrid learning model. We provide a range of resources and tools to ensure our learners are supported in using these digital learning platforms.

1

Practical Industry Links

A highly practical learning approach taught by a Graduate Business School lecturing team with outstanding industry experience. Many assignments will require working directly with real client companies and engaging with industry leaders. The extensive education offered within the variety of courses available at the Graduate Business School has seen some of our most recent graduates go on to receive positions in major multinational companies including Accenture, PayPal, FedEx, Unilever, and WebSummit to name a few. Plug into the Griffith Alumni Network to connect with and receive mentoring from our successful past students or avail of the many opportunities arising from our Industry Network seminars and guest speakers.

International Diversity

Complete your international business postgraduate education immersed in a truly diverse cultural environment. The Graduate Business School welcomes learners from all over the world with over thirty different nationalities graduating in any academic year. Our group work policy ensures teamwork exposes you to a rich mix of backgrounds, experience and skill sets.

2

Accreditation of Prior Learning Experience (APL/APEL)

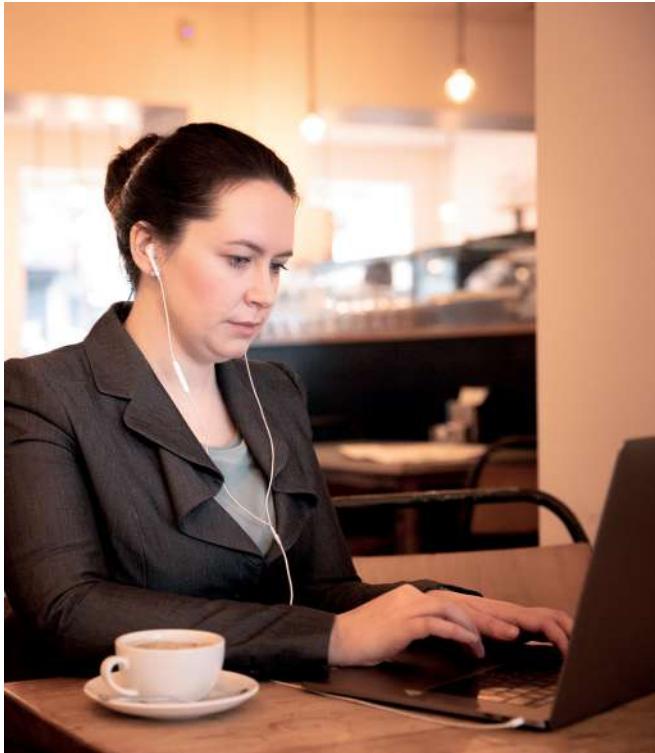

Opportunity for learners with previous academic studies at Masters level in a Business/Management discipline to apply for APL exemption to a maximum of 30 ECTS.

GRIFFITH COLLEGE
GRADUATE BUSINESS SCHOOL

“ I was looking for a course for six years, when I found the MSc in Global Brand Management, I felt it was exactly what I wanted because it incorporated; marketing, branding and international business into one master’s course. ”

Lina María Jiménez Ángel
MSc Global Brand Management Graduate

About the Course

The MSc in International Business Management is ideal for those who have a strong interest in international business management across a variety of industries and business settings, who wish to develop a wide range of skills and competencies required to function effectively when doing business across borders. Learners hone personal and interpersonal skills while deepening specialised knowledge to gauge and judge the potential impact of relevant global influences and drivers, whether it be technological, economic or political changes within international business practices. The programme is completed over a one-year full time, or two-year part-time mode. Learners will advance their research and business communication skills, and make a significant contribution to a chosen field of international business through the completion of a research dissertation.

Careers

The Graduate Business School lecturing team includes practitioners from a wide range of industries. These lecturers bring their expertise to the classroom and offer insights to learners of a practical and applied nature. There is also extensive use of the Faculty's industry network to provide opportunities for learners to engage with companies through their project work, research and through guest lecturing seminars. Evidence of employment opportunities from the programme is reflected in the industry positions filled by the Faculty's recent graduates and the positive responses from employers.

Progression

Graduates who attain appropriate management experience after graduation can return to obtain an MBA award. This is facilitated through the completion of an experiential learning report. Graduates may also consider furthering their research credentials

Apply direct: www.griffith.ie

by undertaking a Doctor of Philosophy (PhD) in their respective chosen area of research.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H2:2 level, in a business-related discipline or equivalent qualification from an approved tertiary/or professional institution. Non-business graduates or candidates with substantial work experience may apply but will be subject to interview.

Course Content**Core Modules**

- Global Marketing
- Financial Management
- Digital Transformation
- Corporate Governance and Sustainable Business

**Management**

- International Human Resource Strategies
- International Strategy
- Business Research Methods
- Leadership in Organisations
- Entrepreneurial Innovation

Elective Modules [choose one]

- Brand Analytics
- Sustainability and Marketing Ethics
- Business Economics
- Sustainable Finance

Upon successful completion of the taught modules, learners complete a dissertation with a credit volume of 30 ECTS. There are two options within the dissertation: A traditional dissertation which involves a supervised research project around a chosen topic. The dissertation by practice is a process whereby learners enhance their knowledge, research and business communication skills through a supervised project, on behalf of, and in conjunction with, industry.

I decided to study with Griffith College because of the friendly, supportive culture. The course structure was interesting and challenged me academically. I learned a lot of practical skills in the course thanks to industry-focused lecturers.

Michael Oshagbemi
MSc International Management Graduate

“ ”

About the Course

This programme is designed for managers who wish to consolidate their learning from the workplace with an award that reflects knowledge and skills in international business across a variety of industries and business settings. The programme deepens your knowledge and understanding of key areas of management through engagement with complex issues and critical and analytical approaches to international management theory and practice. Learners complete advanced research of direct relevance to their organisation and/or professional career path through the execution of a dissertation that reflects an expansion of personal management competencies and contribution to a chosen field of enquiry. Through integrating postgraduate studies with your experiential learning, successful participants will gain critical analysis and self-reflection skills required for leadership in international organisations and embrace the importance of lifelong learning.

Careers

An MBA is a mark of achievement; it shows the world you have insights into a range of business areas. A Griffith MBA expands your ability to advance your career and earning potential by guiding the participants through complex international business scenarios and focusing on drawing information together to extract strategic and policy implications. Students gain valuable experience through industry-based learning opportunities, necessary to thrive in the competitive global business world.

Progression

As well as management employment opportunities graduates may also consider furthering their research credentials by undertaking a Doctor of Philosophy (PhD) in their respective chosen area of research.

About the Course

The Masters programme provides advanced study of global brand management, enabling learners to develop specialist knowledge of the challenging multi-functional and diverse global brand environment in which organisations must operate, while also enabling them to extend their management competencies and research skills. The MSc offers learners a dynamic and practical programme that is highly industry focused. Throughout the programme, learners will consider many case studies of global brand expansion and examine best practice methods by studying global brand successes and fails. Learners are given a thorough grounding in current theoretical brand management concepts, marketing models, and tools, as well as new ways of analysing, assessing and developing brand strategies, campaigns and insights. Workshops will focus on skills of the global brand manager including storyboarding, content production, developing a global brand name, logos and positioning, selecting markets, storytelling and marketing channels and measuring the effectiveness of those channels. An emphasis is placed on understanding global branding best practice through critical evaluation of cases and companies. A combination of the critical analytical approach and a practical skill-based workshop approach will provide learners with a 360 understanding of global branding in today's changing digital landscape.

Careers

This programme is designed for learners who are striving to become influential in senior management teams by paving a path to become innovative thinkers in communications, brand, product or sales roles they take up post-graduation. - Psychology of Consumer Behaviour

Upon successful completion of the taught modules, learners can exit the programme at this point and obtain a Postgraduate Diploma in Sustainable Tourism and Hospitality Management. If learners wish to complete the MSc (stage 2) they are required to complete a dissertation/dissertation by practice with a credit volume of 30 ects.

Progression

Graduates who attain appropriate management experience after graduation can return to obtain an MBA award. This is facilitated through the completion of an experiential learning report which marries the graduate's academic achievement with their subsequent management practice.

About the Course

The MSc in International Business and Law enables learners to develop a solid grounding in the twin disciplines of international business and law. Taught by experienced practitioners and research staff in both the Graduate Business School and the Law Faculty, the programme is designed for holders of an undergraduate business or law degree. For the business graduate, it offers the opportunity to gain the understanding necessary to fully participate in complex legal transactions and to anticipate and manage legal issues as they arise in the international business arena. For the law graduate, it provides the basis for the acquisition and development of business acumen and to fully appreciate the influence that trade and international law issues have on management decision making and operations. Learners will advance their research and business communication skills, and make a significant contribution to a chosen field of international business through the completion of a research dissertation.

The programme is available on a full-time basis over a one year period respectively and combines the core operational and organisational aspects of international business management with advanced theoretical and practical legal knowledge.

Careers

Upon graduation, learners will be able to apply the core techniques and principles they have acquired in the field of international business management, and they will have a wider understanding of the legal issues which impact on the world of international business. By combining both management and legal studies, graduates are uniquely placed to engage with the often-complex relationship between business, social change and legal environments.

Course Content**Core Modules**

- Corporate Governance
- International Commercial Law
- Financial Management
- International Strategy
- Business Research Methods
- Professional Services Management
- Risk Management for Compliance
- Dissertation or Dissertation by Practice

Law Electives (learners choose one):

- International Tax Law
- International Commercial Arbitration
- International Privacy and Data Protection
- International Intellectual Property Law
- International Financial Services Law

Business Electives (learners choose one):

- Global Marketing
- Sustainable Finance
- Digital Transformation
- Leadership in Organisations
- Business Economics

Upon successful completion of the taught modules, learners complete a dissertation with a credit volume of 30 ECTS.

Progression

Graduates who attain appropriate management experience after graduation can return to obtain an MBA award. This is facilitated through the completion of an experiential learning report which marries the graduate's academic achievement with their subsequent management practice.

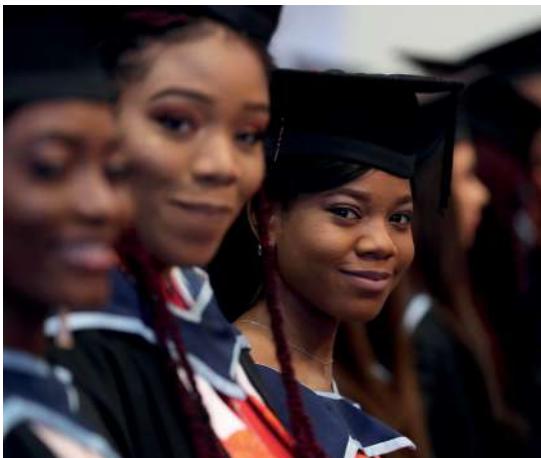

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in either business or law or equivalent qualification from an approved tertiary/or professional institution. Other candidates with substantial work experience may apply but via the College APEL policy.

MSc in Accounting and Finance Management

“ From my own personal perspective, one of Griffith College's biggest assets is its lecturers. Each lecturer has experience in the field in which they teach, allowing them to apply their knowledge from real-world examples to the academic material, which is then transferred to the students among the class.

James Collier
MSc in International Business Management Graduate

About the Course

The course is designed and delivered by a decorated team of accounting, finance and legal industry and practice professionals and full-time academics. It aims to enable learners to acquire the knowledge, skills and competencies required to apply an extensive range of laws, regulations and professional frameworks and standards, accounting and finance management theories, concepts, practices, tools and techniques, and modern technology, to prepare and interpret reports for internal and external stakeholders, and recommend compliant, best practice and ethical solutions for a range of organisational financial and reporting requirements.

The programme comprises eight mandatory and two elective choice modules that, when successfully completed, mean graduates are work-ready for a career in accounting, finance, tax, audit and general business, and who have the postgraduate intellectual depth and the practical skills needed for success.

The programme is informed and recognised by industry and professional accountancy body requirements and academically framed, balancing the acquisition of a postgraduate level theoretical understanding of the function and role of accounting and finance in the modern society and a data driven economy, with the acquisition of the practical and technical skills required to succeed in that industry.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in either business or law or equivalent qualification from an approved tertiary/ or professional institution. Other candidates with substantial work experience may apply but will be subject to interview.

Apply direct: www.griffith.ie
Course duration: **Full-Time 1 year**
Part-Time 2 years
Award Level: **Level 9**
Validated by: **QQI**

Progression

On successful completion of the programme, learners are eligible to gain exemptions from the examinations of the professional accounting bodies such as ACCA. Please contact the faculty for further details.

Careers

The programme ensures that learners are at an advanced stage of preparation for a career in professional accounting and finance roles.

Course Content

Core Modules

- Financial Reporting
- Strategic Financial Management
- Law & Governance
- Financial Data Analysis
- Strategic Performance Management
- Business Research Methods
- Business Consultancy
- Strategic Corporate Reporting

Electives (Choose 2)

- Advanced Audit & Assurance
- Taxation
- Sustainable Finance
- Quantitative Finance
- Digital Transformation
- Leadership in Organisations

About the Course

The MSc in Procurement and Supply Management is a flexible postgraduate programme aimed at both professionals and full-time learners. It delivers the specialist skills required for successful careers in the procurement/purchasing and supply management fields across a broad range of industries. Learners develop proficiency in procurement and supply management while also ensuring they have a solid grounding in other critical business functions. This ensures that the learners develop into well-rounded business professionals with interpersonal skills and business acumen to communicate effectively inside as well as outside the fields of procurement and supply management.

In addition to developing practical business skills, this programme also ensures that learners have a comprehensive understanding of the global procurement and supply environment combined with strong cultural sensitivity. The teaching and assessment approach used requires learners to develop their leadership and interpersonal skills. This approach is reflective of the necessary skills required in today's industries, which focus on the delivery of procurement and supply management services.

Entry Requirements

Applicants must normally hold an approved honours degree, to at least H22 level, in business, or equivalent qualification from an approved tertiary/ or professional institution. Other candidates with substantial work experience may apply but will be subject to interview.

Apply direct: www.griffith.ie
 Course duration: **Full-Time 1 year**
Part-Time 2 years
 Award Level: **Level 9**
 Validated by: **QQI**

Course Content**Core Modules**

- Sustainable Procurement
- Supply Chain Management
- Circular Economy
- Sustainable Finance
- Technology for Procurement Professionals
- Business Research Methods
- Fostering Sustainable Practice
- Business Negotiations
- Leadership in Organisations

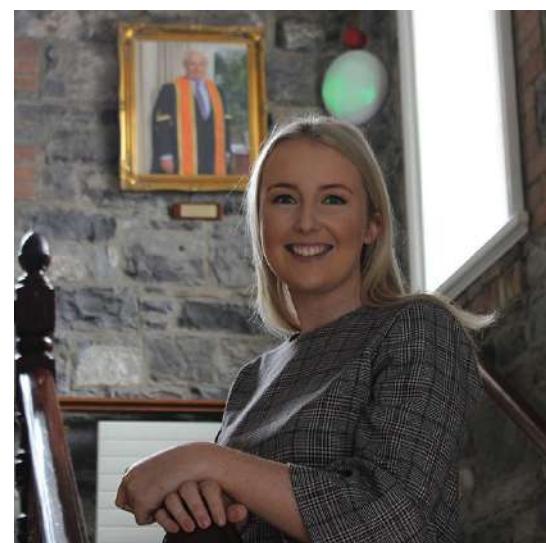

Electives

- Logistics and International Trade (E)
- Sustainable SME's: Building Resilience and Compliance (E)

Upon successful completion of the taught modules, learners complete a dissertation with a credit volume of 30 ECTS.

Careers

Upon successful completion of the taught modules, learners can exit the programme at this point and obtain a Postgraduate Diploma in Procurement and Supply Chain Management . If learners wish to complete the MSc (stage 2) they are required to complete a dissertation/dissertation by practice with a credit volume of 30 ECTS.

**About the Course**

The Master of Science in International Pharmaceutical Business Management programme, QQI Level 9 on the National Framework of Qualifications, has been designed primarily for graduates with an honours undergraduate degree in either a pharmaceutical, science or business-related discipline. This internationally relevant programme is intended to prepare learners to become professionals working in the broad area of the international pharmaceutical industry, whether they are learners seeking to improve and upgrade their professional standing in, or new graduates seeking to direct their careers towards, this expanding pharmaceutical industry. Learners will master business development and launching activities, become experts in regional management, forecasting and budgeting while broadening their knowledge about marketing, technological developments, product release and regulatory affairs in the pharmaceutical industry.

Entry Requirements

Applicants are required to hold either:

1. Level 8 Honours Degree, 2.2H or higher, in Pharmacy, Science or equivalent discipline.
2. Level 8 Honours Degree, 2.2H or higher, in business or related discipline, with at least three years Pharmaceutical related industry experience.

Applicants who do not meet the academic entry requirements may apply to the College for consideration of their Accredited Prior Learning (APL) or Accredited Prior Experiential Learning (APEL) in accordance with Griffith College's APL/APEL procedures.

Apply direct: www.griffith.ie
 Course duration: **Full-Time 1 year**
Part-Time 2.5 years
 Award Level: **Level 9**
 Validated by: **QQI**

Course Content**Core Modules**

- Management Accounting and Control
- Leadership and Management Development
- International Strategy
- International Marketing Management
- Globalisation and Corporate Responsibility
- Business Research Methods
- Commercial and Financial Considerations in the Pharmaceutical Industry
- Quality & Regulatory Framework in the Pharmaceutical Industry
- Business & Technology Innovation in the Pharmaceutical Industry
- Marketing Management for Pharmaceutical Marketers

Upon successful completion of the taught modules, learners complete a dissertation with a credit volume of 30 ECTS.

Careers

Graduates of the Master of Science in International Pharmaceutical Business Management are well positioned to start, or advance, a highly attractive career in an expanding pharmaceutical industry both nationally and internationally. Graduates will have developed an in-depth knowledge and understanding of key areas of management including Accounting, Marketing, Strategy, Human Resources, Globalisation, Business Ethics, Business Research Methods and their inter-relationship with a focus on international pharmaceutical business.

Progression

Graduates of the Master of Science in International Pharmaceutical Business Management wishing to further develop their management competencies and experience will be eligible to transfer to the MBA stage of the existing suite of programmes in International Business.

Certificate in Quality and Regulatory Practice in the Pharma Industry

Course Details

This modular course aims to introduce learners to the quality systems and the regulatory framework that underpins biopharmaceutical product development from discovery through pre-clinical research, clinical trials, registration, and release in a manufacturing setting. The module includes a broad overview of pharmaceutical product life cycle management in a regulatory and legal environment – from discovery through development and commercialisation to patent expiry and post-market exclusivity.

The module focuses on pharmaceutical quality, quality improvement and risk management practices in good manufacturing practice (GMP) and supply. Learners will be asked to critically analyse the concepts of quality and quality assurance in the development, manufacture, and supply of medicines, along with evaluating the importance and impact of quality assurance systems.

Students will gain an understanding on the regulatory framework that underpins the product development in the pharmaceutical industry, from pre-clinical research, clinical trials, registration, and release, along with gaining an insight into the costs associated with poor quality. Learners will develop skills in how to handle issues that arise across the product development life-cycle and how to put strategies in place to mitigate against risks that may arise.

This micro-credential course is available part time, over one semester.

DUBLIN
CORK

Apply direct: www.griffith.ie
Course duration: **1 Semester**
Part time, blended
QQI Level 9 (5 ECTS)
Special Purpose
Validated by: **QQI**

Entry Requirements

Candidates seeking access to Fundamentals of Quality and Regulatory Practice in the Pharmaceutical Industry module are required to hold either:

1. A Level 8 Honours Degree, 2.2H or higher, in Pharmacy, Science or equivalent discipline.
2. A Level 8 Honours Degree, 2.2H or higher, in business or related discipline, with at least three years Pharmaceutical related industry experience.

Progression

- MSc in International Pharmaceutical Business Management
- Postgraduate Diploma in International Pharmaceutical Business Management

Certificate in Advanced Taxation

Course Details

This Certificate in Advanced Taxation programme is proposed to meet the needs of accountants, operating within an increasingly complex national and international tax environment, in both industry and practice. The proposed programme draws on modules from the highly-regarded MSc in Accounting and Finance Management.

The Certificate programme will include extensive industry collaboration through guest speakers, module design and assessment. The module assessment strategies include the involvement of real client companies and individuals, whereby learners work on a variety of projects including tax advice clinics and final reports and presentations that address live taxation issues, both at micro and macro levels.

The programme offers both deep knowledge and application across a broad range of taxation issues, for Irish tax frameworks and international considerations. It combines research and consultancy to provide learners with a highly specialised and sought after range of skills and competencies. From employer perspectives, it meets the tax needs for both industry and practice, including multinationals.

The programme utilises a highly practical learning approach taught by a lecturing team with outstanding industry experience. Development of both technical and legal know-how in taxation are augmented by the development of a wider strategic management mind-set.

Apply direct: www.griffith.ie
Course duration: **1 Semester**
Part time, blended
QQI Level 9 (25 ECTS)
Special Purpose
Validated by: **QQI**

Entry Requirements

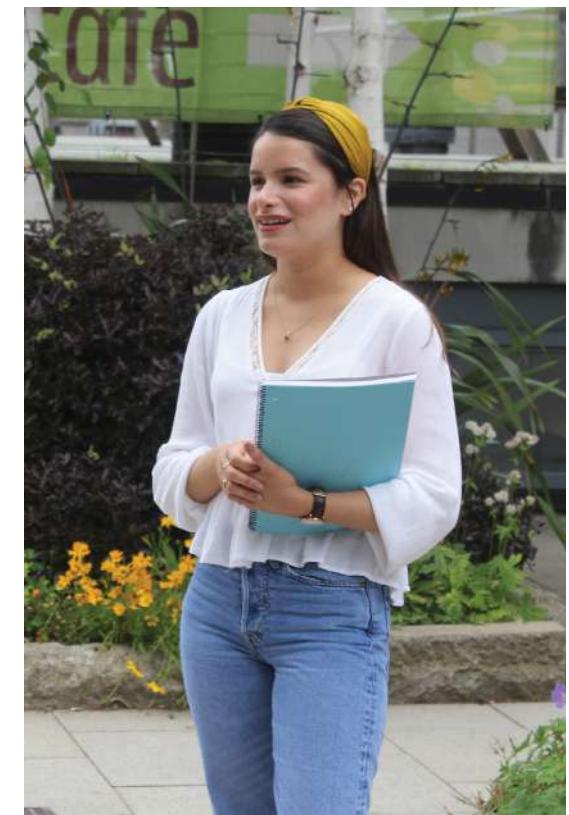

Applicants are required to hold an approved honours degree of at least a H22 standard in an accounting/finance related field or equivalent qualification from an approved tertiary or professional institution.

Progression

Those who successfully complete the Certificate in Taxation may progress into the MSc or Postgraduate Diploma in Accounting and Finance Management with exemptions.

Modules

MODULES	ECTS
Taxation (IRL)	5 ECTS
International Tax Law	10 ECTS
Business Consulting	10 ECTS

“ My time an LL.M. student in the faculty of law at Griffith College has been one of the most fulfilling periods of my academic journey. The staff at are knowledgeable and approachable, and the small class sizes facilitate a tailored learning experience for me. The diversity within the student community provides an opportunity to broaden one’s horizons beyond the academic curriculum, and I am certain that the connections I have made during my studies will be invaluable in my personal and career development. I can confidently say that I made the right choice by studying at Griffith! ”

Gywaimen Kassim
LL.M. in International Law

Courses

LL.M. in International Law

LL.M. in International Commercial Law

LL.M. in International Human Rights Law

MA in International Law

LL.M. in International Law

LL.M. in International Commercial Law

LL.M. in International Human Rights Law

LL.M. in International Criminal Law

About the Course

The LL.M. (Master of Laws) is an internationally recognised postgraduate law degree. It is obtained by completing either a one- year full-time programme, daytime or over 2 years part-time daytime classes. There are four LL.M. Programmes on offer at Griffith College, all of which are international in focus - a key advantage in today's globalised legal landscape. Learners may tailor their degrees to suit their interests. Through their subject choice, they will emerge with a Master's in international Commercial Law, International Human Rights Law, International Law or Criminal Justice.

Careers

Successful completion of the LL.M. can open up promotion opportunities in existing employment. Completing an LL.M provides learners with the skills required to work as a researcher or legal advisor with governmental departments, NGOs or businesses. Existing legal practitioners can use their LL.M. to specialise in an area of interest.

Progression

On completion of the Postgraduate Diploma, graduates may progress to PhD studies. Graduates of this programme also have the option to continue their studies at Griffith College on one of our professional courses.

MSc / Postgraduate Diploma in Computing Science

About the Course

Computing Science plays an exciting and ever-increasing role in today's society. Technological innovation has been one of the driving forces behind Ireland's rapid economic growth, and this Masters programme will help you to advance that innovation. The programme extends your education and skills and prepares you for an active role in a dynamic and evolving industry. The MSc degree has been designed to give learners an insight into the world of academic and industrial computing research.

By focusing on today's hot topics, learners will have the opportunity to gain a deeper understanding and develop the skills necessary to carry out innovative work within one of the disciplines of computing. Learners who complete this Master's degree will gain the ability to research and master technical issues, to analyse and present findings coherently, and to document their work in a professional manner.

Careers

Through the MSc in Computing, graduates will have gained valuable professional experience, specialised in a key emerging field and developed many technical skills. There is a wide range of career options for our graduates, including Technical Applications Developer, Software Developer, Software Engineer, Operations Analyst, SQL & EAI Developers, Agile Developer, Scrum Master, and IT Operations Manager to list a few.

Entry Requirements

Candidates applying for this programme should have a 2.2 Level 8 honours degree in Computing Science, or a 2.2 Higher Diploma in Computing or related discipline or international equivalent and/or relevant work experience.

Programme Delivery

The programme runs full-time over one year with two semesters and an August dissertation submission.

MSc / Postgraduate Diploma in Big Data Management and Analytics

About the Course

Designed specifically to address a growing need in the industry, the MSc in Big Data Management and Analytics at Griffith College is a one-year programme which aims to build upon learners knowledge of computing science and create big data specialists. This specialist Level 9 programme aims to equip learners with the necessary skills and analytic mindset to pursue a career in a dynamic data analytics industry.

The aim of the programme is to deepen the learners' knowledge of supporting topics such as statistical analysis, including an in-depth understanding of the appropriateness of particular analytic models for a given task, data gathering, and Big Data algorithm design, to name a few. Graduates will be able to implement robust, scalable Big Data applications.

Careers

Through the MSc in Big Data Management and Analytics, graduates will have gained valuable professional experience, specialised in a key emerging field and developed many technical skills. There is a wide range of career options for our graduates including, Data Analyst, Business Intelligence Analyst, Big Data Solutions Lead Engineer, Technical Product Manager, Big Data Architect, Data Analytics Consultant, Video Analytics and Data Scientist, Data Science Expert, Multimedia Systems Developer, IT Operations Manager to list a few.

Entry Requirements

Candidates applying for this programme should have a 2.2 Level 8 honours degree in Computing Science, or a 2.2 Higher Diploma in Computing or related discipline or international equivalent and/or relevant work experience.

Programme Delivery

The programme runs full-time over one year with two semesters and an August dissertation submission. The part-time programme is delivered over four semesters in two years.

MSc / Postgraduate Diploma in Network and Information Security

LIMERICK

About the Course

This MSc in Network and Information Security aims to equip learners with the necessary skills to pursue a career in this specialist area. Designed specifically to address a growing need in the industry, this Masters aims to enable learners to develop robust and efficient network security plans, strategies and solutions. Learners will establish an analytical mindset necessary for independent and professional research. Graduates of the programme will obtain specialist knowledge and skills essential for a career in network security.

Careers

Through the MSc in Network and Information Security, graduates will have gained valuable professional experience, specialised in a key emerging field and developed many technical skills. There is a wide range of career options for our graduates including Information Security Architect, Information Security Risk Lead, Cyber Security Manager, Computing Consultant, Business Intelligence Analyst, Information Security Engineering, Microsoft Solutions Engineer, Senior Software Engineer, Academic Research, Web Developer to list a few.

Entry Requirements

Candidates applying for this programme should have a 2.2 Level 8 honours degree in Computing Science, or a 2.2 Higher Diploma in Computing or related discipline or international equivalent and/or relevant work experience.

Programme Delivery

The programme runs full-time over one year with two semesters and an August dissertation submission. The part-time programme is delivered over four semesters in two years. September and February commencements are facilitated.

Progression

On completion of the programme, learners may progress onto a range of Level 10 Doctoral programmes on the National Qualifications Framework.

MSc / Postgraduate Diploma in Interactive Digital Media

DUBLIN

About the Course

In design and interactive development, a knowledge of creative media software applications is key to productivity and success. This programme teaches how to create interactive applications using digital technology and takes learners through the steps needed to produce high-standard, professional media work. Relevant professional applications are used by learners who learn by doing. In addition to practical work, learners have plenty of opportunity to study, discuss and critically evaluate the fundamental underlying principles. This programme is an interdisciplinary, cross-faculty programme which exploits established strengths of Griffith College in Computing, Media and Design. This programme will equip you with advanced skills and expertise in the development of, and content creation for, digital media systems. If you work in this field or wish to pursue a related career, it will enable you to sharpen your existing skills or help lay down the foundation skills to establish new businesses within this sector.

Careers

On completion of this programme, graduates will be qualified to work as designers and creative directors in a variety of cross-disciplinary industries. Other careers include UX/UI Designers, content/information managers, industrial and academic research, digital media systems developers, innovative media practitioners, and as entrepreneurs.

Entry Requirements

Candidates have a BA or BSc 2.2 award in computing, media, design or another related discipline. Candidates with relevant working experience without a 2.2 award are encouraged to apply for interview-based access through the college's APEL admissions process.

Apply direct: www.griffith.ie
Course duration: **Full-Time 1 year**
Part-Time 2 years
Award Level: **Level 9**
Validated by: **QCI**

Course Content

Learners on the MSc programme complete ten taught modules plus a dissertation; Postgraduate Diploma learners complete just ten modules.

SEMESTER ONE:

- Web Authoring
- Visual Communication
- Digital Media and Society
- Research Methods

SEMESTER TWO:

- Interaction Design
- Multimedia Programming
- Business of Digital Media
- Digital Media Platforms

ELECTIVE MODULES [choose two]

- Game Design and Development
- Theories and Principles of Animation
- Digital Storytelling
- 3D Modelling and Rendering
- Desktop Publishing
- Server-side Web Development and Databases
- eLearning
- Video Production

DISSERTATION SEMESTER:

Dissertation by practice (e.g. app, game, website development etc.)

Programme Delivery

Full-time students will complete the two taught stages over two semesters and will complete the dissertation by practice in an additional third semester. Part-time students will complete the two taught stages over three semesters and will complete the dissertation by practice in an additional fourth semester. September and February commencements are facilitated.

Progression

On completion of the programme, learners may progress onto a range of Level 10 Doctoral programmes on the National Qualifications Framework.

Higher Diploma in Science in Computing

About the Course

The programme is designed to meet the ongoing industry demand for computer professionals. While focusing on current and future growth areas in computing, this higher diploma programme bridges the gap between non-computing disciplines and Computing Science. Its specific aim is to provide rigorous and stimulating classes for learners who wish to acquire theoretical and practical training in computing and, particularly, in software development.

This programme is ideal for non-computing graduates who want to compete favourably against computing science graduates for the broad range of computing-related employment available.

Course Content

Learners on the Higher Diploma programme complete ten taught modules.

SEMESTER ONE:

- Computer Programming,
- Computer Architecture and Organisation
- Data Communications and Networks
- Discrete Mathematics
- Relational Databases

SEMESTER TWO:

- Programming and Data Structures,
- Object Oriented Development
- Operating System Design
- HCI and GUI Programming
- Software Engineering for Web Applications

DUBLIN

Entry Requirements

Candidates applying for this conversion programme should have a Level 8 Honours degree or above in any discipline or international equivalent and/or relevant work experience.

Programme Delivery

The programme runs full-time over one year with two semesters. The part-time programme is delivered over three semesters in two years. The Part-time, blended delivery option can be facilitated however, this is subject to numbers. September and February commencements are facilitated.

Progression

On successful completion of this diploma, graduates who obtain second class honours or higher are eligible to be considered for entry to all four Masters Computing programmes in Griffith College.

- Media Product Design & Professional Development
- Sports Journalism
- The Business of Media
- Video Storytelling

DISSERTATION SEMESTER:

Dissertation: traditional academic, or by practice (e.g. video or radio documentary, online magazine, book of photography, investigative article series, etc.)

Programme Delivery

The programme runs full-time over one year with two semesters and an August dissertation submission. It is also run part-time over four semesters in two years through 'blended learning' where learners can attend lectures live online or view lectures and related reading online at their convenience. September and February course commencements are facilitated.

MA / Postgraduate Diploma in Public Relations & Digital Communications

DUBLIN

About the Course

This programme is designed for those who wish to master the theory and application of the public relations skills and techniques required to succeed in a wide range of public relations employment settings, from PR agencies, to corporate, governmental and non-governmental organisations' in-house PR teams. Participants on the programme learn public relations and public affairs strategic communications, how to build relationships with decisionmakers, the strategic use of emerging communication technologies and how to leverage positive and negative news for clients while understanding journalists' thinking and requirements. An additional feature of this course is its grounding in the practical acquisition of digital communications production skills. Graduates of this MA come to employment selection processes equipped with a portfolio demonstrating both their high quality PR product and knowledge, as well as postgraduate-level production skills in enhanced digital journalism, podcasting, mobile video editing and social/digital content creation. This is a Public Relations Institute of Ireland (PRII) accredited course, entitling learners to membership.

Careers

Graduates' job titles include: digital communications officer, junior PR consultant, digital communications executive/manager, digital marketing and PR executive, marketing executive/manager, online advertising specialist, public policy and government relations director, senior social media executive/manager, account director/manager, communications officer/manager, content executive/manager, digital content producer, head of content and brand marketing.

Entry Requirements

Applicants are required to hold a minimum of an honours (NFQ level 8) BA primary degree with a

2.2 award, or equivalent. Candidates with working experience and without a 2.2 BA award are encouraged to apply for interview entry.

Course Content

Learners on the MA programme complete 11 taught modules plus a dissertation; Postgraduate Diploma learners complete just 11 modules.

SEMESTER ONE

- Mobile Video Production
- Multiplatform Writing & Editing
- Podcasting & Radio Production
- Public Relations Theory & Practice
- Research: Methods & Skills

SEMESTER TWO

- Communications & Audience Theories
- Corporate Communications
- Political Communications & Public Affairs
- Social/Digital Content Creation

ELECTIVE MODULES (choose two)

- International Political Economy
- Media Product Design & Professional Development
- Photojournalism
- Sports Journalism
- The Business of Media
- Video Storytelling

DISSERTATION SEMESTER:

Dissertation: traditional academic, or by practice (e.g.: PR strategy, podcast, video documentary, online magazine, etc.)

Programme Delivery

The programme runs full-time over one year with two semesters and an August dissertation submission. It is also run part-time over four semesters in two years through 'blended learning' where learners can attend lectures live online or view lectures and related reading online at their convenience. September and February course commencements are facilitated.

MA / Postgraduate Diploma in

Digital Communications: Podcasting & Video

DUBLIN

About the Course

This programme is designed for candidates seeking the industry-standard skills required to conceive, produce, upload and manage the production of podcasting, audio and video content while also acquiring a range of transferable, multiplatform digital communications media production skills in enhanced digital writing and content creation for social/digital channels. Programme graduates come to employment selection processes equipped with a portfolio demonstrating the quality of their audio and video media product, evidence of their relevant experience in audio and video recording studios, as well as transferable postgraduate research and writing skills for application across the digital communications sector. With 27 years of experience in the provision of industry-relevant postgraduate media communications programmes, the Faculty of Journalism & Media Communications at Griffith College has ensured that the design of this programme in Digital Communications: Podcasting & Video has been created with a dynamic mix of podcasting and video industry professionals working with full-time academics. All participants are entitled to apply for an NUJ Press Card.

Entry Requirements

Applicants are required to hold a minimum of an honours (NFQ level 8) BA primary degree with a 2.2 award, or equivalent. Candidates with working experience without a 2.2 BA award are encouraged to apply for interview.

Careers

Graduates' job titles include: producers and presenters, researchers and editors in podcasts, websites, radio and TV; video editor, video content editor, social media influencer, video content creator, digital content creator/manager; digital content writer/creator, video production manager, digital

content curator, advertising copywriter, video production assistant, media researcher and analyst, digital media trainer, freelance content creator.

Course Content

SEMESTER ONE

- Mobile Video Production
- Multiplatform Writing & Editing
- Podcasting & Radio Production
- Radio Studio Production
- Research: Methods & Skills
- Video Storytelling

SEMESTER TWO

- Communications & Audience Theories
- Radio Documentary & Advanced Podcasting Techniques
- Social/Digital Content Creation
- TV Studio Production

ELECTIVE MODULES (choose two)

- International Political Economy
- Media Product Design & Professional Development
- Photojournalism
- Sports Journalism
- The Business of Media
- Virtual Studio: Mastering & Delivery

DISSERTATION SEMESTER:

Dissertation: traditional academic, or by practice (e.g. video or radio documentary, podcast, book of photography, socials video content, etc.)

Programme Delivery

The programme runs full-time over one year, and also part-time over four semesters in two years. While some practical modules such as TV Studio require on-campus attendance over selected weekend blocs, the majority of the part-time course is delivered through live, online (and recorded) 'blended learning'. September and February course commencements are facilitated.

“ This course offers a wealth of knowledge in the television and radio realm. It also gives a great insight into journalism. So you have all of these aspects interlinked together which gives me confidence to go into the job market with such a strong set of skills that I've learned over the last year.

Éadaoin Fitzmaurice
MA in TV & Radio Journalism Graduate

“ It's a very good course. They focus mainly on preparing you for the industry. The facilities in Griffith are amazing, particularly the radio studio. The knowledge-base of the lecturers is also phenomenal and they gave us great insight into the PR side of the industry as many of them work in the industry currently.

Julianne Nwongo
MA in Journalism and Public Relations Graduate

About the Course

The MA in Scoring for Film, TV and Interactive Media is designed to nurture the development of strong, individual creative voices ready to contribute original music for feature and short film, television, interactive media including video games, AR and VR. Instruction in key skills and focused critical engagement form a solid foundation upon which the learner builds their distinctive creative praxis.

This programme imparts the core skills, workflows, techniques and tropes suitable to the creation and production of music for visual media. As part of this training, the programme aims to engender a firm understanding of business and legal issues associated with the role of visual media composer.

In addition, the MA provides learners with the necessary space, support, guidance and individual mentoring necessary to develop a recognisably personal compositional voice. Upon completion, graduates are industry-ready to operate as a self-employed entrepreneur, capable of responding dynamically to a fluid and complex arts sector.

Careers

Graduates are employed in the music industry or within education in the field of composition. A sample of recent graduates' job profiles include: self-employed composer for film, TV and interactive media; freelance arranger for visual media and concert projects; assistant to established visual media composer (additional composition / production); sound engineer / music producer for diverse music and audiovisual projects; score supervisor for large ensemble recording sessions; arts administrator / project manager.

Course Content

Learners on the MA programme complete ten taught modules plus a major project; Postgraduate Diploma learners complete just ten modules.

SEMESTER ONE:

- The Composer in the Recording Studio
- Music Production with the DAW
- Composition for Visual Media 1
- Analysis of Music in Audio-Visual Media
- Royalties, Copyright and Contracts

SEMESTER TWO:

- Sound for Virtual Environments
- Orchestration
- Project Development
- Composition for Visual Media 2
- Client Communication and Professional Practice

SEMESTER THREE:

Major Project: self-directed, creative practice-as-research with supervision on a regular basis (practical composition and written exegesis).

Entry Requirements

Candidates with a 2.2 award or higher in a honours primary degree in music, with a specialisation in composition, are considered for admission by interview. Candidates without an undergraduate music degree, but who can demonstrate an appropriate level of experience and expertise, are encouraged to apply for interview-based access through the College's APEL admissions process.

Programme Delivery

This programme runs full-time over one year comprising two taught semesters and a third semester devoted to a major project. Candidates are encouraged to contact the faculty to discuss our flexible, student-oriented timetabling designed to suit personal and professional requirements.

Postgraduate Diploma in

Arts in Trust, Safety and Content Moderation Management

DUBLIN

Course Details

The Postgraduate Diploma in Arts in Trust, Safety and Content Moderation Management is a one-year postgraduate NFQ level 9 award comprising nine integrated modules totalling 60 ECTS credits. The programme, taught over three semesters, provides comprehensive development enabling learners to master the complex technical, regulatory, ethical, social and management requirements of the evolving trust, safety, and content moderation industry. The programme is aimed at early-stage professionals working in a trust and safety or in a content moderation environment, who are migrating to management functions within the sector, or have an ambition to do so. The programme will deepen and broaden their existing skills with competencies in project management, appropriate deployment and operation of software packages, the application of regulation and compliance requirements, problem solving, communications, and critical thinking, with accredited transferrable proficiencies in these areas.

Ireland has emerged as an international headquarters for many of the world's largest internet companies, with several siting significant elements of their trust and safety operations here. In 2019, Accenture estimated that there were over 100,000 people moderating content globally, with those numbers expected to grow significantly amid calls for increased regulation of online content. It is estimated that approximately 10,000 people scrutinise YouTube and other Google products, and Twitter, a smaller company, has about 1,500 moderators. Ireland, as the international headquarters' location for many of the world's largest internet companies, is uniquely positioned to bolster this activity, and this programme aims to support the needs of this emerging trust and safety sector.

Apply direct: www.griffith.ie

Course duration: Part Time, blended

1 Year

Award Level: QQI level 9 (60 ECTS)

Validated by: QQI

Entry Requirements

Applicants are required to hold a minimum of an honours (NFQ level 8) primary degree with a 2.2 award, or equivalent. It is expected that applicants to this programme would be working in the broad online trust and safety and content moderation environment.

Course Delivery

The blended mode of delivery offers learners a more flexible learning environment and provides an opportunity for those living outside the greater Dublin area to study in Griffith College. This programme supports a split between online (20%) and classroom (80%) lectures and includes engagement with the local community and industry and attendances at seminars and CPDs arranged by specialist and professional practitioners as well as undertaking fieldtrips relating to new research and development.

Classes are delivered using a Hybrid delivery method with classes being recorded and available for learners to catch up and review outside of timetables classes.

Modules

- Data Processing Technologies
- Regulation and Compliance
- Cultural & Political Evolution of Social Media
- Applied Project Management for Trust and Safety Professionals
- Data Management Technologies
- Platform Standards and Ethics
- Self-Caring Practice in Occupational Contexts
- Communication & Thinking Skills
- Digital Investigations

Certificate in Arts in Software Skills for Trust and Safety Professionals

The Certificate in Software Skills for Trust and Safety Professionals is aimed at current trust and safety or content moderation professionals seeking to develop technology-specific software skills with a focus on data processing and management theory, tools, and techniques. This programme equips learners with the knowledge and understanding of the technologies supporting the tools used by trust and safety and/or content moderation teams to filter user-generated content. Learners acquire the skills to design and modify workflow protocols to enhance enforcement of content moderation policies. Furthermore, learners acquire a working knowledge of computer programming and software development, including the concepts of machine learning and data visualisation. With these skills, learners are better enabled to find solutions and improve interaction with the developers of these tools

Certificate in Arts in Self-Caring Practice in Occupational Contexts

This Certificate in Self-Caring Practice in Occupational Contexts programme equips learners to critically engage with self-awareness theories, while demonstrating the capability to critically identify and reflect on areas for personal growth and development, self-management, and self-learning. The certificate facilitates learners from all professional backgrounds to become more holistically self-aware, to identify personal strengths and vulnerabilities which may impact on both their personal and professional lives, and to be able to take appropriate self-care strategies and build their resilience. Learners build their abilities to recognise, understand work-related stress and burnout, while identifying strategies and methods for effective adaptive coping. In particular, the module introduces learners to the importance of self-awareness within personal and work-related environments.

Certificate in Arts in Applied Project Management for Trust and Safety Professionals

The Certificate in Applied Project Management for Trust and Safety Professionals aims to equip learners with the tools and techniques to critically evaluate and effectively apply project management skills in the trust and safety environment. The need for the development of core transversal skills in leadership, critical analysis and escalation management strategies are met in this programme. The programme seeks to develop learners' competencies in applying best practice theories and how to best perform under the pressures of multiple projects and deadlines in the context of trust, safety, and content moderation. They will also develop an understanding of data analytics and measurement tools and how they are utilised in project management in an online work environment. This course runs over one semester as a part time, blended programme.

Teaching & Learning

“ My background is in staff training. I originally applied to do the Level 9 Certificate in Training and Education and enjoyed it so much that I decided to work towards the Masters. I found the course content to be an appealing mix of theory and practical application and I have been able to apply what I learned in each module to my job. I would recommend the Masters to anyone working in the area of learning and development, especially as the flexible delivery and the support provided makes it easier to fit study in with family and work commitments. ”

Certificate in Education, Learning & Development

Best Bits of Teaching & Learning

Motivate and engage learners

This programme aims to support, inspire and challenge participants professional practice by providing them with the underpinning concepts, theories and practices associated with the implementation of effective learning for all learners.

Participants on the programme explore and evaluate contemporary learning theories, and learn to implement practical strategies to motivate and engage their learners, participants or clients. Some of these strategies involve using technology to enhance the multiple ways of reaching and engaging learners. Participants build on their existing skills and develop their expertise in designing, implementing and evaluating effective learning programmes, including accredited and non-accredited programmes.

2

Community of practitioners

This programme is designed to create a collaborative, inquisitive, reflective and inclusive community of practitioners. It offers practitioners from a range of education, learning and development contexts opportunities to learn with and from each other. It also provides the opportunity to challenge their assumptions and practices within a critical and collegial community of practitioners.

The inclusive nature of this programme is based on engaging those who support adults learning within accredited and formal educational settings such as higher education as well as non-accredited learning within organisations.

“ The certificate is an incredibly focused programme providing practical knowledge that can be readily applied to your teaching practice. The lecturers guide you through the modules, encourage discussion with your peers and make you feel part of the wider education community. I thoroughly recommend this course for anyone involved in higher education and training. ”

Danielle Townsend
Certificate in Education, Learning and Development Graduate

4 Elective Specialism

Elective specialism provides the participant with choice so that they can choose modules to align with their individual educational and training needs or career development.

5 Car parking

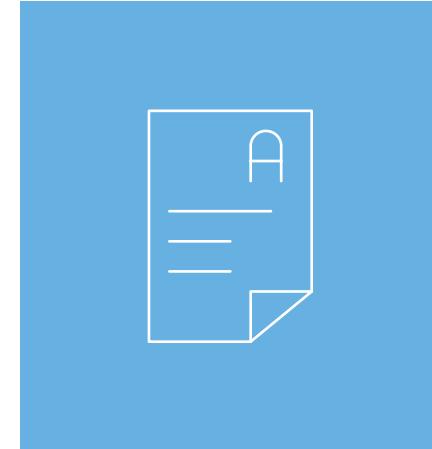

Free car parking on our South Circular Road campus.

3

Flexible Schedule and Support

The programme is offered in a part-time blended format with approximately one workshop on campus per month (Saturday), a weekly release of non-live lectures to be watched in your own time, weekly webinars and drop-in sessions. This format facilitates learners who are engaged in full-time or part-time roles. Participants are also supported throughout the programme with additional skills workshops.

“ I found the Masters in Training and Education hugely beneficial to my pedagogical practice and my understanding of both learners’ needs and the wider education landscape. The topics covered on this programme complemented my teaching and provided me with a deep understanding of the third level education sector along with a comprehensive toolbox of pedagogical techniques that I use throughout my teaching practice today. I would recommend it to anyone involved in or contemplating a move to teaching in third-level education. ”

Aoife O'Donnell
Masters Graduate

About the Course

The programme aims to challenge participants to question and revitalise their professional practice by building on their existing knowledge and skills. Through this programme, participants will master the various techniques to motivate and engage their learners, participants or clients, in line with best practice. Participants will develop their expertise in designing, implementing and evaluating effective learning programmes, including accredited and non-accredited programmes. Through collaborative group tasks, peer reflection and discussion, participants from a variety of different backgrounds will learn from and with each other. This programme is ideal for those who feel they lack the theoretical underpinnings to challenge and inform their practice, or who feel they need to energise their practice with new insights from research.

Careers

The programme aims to further the careers of learning and development practitioners and prepare them for leadership roles in their field. At a national level, there is an increasing need for adult educators to have formal qualifications. Many who support learners in an organisational context such as role holders in L&D or HR departments may have a degree in Human Resources or in Business. The individual and/or the organisation may want to have a higher level or specialist qualification to support and inform their role.

Programme Delivery

Contact time is delivered using a variety of methods; via face-to-face workshops on campus, recorded lectures, online webinars and online drop-in mentoring sessions. For the dissertation, there are on-campus workshops which are live-streamed and recorded as well as one-to-one meetings with your supervisor.

SEMESTER FOUR (DISSERTATION)

There are two dissertation options; written dissertation or dissertation by practice.

Entry Requirements

Applicants must hold a Level 8 degree in their area of expertise. They must also have a minimum of 50 hours training or lecturing experience with adult learners. Applicants who do not meet the eligibility criteria but who may have prior academic and/or professional experience relevant to the programme may apply to the College for consideration of their Accredited Prior Learning (APL) or Accredited Prior Experiential Learning (APEL) in accordance with Griffith College's APL/APEL procedures.

Progression

On completion of this Masters, learners may go on to study a PhD in the area.

“ I manage a busy department in an area which is heavily regulated and requires constant upskilling. I am also an associate lecturer in TUD. I decided it was time to work towards a recognised postgraduate qualification in Training and Education. I found this programme very useful in the design and assessment of educational programmes as well as preparing me for my dissertation. I really enjoyed my time at Griffith and although the programme was challenging at times the support from the lecturers was a big contributor to my successful completion of the programme. I would highly recommend studying at Griffith College Dublin, I made some great lifelong friends and I am a much more competent and capable Lecturer and I have grown as a person both professionally and personally. ”

Michelle Kelly

Certificate in

Education, Learning and Development (Special Purpose Award)

DUBLIN

About the Course

The programme offers an opportunity for practitioners in education, learning and development the opportunity to advance their knowledge, skills and competencies at a postgraduate level. These modules engage participants in the underpinning concepts, theories and practices associated with the design and implementation of effective learning for all adult learners. Key concepts such as learning theories, inclusive strategies for learning and critical use of technologies are all introduced. Through this programme, participants will develop their expertise in designing, implementing and evaluating effective learning programmes, including accredited and non-accredited programmes.

The Postgraduate Certificate is accredited as an embedded award within the Postgraduate Diploma and the Masters in Education, Learning and Development. Learners on the Certificate programme complete two taught modules from the Masters.

Careers

The programme aims to advance and evidence the professional development of educators and practitioners in learning and development with the aim of furthering their careers and preparing them for leadership roles in their field. This programme is ideal for those who feel they lack the theoretical underpinnings to challenge and inform their practice, or who feel they need to energise their practice with new insights from research.

Academic Progression

Upon completion, participants may choose to progress onto the Postgraduate Diploma or the Masters in Education, Learning and Development.

Course Content

- Professional Practice
- Learning Designs: Contexts and Considerations

Entry Requirements

Applicants must hold a Level 8 degree in their area of expertise. They must also have a minimum of 25 hours training or lecturing experience with adult learners. Applicants who do not meet the eligibility criteria but who may have prior academic and/or professional experience relevant to the programme may apply to the College for consideration of their Accredited Prior Learning (APL) or Accredited Prior Experiential Learning (APEL) in accordance with Griffith College's APL/APEL procedures.

CORK

About the Course

This programme is a unique blend of a technology and business qualification. It will focus on core competencies such as Pharmaceutical Processes and Production, Pharmaceutical Business Introduction & Technology Transfer, Emerging Trends in the Industry, the Implementation of Operational Excellence (Lean & Six Sigma), Regulatory aspects of the Pharmaceutical Industry, Strategic Thinking and Leadership Development and Professional Skills.

With extensive input and participation from the pharmaceutical and clinical trials sectors, this programme is ideal for those involved in manufacturing, compliance, business improvement, quality assurance, validation, data analytics, clinical trial co-ordination and engineering.

All classes are broadcast live using an online training platform, offering the learners the opportunity to either physically attend or join the class online. All classes are also recorded, allowing learners the opportunity to view later and support revision. Online learning and support will be provided through the use of Moodle. Extensive coaching and mentoring workshops will be provided with specific focus on individual assessment and improvement.

The PGDip programme is delivered over three semesters by experienced academic and industry lecturers. An additional 2 semesters to complete the MSc. Learners attend classes two evenings per week online (6.30pm - 9.30pm) and approximately two Saturdays per month in-person for tutorial and group work. Evening classes are delivered online, and recordings are available. On completion of the PGDip, learners can progress to a full MSc by submitting a research dissertation.

Stage 1

A three semester taught programme in Pharmaceutical Business & Technology. Students can complete 11

 - Cert in The Creative Process

Best Bits of The Leinster School of Music & Drama

The Leinster School of Music and Drama (LSMD) was founded in 1904 to promote education and teaching in the arts in Ireland. In 1998, the LSMD relocated to Griffith College Dublin becoming a fully owned constituent school of the College.

1 Internationally recognised qualification

LSMD programmes are fully accredited by QQI, making them internationally recognised accredited qualifications. This is the only Higher Diploma in the country offering specialised drama education qualification.

2 Highly qualified teaching staff

Several members of the current teaching staff are firmly established in the performance arena. This experience, combined with their depth of teaching knowledge, enhances the unique learning experience offered by the School.

Flexible Study Options

- Part-time study mode.
- The choice of evening and Sunday lectures, combined with part-time, blended delivery.
- The possibility to take the programme in three stages under the QQI Accumulation of Credits and Certification of Subjects (ACCS) scheme.

3 University style facilities

- Extensive music library with music texts, sheet music, CDs and access to the online catalogue. The drama library has been accumulated over several decades and includes numerous plays, literature, drama theory and educational texts.
- Performance oriented facilities, including a 600 seater concert hall.
- Fully equipped studios with the latest industry standard music software for writing, recording, performing, editing, mixing and composing music.

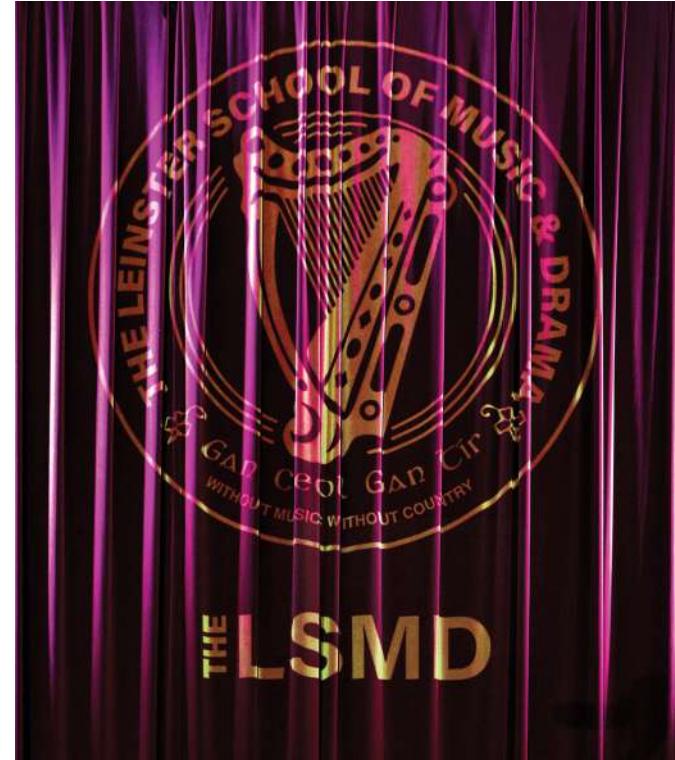

4 Online learning support

Study and practice facilities in Dublin are open seven days a week, with unlimited access to online learning and search facilities which allow learners to access lecture material and take part in discussions with class colleagues and lecturers.

5

LSMD Entry Requirements

Programme	Applicants must fulfill one of the following
Higher Diploma in Arts in Drama Education - Level 8	1. Hold a level 8 degree in a drama related field. 2. Hold a level 8 degree in another discipline + Grade 10 grade in Speech & Drama from the LSMD, or an approved substitute from another board.
Certificate (LSMD Licentiate Diploma) - 45 Credits	3. Applicants with relevant certified learning (APL) or prior experiential learning (APEL) will be considered.
Certificate (LSMD Associate Diploma) - 20 Credits	

Higher Diploma in Arts in Drama Education

About the Course

The Higher Diploma in Arts in Drama Education programme is designed to advance the qualifications of existing and aspiring drama teachers. The overall aim of the programme is to provide learners with detailed knowledge and practice of drama creatively, practically and pedagogically. The programme is designed to prepare contemporary practitioners in drama performance and education, enabling them to teach in a school or community setting or to run and manage their own drama practice or studio.

The programme is delivered by LSMD lecturers in the fields of education, psychology, storytelling, writing, directing, mime, dance, acting and voice. The teaching strategies employed seek, by example, to encourage practices, which will disseminate artistic and creative initiatives, and require the learners to instigate and develop their own ideas and reflect on the process involved.

Careers

Graduates of the programme have taken many routes and are gainfully employed within primary and secondary schools, in performing arts and private speech and drama schools around the country; and working within the early – years sector. Many graduates have set up their own private classes, drama schools and performing arts schools.

Apprenticeship

Apprenticeship

“ Apprenticeships: changing the dial on the delivery of education and training programmes in Ireland. ”

The apprenticeship Council of Ireland was launched by the Minister for Education and Skills in November 2014 and it is responsible for promoting the development and expansion of apprenticeship programmes in Ireland under the banner of Generation Apprenticeship.

Why study an Apprenticeship?

1 Apprenticeships have traditionally formed part of the education systems in other European countries, particularly Germany where learning acquired in the workplace is recognised and valued. International recognition of the value of combining workplace learning with academic learning is growing and is evidenced by the increase in apprenticeship programmes available. Apprenticeships are affordable for the individual learner as they are earning while they are learning and in most cases, the tuition is funded under a government scheme.

2 Earn while you learn

Apprentices earn while they learn and build valuable work-ready skills in a chosen occupation allowing them to fit studying around their finances. Apprenticeships facilitate exciting and rewarding careers, with learning grounded in the practical experience of undertaking a real job. On successful completion of the apprenticeship programme most graduates are retained by their employer.

4 Fully-funded tuition

Your tuition is funded through the National Training Fund (NTF). The NTF was established by the National Training Fund Act 2000, and is resourced by a levy on employers. Its aims are to raise the skill level of those in employment, to give job seekers skills relevant for meeting the demands of the labour market, and to facilitate lifelong learning. It further aims to provide information in relation to the current and future skills needs of the economy.

3 Work alongside industry experts

You have a workplace mentor who is an industry expert to guide you through the workplace learning experience, plus access to subject matter experts in the classroom. When you qualify, you have all the necessary real-world experience.

Higher Certificate in Healthcare Support Practice

About the Course

The Advanced Healthcare Assistant Practitioner apprenticeship programme supported by the apprenticeship alliance was launched in 2021. The consortium steering group is made up of representatives from Nursing Homes Ireland, the Home and Community Care Ireland, and Griffith College as the coordinating academic provider with the delegated responsibility for delivering the programme. It uses the apprenticeship model of delivery where learners are employed full time, are earning a salary, are supported by a mentor in the workplace and attend lectures with the academic provider. It offers healthcare assistants the opportunity to advance their career and to take up senior healthcare assistant roles in their organisation. The programme aims to produce compassionate, competent and confident advanced healthcare assistant practitioners (AHAPs) who are qualified to deliver a wide range of clinical and social care skills, can work autonomously, and who demonstrate the requisite interpersonal skills.

Careers

Graduates will take up positions as advanced healthcare assistant practitioners in hospitals, residential care centres, low dependency community living units, home care arrangements and day care centres. It is envisaged that graduates will provide a higher level of support for nursing staff and will assist in the management of healthcare assistant teams.

Award

The apprenticeship programme leads to a National Framework of Qualifications level 6 Higher Certificate in Healthcare Support Practice.

Entry Requirements

Employed healthcare assistants who have a relevant QQI Healthcare Level 5 Major Award (120 credits) with distinctions in at least 3 components or equivalent qualification from another awarding body which is mapped to level 5 on the NFQ and a minimum of 3 months' work experience in the healthcare sector.

Leaving certificate: 5 subjects with O6 / H7 to include English. Learners need to have foundation mathematics and a minimum of 3 months' experience of working as a healthcare assistant and at least two relevant QQI level 5 healthcare components – 30 credits.

A mature candidate, over the age of 23, who does not hold the above Level 5 qualifications as set out in categories 1 or 2 above but who has a minimum of two years' experience working as a healthcare assistant, is recommended by their employer are also eligible to apply.

Course Content

STAGE 1

Communications and Interpersonal Skills (Part 1), Personal and Professional Development (Part 1), Sociology of Healthcare, Clinical Skills (Part 1), Understanding the Body (Part 1), Health Promotion, Nutrition and Hydration, Older Person Care and Dementia.

STAGE 2

Course duration: Full-Time 2 years
Award Level: Level 6
Validated by: QQI

BA in Bar Management

About the Course

This program was created by the bar industry for the bar industry. It was developed through a thorough consultation with industry experts, including the Consortium Steering Group, which consists of successful bar operators and the VFI.

This program is designed to equip learners with various skills needed to manage a bar. These include knowledge of legal and regulatory requirements, leadership and management skills, commercial acumen, food and beverage expertise, financial management, marketing techniques, human resource management, communication skills, and personal development.

Upon graduation, individuals can pursue roles as Bar Managers within the domestic or global hospitality sector.

The Apprenticeship Council of Ireland funds this programme as part of the Generation Apprenticeship initiative. The initiative aims to significantly expand the number of learners of all ages and backgrounds using the apprenticeship route to gain their qualifications, doubling the current amount.

Why Study Bar Management at Griffith College?

Griffith College offers a unique opportunity to earn while you learn. Successful candidates will receive a National Framework of Qualifications level 7 BA in Bar Management (QQI) and benefit from a holistic approach to learning. This includes support from academic success coaches throughout the apprenticeship programme. Additionally, the programme offers security of employment, a pathway to higher-paid roles, and an enhanced skill set. You will also receive a lifetime portfolio to evidence your personal achievements. As an apprentice at Griffith College, you will have access to all the resources of a full third-level college campus to support your learning journey.

Course Highlights

This course offers several highlights, including leadership and management training, guidance on operating a customer-centric organisation with commercial awareness, managing a healthy and safe food and beverage operation, and professional communication and behaviour. Additionally, the course teaches financial management practices, practical human resource management principles, and marketing principles and practices. All of this is done under the guidance of a dedicated and highly qualified mentor.

Entry Requirements

Work experience – Minimum one year full-time OR two years part-time

Applicants under 23 years of age:

Leaving Certificate: 5 subjects at O6/H7 grade, including English, and a minimum of foundation Mathematics. OR A relevant FET level 5 or 6 major awards, with at least 4 distinctions, OR Equivalent qualification mapped to the national framework of Qualifications (NFQ).

Applicants over 23 years of age (Mature applicants):

Those who do not hold the above academic qualifications, but have the required work experience in the sector, are recommended by their employer and demonstrate the right attitudes and behaviours will also be eligible to apply.

Professional Courses

Professional Accountancy

“ I wish to thank Tom for all he did in helping me to not only pass but perform very well in probably the most difficult exam I have ever had to prepare for. Tom went above and beyond what I would normally expect from a lecturer. For example when CPA changed the online exam platform a few weeks out from the exam, Tom within a couple of days provided us with a tutorial on how best to approach the AFR exam using the new platform which was a huge help during a stressful time. I had Tom previously at the P1 level as well and would consider him the most effective lecturer I have ever had. The level of support and detailed notes he gave us throughout the course was brilliant and hugely impacted my exam result.

Student Support

9

A team of 40 tutors committed to student success.

“ I was delighted to hear that I placed first in Ireland & second in the world in my ACCA Advanced Performance Management exam. The support from Griffith College was really helpful in preparing for this exam. The lectures and revision sessions were informative and made the concepts easier to understand! Covering past paper examples and completing a timed mock exam with Griffith helped prepare me well for this exam.

Maebh Power, ACCA High Achiever

“ Studying through Griffith College's online platform offers a great user interface and all the materials at your fingertips, available to access on your mobile, tablet and computer. The recorded lessons gave me great flexibility to study outside of my work hours - such as early in morning before work or even sometimes whilst commuting on a train etc.... especially being able to watch a 3 hour lecture over a few sessions.

I would highly recommend Griffith for the quality of its lecturers whom are all super helpful. I am the sort of student who likes to ask lots of questions and my lecturers always took the time to respond to emails or queries outside of class. I also received great help along my path with admin questions before picking a course and Jacqui was always really helpful in advising on upcoming layout of course structures etc - aiding me in deciding what next

Henry Fearon, ACCA High Achiever

ACCA

ACCA is the largest and fastest-growing global professional accountancy body in the world, with over 746,000 members and students in 179 countries. The calibre of ACCA tuition provided by Griffith College is unparalleled. ACCA continues to grant their Platinum Status to Griffith Professional Accountancy, Griffith College. This Platinum Status, under ACCA's University & College Registration Scheme, is given to only a small select number of colleges in the world, of which Griffith College is one. The success of our ACCA Course lecturing team is based on their professionalism and the quality of the lectures, which has resulted in consistently high pass rates that exceed the global average.

Many prizes have been won by Griffith College students. Included in our impressive 307 ACCA Prize Winners are 108 First in Ireland Winners and 11 First in the World Winners. We understand the hectic pace of the lives of our ACCA students and, as such, we go that extra mile to provide flexible learning options including; part-time, e-learning, live streaming, video recorded papers and revision classes. If you are looking for the best ACCA tuition possible at a time and place suitable to you, then look no further than Griffith College.

Raylene O'Brien

ACCA High Achiever, 1st in the World SBR

A massive thank you to Deirdre Cogan for helping me achieve success in the SBR exam. Deirdre's ability to explain complex topics in an easily understandable and clear manner is second to none and her sincere enthusiasm for lecturing is evident in each and every lecture. From demonstrating detailed step by step problem solving approaches to exam questions on screen during lectures, to providing online quizzes to test and reinforce your knowledge, Deirdre brought the whole classroom experience online seamlessly and ensured a variety of learning supports were available to suit all students. A great lecturer whom I would like to thank for not only preparing me so well for the exam but also for making SBR such an interesting and enjoyable module.

Professional Law

“ Learning with Griffith College gave me the confidence needed to sit the FE-1 exams. Due to work commitments, I could not attend lectures. The e-learning option offered by Griffith was invaluable to me and allowed me to strike the appropriate work-study balance. The lecturers explained all the relevant topics thoroughly and made me feel a lot more confident sitting the exams.”

Record of success

The Griffith College Professional Law School has obtained consistent success in the professional examinations of the Law Society of Ireland and Honorable Society of Kings Inns.

The Professional Law School's mission is to deliver great education, that is accessible and affordable to everyone, everywhere, at any time and, as a result, the Professional Law School delivers engaging, interactive and real-time education.

It educates participants worldwide who seek professional progression. The unique and market-proven business model solves many of the key challenges in online education, combining online lectures, live online and recorded e-tutorials and live online and recorded workshops for FE1.

Preparatory Course for the Law Society of Ireland's Final Examination (FE1)

About the Course

Geared towards the specific examination papers set by the Law Society of Ireland, the Griffith College Professional Law School's 15-week FE1 Preparation Course is both intensive and practical. Against a background of unequalled quality in materials, notes and facilities, underpinned by outstanding, supportive lecturers, you are assured of an environment that will enable you to excel.

The Final Examination is the entrance examination to the Law Society of Ireland. Only those who have passed or gained exemption from the Preliminary Examination can sit this examination which is held twice each year, in spring and autumn.

Course Delivery

Our FE1 preparation courses offer a combination of:

- Fourteen online lectures: pre-recorded lectures released weekly, meaning participants can watch lectures at a time and place convenient to them.
- Two e-tutorials will be available via live stream so participants can join in. They will also be recorded and made available to learners to watch in their own time.
- One intensive exam preparation workshop will be available for participants via live stream. It will also be recorded and made available so participants can watch in their own time.

Preparatory Course for the The Honorable Society of King's Inns' Entrance Examinations

About the Course

Every year the Griffith College Professional Law School conducts a preparation course for students intending to sit the Honorable Society of King's Inns' Entrance Examinations.

Course Delivery

This course was the first entrance exam and client-oriented programme in Ireland. Intensive and practical, its delivery is closely aligned to the specific examination papers set by the examiners of the Honorable Society of King's Inns. With materials, notes and facilities of unequalled quality, underpinned by outstanding, supportive lecturers, participants will find a unique learning environment that will direct them towards success.

The King's Inns Preparatory course runs over a 10-week period from June to August each year, with tuition provided in all five subjects.

Preparatory courses for the King's Inns Entrance exams are flexible and user friendly with fully supported online delivery including live online weekly lectures that are also recorded for students to rewatch.. Learners are provided with softcopy manuals.

Course Content

Highly-intensive tuition is provided for all five entrance examination subjects:

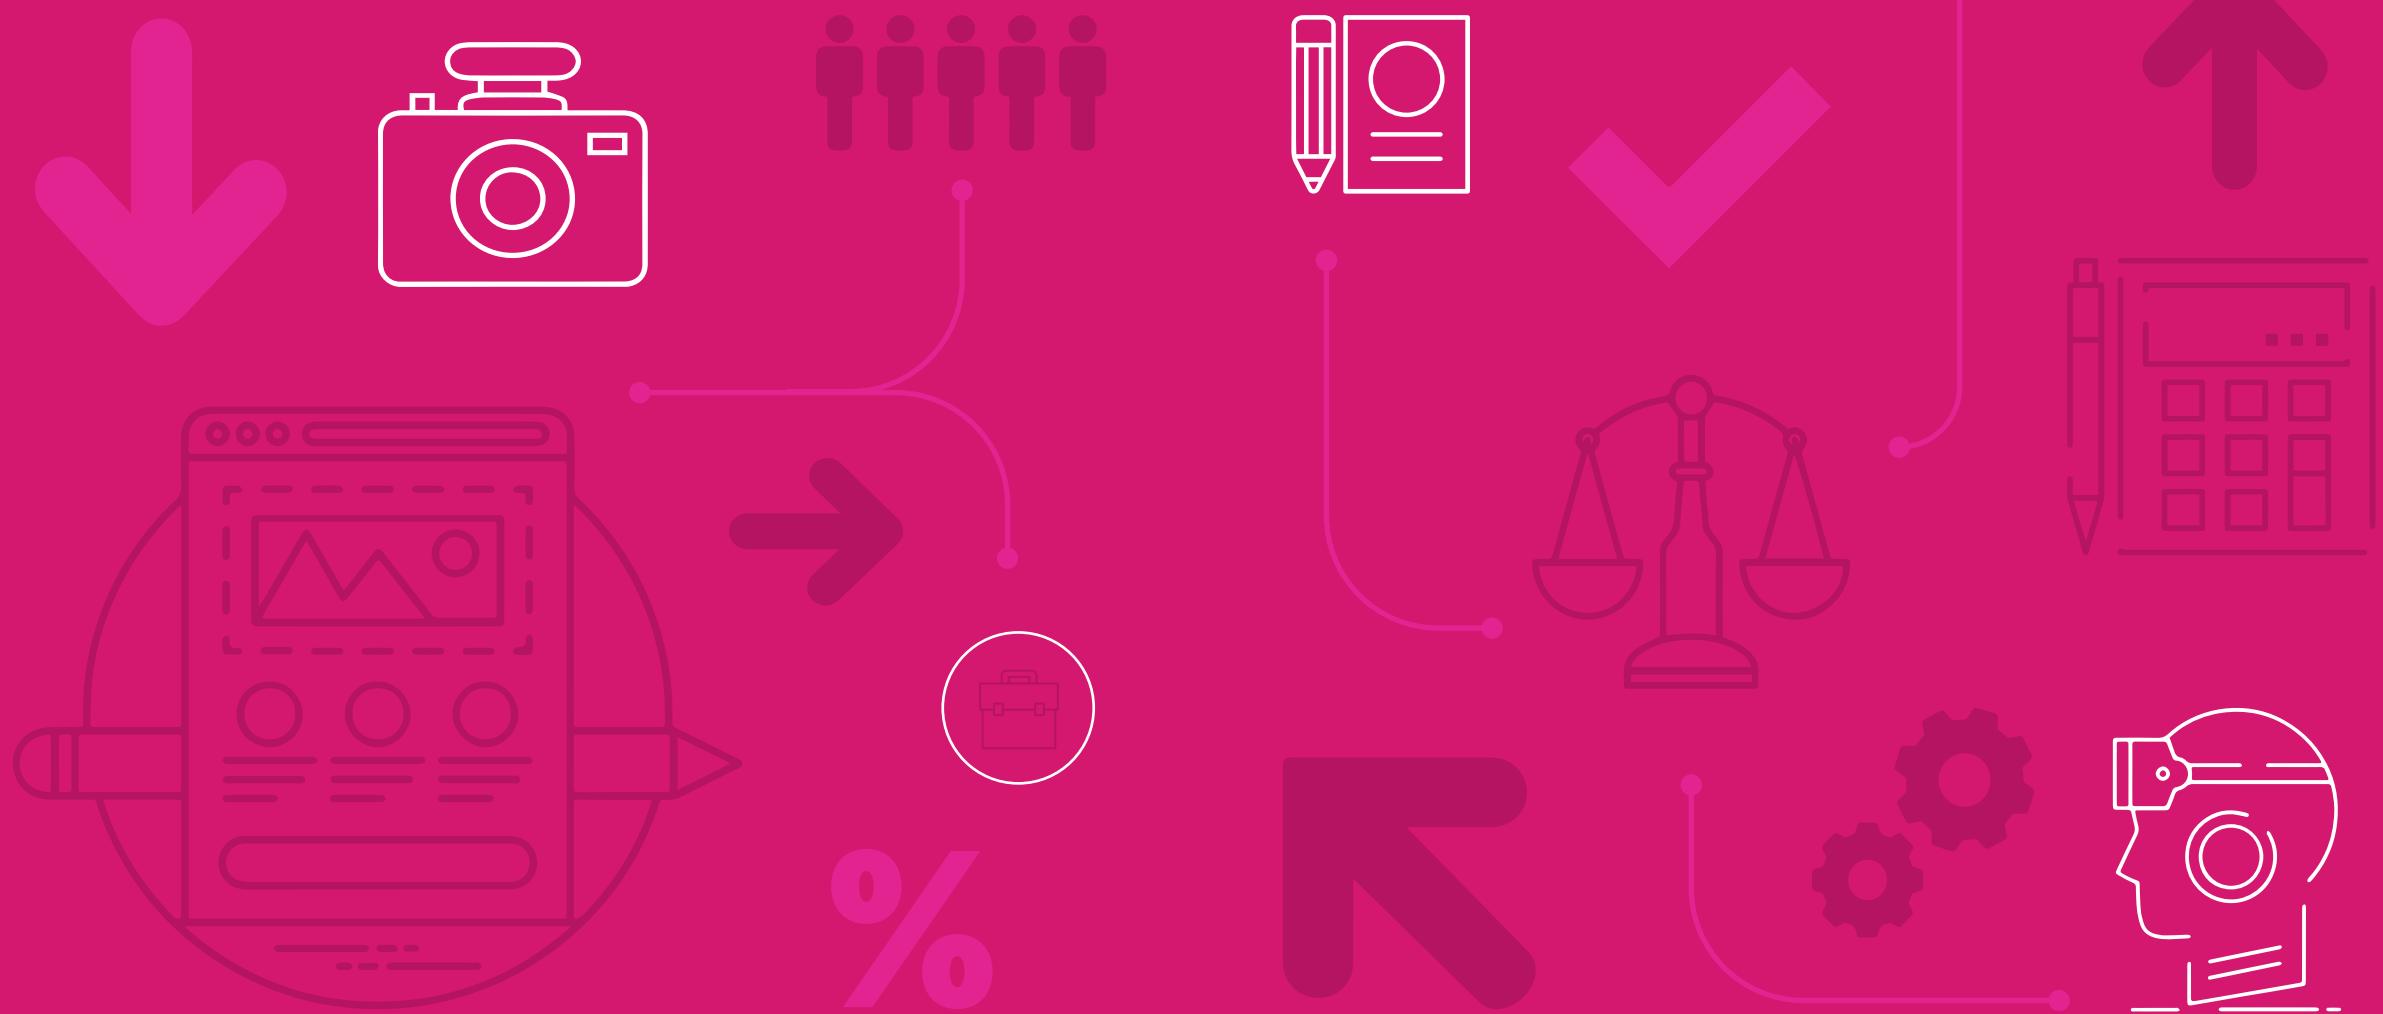

- Contract Law
- Criminal Law
- Law of Evidence
- Constitutional Law
- Law of Tort

Concise lectures build participants capability to analyse complex problems and to arrive at rational and informed conclusions.

Professional Diploma in Leadership Skills

DUBLIN
CORK

About the Course

This course provides students with an in-depth exploration of the leadership role within an organisation. It enables students to appreciate what employees expect and want from their leader so that they can practice those skills and behaviours, which ensures that they will achieve results effectively through building successful relationships with their employees. The structure of the course ensures that participants gain a combination of theory and skills development which will be directly transferrable to workplace situations.

For Whom

This course is designed for either aspiring, new or experienced managers, supervisors and team leaders who want to learn the skills to improve employees' motivation, enhance their commitment and increase return on investment.

It highlights the skills a leader needs in order to successfully juggle the demands of the team, task and the individual.

Entry Requirements

Mature Applicants – Direct entry if you are 23 years from the 1st January this year.

Under 23 Years – 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award

Professional Diploma in Project Management

DUBLIN
CORK

About the Course

Project Management is a methodology that includes the process and activity of planning, organising, motivating, and controlling resources, to achieve specific business goals. Project Management is the preferred method for the delivery of business change and capital investment.

- Enable the individual to understand the role of the project leader, project sponsor and manage the client expectations.
- Understand how to use the project management process, prepare a project plan, assess the finance needs and manage project resources.
- Develops the individual's skill in monitoring, communicating, risk assessment and controlling a project in order to achieve successful project outcomes.

For Whom

This course is designed specifically for project managers, project team members and professional management who will benefit from the modular based principles of project management when faced with the dynamics of the competitive business environment.

Short Courses

Professional Diploma in Credit Management & Debt Collection

DUBLIN

About the Course

This course provides students with an in depth exploration of the credit management role within organisation. It sets out to dispel any negative perceptions there may be about credit and replace the current perceptions with a positive, commercially aware, profit focused, customer centred function at the heart of every successful business.

The course enables participants to appreciate what steps have to be taken and the optimal order the tasks should be completed, which ensure that they will achieve results effectively through building successful relationships with their customers and colleagues throughout their own organisation. It highlights the important skills which a credit manager needs in order to successfully juggle the demands of the customers, the finance department, mitigating risk and the need to grow sales.

For Whom

The Professional Diploma in Credit Management and Debt Collection is a structured programme that has been formulated specifically for those in Credit roles or aspiring Credit Managers in the workplace.

Professional Certificate in Digital Marketing & Strategy

DUBLIN
CORK
LIMERICK

About the Course

This course combines digital marketing and social media theories and practices to create awareness and engagement online in order to build customer traction across a range of business types and models. Students are taught how to develop digital campaigns, through both web and mobile channels, using the most effective digital media and communications platforms and how to effectively monitor, track and measure the effectiveness of digital campaigns. As the impact of online channels and digital media increases it is affecting the way that many industries previously functioned. Today, it is absolutely necessary that all businesses and service providers understand the impact and potential of new technologies and how best to leverage these for business purposes.

For Whom

This course is aimed at those looking to build an effective online presence, and will be of interest particularly to those who own a business or manage a corporate website. It will also be of interest to those who are involved in online and offline advertising, marketing, digital production or public relations, who specifically need to gain a greater understanding of the proliferation of tools, channels and platforms that users now expect businesses to be present on and be willing to engage on.

Entry Requirements

Mature Applicants – Direct entry if you are 23 years from the 1st January of this year.

Under 23 Years – 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award.

All applicants must be a user of Microsoft Office.

Apply direct: www.griffith.ie
Course duration: **14 weeks x 1 evening (6.30pm - 9.30pm)**
Validated by: **Griffith College**

Professional Certificate in Digital Design with Adobe

DUBLIN

About the Course

The Professional Certificate in Digital Design with Adobe teaches students the skills and graphic design principles that will enable students to create industry standard web and print documents using the Adobe Creative Suite; Adobe Photoshop, Adobe Illustrator, Adobe InDesign & Adobe Acrobat.

- A student centered active learning environment ensures that the practical design skills required for high quality publications can be integrated with the individual needs.
- The structure of the course is practically orientated.

For Whom

The course assumes no previous knowledge of the software. It aims to enable participants to be able to produce a broad range of documents including newsletters, product leaflets, adverts, posters and sales material for either internal use or for commercial printing. At the end of the course participants will have a good knowledge of the various tools and features.

Entry Requirements

Professional Certificate in 2D AutoCAD with Architectural Drafting

DUBLIN

About the Course

This course is designed to cover a wide range of 2D drawings and editing commands and routines to aid the application of AutoCAD. Participants will become familiar with the necessary techniques required to produce and edit drawings and prepare drawings to output. The aim of the programme is to equip participants to develop their skills in the use of architectural drawing using pencil and ink and 2D CAD as a means of communicating design ideas. The objectives are to introduce the principles of a series of architectural drawing techniques using pencil and ink and 2D CAD.

For Whom

This professional certificate is aimed at learners who wish to advance and enhance their knowledge, skills and competencies in architectural drafting and 2D AutoCAD, and receive professional certification. The programme provides a pathway for applicants that do not have formal qualifications or training who may wish consider a career or further study in this field.

Entry Requirements

Mature Students (Over 23 Years) - Direct entry

Under 23 Years - 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award

All applicants should be proficient in the use of MS Applications & File Management.

This course is delivered through AutoCAD for Windows. Learners are advised that they will need access to either a PC or laptop with a Microsoft Windows operating system on which they can install a student copy of Autodesk which will be made available to all participants of the course.

Apply direct: www.griffith.ie
Course duration: **13 Weeks x 1 evening
(6.30pm - 9.30pm)**
Validated by: **Griffith College**

Professional Certificate in Advanced 2D AutoCAD with SketchUp

DUBLIN

About the Course

This course is designed to cover a wide range of drawings and editing commands and routines to aid the application of AutoCAD. The aim of the programme is to enable learners to develop advanced skills in architectural drawing techniques using 2D CAD, and building 3D models using 3D CAD. The objectives are to build on skills gained in Architectural Drafting and 2D CAD and to introduce advanced detailing using 2D CAD. The module also introduces principles of 3D modelling techniques using 3D CAD.

For Whom

This professional certificate is aimed at learners who have basic 2D AutoCAD skills and/or have completed an introductory level course. It will allow learners to advance their knowledge, skills and competencies in 2D AutoCAD and SketchUp and receive professional certification. The programme provides a pathway for applicants who wish to consider a career or further study in this field.

Entry Requirements

Under 23 Years - 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award.

All applicants must have industry or educational experience and will need to provide a copy of CV or transcripts of prior learning, and a sample of 2D AutoCAD work.

All applicants should be proficient in the use of MS Applications & File Management and have a good understanding of both written and spoken English.

This course is delivered through AutoCAD for Windows. Learners are advised that they will need access to either a PC or laptop with a Microsoft Windows operating system on which they can install a student copy of Autodesk which will be made available to all participants of the course.

Apply direct: www.griffith.ie

CompTIA A+

DUBLIN

CompTIA Network+

DUBLIN

Professional Diploma in AI for Business

DUBLIN

About the Course

CompTIA A+ certification training validates the knowledge and skills of Computer Service Technicians.

- The course covers mobile devices, tablets, laptops, desktops.
- CompTIA A+ confirms a technician's ability to perform tasks such as installation, configuration, diagnosing, preventive maintenance and basic networking with an introduction to mobile networking and cloud computing.
- The course also covers topics such as security, safety and environmental issues, and communication and professionalism.
- Fundamentals of cloud computing.

For Whom

The A+ certification is the ideal starting point for anyone interested in working in IT configuring, upgrading and supporting PCs in the workplace.

Entry Requirements

Mature Applicants – Direct entry if you are 23 years from the 1st January this year.

Under 23 Years - 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award.

No formal qualification in computing is required for entry to the course, although prospective participants should be familiar with basic computing concepts and troubleshooting a computer.

Apply direct: www.griffith.ie
Course duration: **10 weeks x 1 day**
(9.30am - 3.30pm)
Validated by: **Griffith College**

About the Course

CompTIA Network+ validates the knowledge and skills of IT and networking professionals.

- Teaches essential skills such as install, configure and troubleshoot basic networking hardware, protocols and services.
- The course includes many topics that help the participants to understand the concepts of networking, but it is also a very practical course.

For Whom

CompTIA Network+ certification is designed to start or advance your Networking career. Some participants, having gained a basic knowledge of computing through other training, will choose this track to enhance their knowledge by going beyond the use of a basic PC. Network+ is a popular track with individuals looking to become Network Administrators and those individuals looking to validate knowledge of networking by getting certified.

Entry Requirements

Mature Applicants – Direct entry if you are 23 years from the 1st January this year.

Under 23 Years - 5 O6/H7 grades in the Irish Leaving Certificate or equivalent award or FETAC Level 5 Full Award.

Completion of A+ qualification or sufficient workplace experience.

Apply direct: www.griffith.ie
Course duration: **10 weeks x 1 evening**
(6.30pm - 9.30pm)
Validated by: **Griffith College**

About the Course

This programme offers learners the tools needed to approach different AI platforms, understand their strengths and weaknesses, collaborate with AI to generate ideas, content, and improve decision-making. AI tools are used throughout the programme on a week-by-week basis. The latest trends and technologies in AI will be covered in a rich overview that must include current case studies, so learners are informed of the latest developments in the field and rapid changes in the rise of AI, while understanding the impact that AI is having on the world.

Upon completing the programme, learners will be equipped to examine AI's dimensions and societal implications, analyse ongoing developments, evaluate and plan the ethical use of generative AI in professional settings, apply AI collaboration skills to enhance efficiency in personal and business contexts, and select the most appropriate AI tools for various applications.

For Whom

This course is ideally designed for managers, professionals, entrepreneurs or anyone in the team. You do not need technical expertise as a prerequisite and you will learn hands on actionable skills that you can apply to your workplace.

Entry Requirements

Mature Applicants - Direct entry

Under 23 Years Minimum - 5 O6s/H7s grades in the Irish Leaving Certificate or equivalent award OR FETAC Level 5 Full Award. It is recommended that applicants have a good understanding of both written and spoken English. It is also recommended that applicants have a minimum of 1 year of business experience.

Apply direct: www.griffith.ie
Course duration: **12 weeks x 1 evening**
(6.30pm - 9.30pm)
Validated by: **Griffith College**

Certificate in

Foundational Skills and Competencies in Counselling and Psychotherapy

LIMERICK
DUBLIN

About the Course

This is an ICHAS course validated by QQI and delivered by ICHAS at Griffith College

The Certificate in Foundational Skills & Competence in Counselling & Psychotherapy is designed to provide a quality assured undergraduate Minor Award in Counselling and Psychotherapy for students who seek to develop practical skills as well as theoretical understanding of the area of counselling. Students will gain a good basis for professional progression in the counselling sector while developing key life skills that can be applied in their personal lives and freely to other professions.

For Whom

This programme is suitable for those who wish to study both Counselling and Psychotherapy at a foundational level, either to support existing roles or as a point of initial discovery as to whether a Major Award might be something that they wish to pursue. It is also relevant for healthcare professionals, teachers, social workers, managers, customer services, sports coaches and others.

Entry Requirements

All applicants must be over 18 years of age.

All applicants are required to have basic IT skills and competence.

All applicants must undergo an interview.

Higher National Certificate in Manufacturing Engineering

LIMERICK
DUBLIN

About the Course

This course provides education and training of manufacturing principals and management to engineers, operators and technicians in the areas of manufacturing systems and processes.

Progression

Students of this course have the option to further their studies with our Level 6 Higher National Diploma in Manufacturing Engineering (BTEC) programme. Graduates of the Higher National Certificate in Manufacturing Engineering will have the ability for progression within their chosen fields of Manufacturing.

Engineering or across all various other industries will have the ability for progression within their chosen fields of Manufacturing, Engineering, or various other industries, including the manufacturing (traditional and modern), and services sector. It also allows the development of key work-related skills which are transferable to a variety of types of management and technical work, such as work in: manufacturing systems design, manufacturing, maintenance and technical services areas of the electronic, mechanical and the automotive engineering industries to name just a few.

Course Content

SEMESTER 1

Engineering Management, Engineering Maths, Production Engineering for Manufacturing, Quality and Process Improvement.

SEMESTER 2

Electrical and Electronic Principles, Engineering Design, Engineering Science, Managing a Professional Engineering Project.

Apply direct: www.griffith.ie
Course duration: **1 year**
Validated by: **BTEC**

Higher National Diploma (HND) in Manufacturing Engineering

LIMERICK
DUBLIN

About the Course

This course has been designed to provide technical training in the area of manufacturing engineering. Available to graduates from the Higher National Certificate in Manufacturing Engineering, the course delivers knowledge and work-related skills in a broad range of specialist disciplines and is suited to those who would like a career in the manufacturing/biopharma and medical devices industries.

Progression

Graduates may be considered eligible to join our Bachelor of Engineering in Industrial Engineering programme. Recent graduates of this course are currently employed as test technicians or research and development technicians, technical representatives, engineering plan technicians, junior engineers, production planners or production technicians.

Course Content

Year one

SEMESTER 1

Engineering Management, Engineering Maths, Production Engineering for Manufacturing, Quality and Process Improvement.

SEMESTER 2

Electrical and Electronic Principles, Engineering Design, Engineering Science, Managing a Professional Engineering Project.

Year two

SEMESTER 1

Advanced Manufacturing Engineering, Lean Manufacturing, Professional Engineering Management, Sustainability.

SEMESTER 2

Industrial Services, Manufacturing Systems Engineering, Research Project.

Certificate in Industrial Manufacturing and Maintenance Skills

LIMERICK
DUBLIN

About the Course

The Certificate in Industrial Manufacturing and Maintenance Skills is a one-year part-time programme run in partnership with ESS that provides key knowledge, skills, and competencies in Industrial Manufacturing and Maintenance related subjects. The modern manufacturing technician is required to be competent in a broad range of cross-functional technical skills (Electrical/HVAC/Refrigeration) and soft skills (Communication). There is a significant demand in the industry for such multi-skilled technicians. The CIMMS is designed to give operators and technicians the knowledge, skills, and competence to undertake a broad range of technical, maintenance and service tasks in an industrial manufacturing setting. These technicians are working in highly regulated industries including, but not limited to, pharmaceutical, life sciences, MedTech, and food and drink manufacturing and should therefore be familiar with Good Manufacturing Practices (GMP) and Quality Regulations.

Entry Requirements

Mature Applicants – Apply directly. Eligibility is based on work experience and/or life experience, demonstrating they have reached the required standards of knowledge, skills, and competence.

Under 23 years - Min. 5 O6/H7s in the Leaving Certificate, or equivalent. Subjects must include maths, English, and Irish or another language.

Course Content

Industrial Electrical and Safety Systems, Fundamentals of GMP and Quality Regulations, HVACR Principles, Workplace Communication

Progression

Graduates may progress onto the Higher National Certificate in Manufacturing Engineering or the B.Eng.IE.

Apply direct: www.griffith.ie
Course duration: **1 year, Part-Time**
Award Level: **Level 6**
Validated by: **QQI**

Certificate in

LIMERICK

Industrial Electrical Safety and Systems

About the Course

The Certificate in Industrial Electrical Safety and Systems (CIESS) is recommended for anyone who works with electrical systems and is designed to give non-electrical personnel the ability to diagnose industrial faults and to carry out repairs/replacements safely.

The QQI-accredited Certificate in Industrial Electrical Safety and Systems is a part-time course, run in partnership with ESS, typically delivered one day a week (4 days in class) with blended online supports over a 6-week period. The CIESS programme aims to turn out technicians with a knowledge of industrial electrical engineering and the skills needed to specify, install, test, and validate electrical and control systems and their operations in a safe manner.

Entry Requirements

Ideally, learners will have some prior technical or mechanical experience or knowledge and/or exposure to a manufacturing environment.

Applicants under age 23 - Min. 5 O6/H7s in the Leaving Certificate, or equivalent. Subjects must include maths, English, and Irish or another language.

Course Content

Basic Electrical Circuits, AC Power and Energy, Transformer and Motor Operations, Operation and Testing of Control and Power Circuits, Electrical Safety

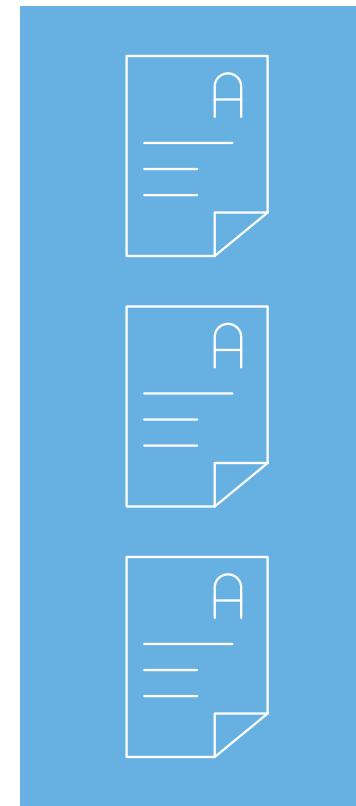

Progression

Graduates may progress onto the Certificate in Industrial Manufacturing and Maintenance Skills, Higher National Certificate in Manufacturing Engineering or B.Eng.IE.

Apply direct: www.griffith.ie
Course duration: **6 weeks, Part-Time, Blended**
Award Level: **Level 6**
Validated by: **QQI**

“ The certificate is an incredibly focused programme providing practical knowledge that can be readily applied to your teaching practice. The lecturers guide you through the modules, encourage discussion with your peers and make you feel part of the wider education community. I thoroughly recommend this course for anyone involved in higher education and training.

Danielle Townsend
Certificate Graduate

“ I found the Certificate in Desktop Publishing to be a great course to undertake. The course was highly practical and equipped me with skills which I can now use day to day in my current role as marketing executive. After completing the course, I feel confident to use all programmes in the Adobe Suite and I apply any hints and tips of the trade to my work as the lecturer is a designer in his own right. He was able to give the small class almost one-to-one attention when completing certain projects. The exams at the end really solidified what we had learned.

Griffith Conference Centre

Situated in the heart of Dublin, Griffith Conference Centre is a prime purpose-built venue situated along the scenic banks of the Grand Canal, only 2 kilometres from St. Stephen's Green.

The centre has been custom designed to provide the finest state-of-the-art facilities and the perfect environment for a successful and productive event. Griffith Conference Centre enjoys the convenience of a self-contained campus, complete with a restaurant, bar and catering facilities.

Our Conference Centre is designed for parties of 10 – 600 people, and is fitted with the latest technology including electronic blinds, electronically retractable seating systems, inbuilt PA systems, electronic overhead projectors and screens, air conditioning, retractable partition walls, in-house audio visual services, state-of-the-art lighting and sound systems, as well as a fully serviced catering operation on site. Our rooms vary in size and function, and this flexibility means that we can customise our facilities to match each client's unique requirements.

Facilities

Griffith Conference Centre can offer you venue hire for any of the following events:

- Concerts
- Exams
- Conferences

- Launches
- Conventions
- Lecture Theatre
- Ceremonies
- Presentations
- Exhibitions
- Press Events
- Filming
- Public Meetings

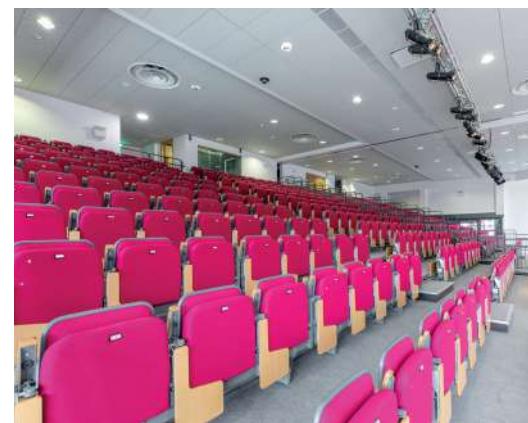

Catering

Conference Catering facilities are available on-site for your event with a wide variety of menus from finger food to Silver Service dining options. Our Conference Centre Event Planner works closely to ensure each client's unique requirements are met. Menus can be customised to meet each event's unique needs.

Information

Our state-of-the-art facilities have attracted an impressive list of clients including corporate associations, public sector bodies, performing artists and government organisations.

If you would like further information about our Conference Centre please contact the Conference Centre Office on: +353 (1) 416 3357 / 4163318 or email: griffithconferencecentre@griffith.ie
